Fraternal Orders and Societies.
 Advertising for fraternal orders or societies charging a regular initiation fee and dues, no discount. Religious and benevolent orders will be charged the regular rate for all advertising when an admission or other charge is made.

What Constitutes Advertising!
 In order to allay a misunderstanding among some as to what constitutes news and what advertising, we print this very simple rule which is used by newspapers to differentiate between them: "ALL future events, where an admission charge is made or a collection is taken IS ADVERTISING." This applies to organizations and societies of every kind as well as to individuals.
 All reports of such activities after they have occurred is news.
 All coming social or organization meetings of societies where no money contribution is solicited, initiation charged, or collection taken is NEWS.

We make all quotations on **JOB WORK** from **THE FRANKLIN PRICE LIST.** Same prices—Reasonable Price—to all.
 Entered at the Ashland, Oregon, Postoffice as Second Class Matter.

To glory some advance a lying claim.
 Thieves of renown and pilferers of fame;
 Their front supplies what their ambition lacks;
 They know a thousand lords behind their backs.—Young.

PUBLIC FORUM
 To the Ashland Public:
 The Ashland Park Commission asks your forbearance in any censure for the care taken of the Plaza park near the Carter memorial fountain, for the following reasons:
 On the 7th day of last June, Commissioner McNair appeared before the city council at a regular meeting with a request for the city to have the irrigation of the Plaza park attended to, which they agreed to do, with the proviso that the park board do the moving, which was accepted.
 About July 19, when the lawn was drying up, Commissioner Butler called the attention of Mayor Larkin to the condition there, and was assured that it would be attended to.
 If the Plaza lawn burns up, we ask the public to place the blame where it belongs.
 ASHLAND PARK COMMISSION,
 By G. S. Butler.

TO IDENTIFY OREGON WHEAT
 Specimens of more than 300 varieties of wheat are being sent by the farm crops department to W. C. Clark, head of the department of cereal investigation in Washington, D. C., for standardization in name and classification. The same varieties of wheat have been grown in different parts of the United States under many different names. Mr. Clark will endeavor to give a standard name and classification to each variety. Of the 300 varieties of wheat to be sent, only 125 are accurately named. These are all grown on the college farm under the supervision of the experiment station.

SHIPMENTS OF FRUITS AND VEGETABLES ALMOST DOUBLE
 Carload shipments of fruits and vegetables this season up to July 2 have been nearly twice as great as

August 10 Will See Completion Of Pacific Highway in County

The state highway commission is to be complimented for the splendid work it has been doing and is now doing in the state and especially in Jackson county. A drive over the wonderful strip of the Pacific highway from Medford to the California line, all of which is now hard surfaced excepting about 2000 feet that will be completed by August 1 to 10, will convince you of this fact as well as make you feel proud that the entire Pacific highway through this county, a distance of fifty-five miles, will be hard surfaced by the first of August.
 The writer had the pleasure of accompanying District Engineer K. E. Hodgman over this highway last week, and although we had been over it several times it is always a delight to ride on such a well built highway with its graceful curves and easy grades, winding through the mountains and through the beautiful timber as it climbs to the summit of the Siskiyou, over 4500 feet high, where you catch the cool mountain breezes, view Mt. Shasta and other snow caps, and then drop down on the other side to the California line, where, by the way, the paved highway ends and you pick up the

California dirt roads.
 The last strip of highway now being completed, is at the summit, where the plant of Oskar Huber, the contractor for the Siskiyou paving, is located. The work from Ashland to the California line was done by Oskar Huber and is a credit, not only to the contractor, but to William Strahan, who is in charge, and his assistants, as well as to District Engineer Hodgman, George McVickar, local engineer, J. Drew, state inspector, L. E. King, inspector in charge, and the highway commission.
 The twenty-one miles of road from Ashland to the state line has cost in round figures more than \$800,000, of which the state has paid about three-fourths and the county one-fourth.
 The state is now having about a mile of guard fence built on the sharp curves, is laying several miles of drain tile in the ditches along the highway, and cutting down some of the hills where slides occur, in order to get ready for the rains and to make the highway an all-the-year-round thoroughfare.
 The highway between Ashland and Medford is also being repaired while the Oskar Huber plant is in operation.

they were during the corresponding period last season, despite the increase in freight rates, according to statistics just published in the Market Reporter, official publication of the department of agriculture.
 So far this season, according to that publication, car load shipments have totaled 598,524, compared with 315,597 during the corresponding period last year.
 Tabulations by states as to carload shipments up to June 4, show that of thirteen fruits and vegetables decreases occurred in only two, while increases were reported in eleven.

COUNTY COURT PROCEEDINGS
 The following is a schedule of expenditures of Jackson county, Oregon, together with a list of the claimants and articles of service for which the claim is made, and which were passed upon by the County Court of Jackson County during the month of June, 1921.

The following bills were allowed as follows with the exceptions shown:

County Court and Commissioners	
G. A. Gardner, county judge's salary	\$153.00
Victor Bursell, county commissioner's salary and expense	64.66
James Owens, county commissioner's salary and expense	115.00
G. A. Gardner, county judge's traveling expense	45.50
Home Tel. & Tel. Co., county judge's telephone bill	9.85
Kloeker Printery, county judge's office expense	11.00
Western Union Tel. Co., telegrams for county judge	1.32
Total \$400.27

When heated, water escapes from the radiator in the form of steam. In the same way oil vapors pass out through the breather pipe when the oil is subjected to engine heat. Low evaporation loss is an indication of the oil's lubricating quality.

THE MOTOR OIL FREE FROM DESTRUCTIVE SULPHO COMPOUNDS
 Produced under the new HEXEON process.

Excessive Oil Evaporation Reduces Mileage and Power

Cycol reduces evaporation loss. It has the stability to withstand terrific engine heat owing to its peculiar chemical characteristics.

Excessive loss of oil through evaporation means that the oil is not suitable to withstand engine heat. Poor oils contain a large percentage of volatile and non-lubricating constituents which are liberated when subjected to operating temperatures and pass out through the breather pipes as vapor.

Power and mileage are reduced. Some oils lose as much as 50% in evaporation during a 10 hour run.

Scientific tests in our special motor laboratory show that evaporation loss is greatly diminished with Cycol in the motor. That means better lubrication and more mileage.

Cycol is the new and different motor oil. It is free from destructive "sulpho" compounds. These are removed by the new Hexeon Process, used only by us. Oils containing "sulpho" compounds break down rapidly under engine heat.

Cycol-ize your motor. Clean the crank case—not with kerosene—and refill with the correct grade of Cycol as shown by the Cycol Recommendation Chart. The price of Cycol is 25c to 35c a quart according to grade.
