Fraternal Orders and Societies.
Advertising for fraternal orders or societies charging a regular initiation fee and dues, no discount. Religious and benevolent orders will be charged the regular rate for all advertising when an admission or other charge is made.

What Constitutes Advertising?
In order to allay a misunderstanding among some as to what constitutes news and what advertising, we print this very simple rule which is used by newspapers to differentiate between them: "ALL future events, where an admission charge is made or a collection is taken IS ADVERTISING." This applies to organizations and societies of every kind as well as to individuals.

All reports of such activities after they have occurred in news. All coming social or organization meetings of societies where no money contribution is solicited, initiation charged, or collection taken is NEWS.
We make quotations on JOB WORK from THE FRANKLIN PRICE LIST. Same prices—Reasonable Price—to all.

Entered at the Ashland, Oregon, Postoffice as Second Class Mail Matter.
For there was never yet philosopher, That could endure the toothache patiently.—Shakespeare.

A very felicitous pointing of a moral, it must be conceded; a very appropriate bit of good advice given. President Harding has proven himself to be very much of a boys' man. He has the enthusiasm and the simplicity and spontaneousness of nature, which put him in rapport with boy nature.

A home in America and citizenship in this country are coveted by millions abroad. Conditions and terms of admission into this country should be made so searchingly rigorous that any alien who can gain admittance and can qualify for citizenship, may regard this privilege as an honor not to be despised.

The American farmer should have fair profits from his productions; but the American consumer also should have consideration. If the farmer is allowed excessive prices for his products, the consumer pays. The number of consumers who are

The HOME SPENT DOLLAR

Consider the wisdom and judgment of the HOME-SPENT DOLLAR. In its helpful community-inspiring career it always plays safe. Its business transactions are backed by guarantees. Advertisers are guaranteed goods. The merchants of this community do not advertise their wares unless they are good goods. It doesn't pay to advertise merchandise that is not good. And it is the home merchant who advertises his goods that attracts the DOLLAR—makes it the HOME-SPENT DOLLAR. He in turn directs the dollar back to guaranteed firms—the advertising firm. Follow the trail of the HOME-SPENT DOLLAR for two weeks—and you will learn that it enters the doors of the advertised firms. The jingle of HOME-SPENT DOLLARS is a merry tune—if we ALL play it together—and business will HUM to that tune, too!

Dainty Womanhood at Her Loveliest

Filmy things, as light as down, delicate, dainty colors, and a delectable freshness—the indefinable, refreshing fragrance of cleanliness—These mark the summer girl whom everyone adores. Yet it does mean tub frocks galore—but a summer wardrobe need not be an expensive one, nor is it a difficult one to keep up. It's our especial delight to wash, just as they should be, in the purest of rainsoft water and the mildest of sweet, white soap, these dainty, summery things. And because we are giving this service to so many women, we are able to do it economically, at a cost which you'll find most reasonable. We have made a study of summer fabrics. We know how each should be washed; when to iron and when not. Always we use scientific, modern methods which experience has proved best. And this saving service which means so much to your charming summer toilettes is yours to command, at any time. A phone call will bring our driver and in no time at all your pretty things will be back, as fresh and crisp as when new. Send us your family bundle, and don't hesitate to include your daintiest, dearest frocks. Ashland Laundry Co. Phone 165.

not farmers is greater than the number of farmers.

Politics is one game that should be relegated this year. The country needs much constructive work from congress—work that could not be done well if interlarded with partisan politics.

Do you recall, dear reader, that each year, just as the honest fruit buyer comes to the Rogue River valley and offers a fair price for pears and apples, a price netting a reasonable return to the buyer, some commission house publishes returns of fabulous prices just received from commission warehouse sales? These reports appeal to the cupidity of the average man, inasmuch that he refuses to sell for cash but consigns his fruit on a commission basis, and quite frequently gets his returns back in red ink.—Medford Clarion.

Visitors at Barron Home— Mrs. Robert Prosser, of San Francisco, Mrs. Amanda Wattles, of Portland, Mrs. Emma Myers and Mrs. Aimee Enders spent Thursday afternoon as guests of Mrs. Homer Barron and Miss Barron.

Cherries Go East in Car Lots— It has been proven definitely this year that cherries can be shipped long distances in large lots. The Oregon Growers Co-operative association has shipped over 300 tons of Royal Annes to eastern markets this season. This variety of cherry has been harvested and the black cherries are coming in now.

The association has been shipping Lamberts in car lots this year, and they are the first to go from Salem to the east in solid cars. The fruit has to be sorted with extreme care as only the best will stand the long trip, and the packages were labeled with the Mistland brand, which is the mark of the highest quality put out by the Oregon Growers Co-operative association.

Reports show that the cars are going through in good shape and that the fruit is standing up well on the long trip. The association is doing everything in its power to put Oregon fruit on eastern markets in such a way that the growers will receive the best returns for their products and Oregon fruits will come to be known as the best on the market.

We can save you \$200 a year in motor repairs

Faulty lubrication costs the average motorist \$200 a year for repairs alone. Still more money is lost through wasted power, gasoline and oil.

Faulty lubrication is not only costly but needless. Sunoco Motor Oil, with its six distinct types, guarantees accurate and efficient lubrication for your car and every other car.

Sunoco eliminates carbon trouble—keeps cylinders and valves compression-tight—protects bearings against friction—insures greater power and mileage on less gasoline and oil.

Let us analyze the lubricating requirements of your engine and tell you the right type of Sunoco to use.
