## The Difference of 150 Yrs.

OU'VE Heard the story of Paul Revere—how he clattered out of Boston and spread the alarm to every Middlesex village, etc. That was in April, 1775. It was an all night job. Today the Boston papers would slap extras on their presses and in the shake of a little lamb's tail the whole thrilling message would be in each home of the well known county.

This represents the advance of 150 years in the important business of spreading news.

The cry of "Extra-Extra" on the midnight air brings startled folks to their doors as once did the pound of a horse's hoofs and the breathless shout of the rider. Papers have supplanted the courier-multiplied his effectiveness many times-increased his speed a hundred fold.

How far back we would go without newspapers! We would remain in ignorance not only of events at home and abroad-but also of much that concerns us just as vitallynews of the very things that have to do with the personal. every-day life of each one of us.

Somebody might be selling a new, better and more economical food; or a utensil that would add immeasurably to our comfort and well-being; or some better material for making shoes or clothing-but we would never know it.

Modern advertising is a boon. It keeps our information up-to-date on the many things we need in order to live a profitable, happy and useful life in this age of progress.

Do you take full advantage of the advertising?

Read It!---It Pays!
