# RUSSIA RELEASING AMERICAN PRISONERS

## BRITISH ARE FRIENDLY TO UNITED STATES

"FRIENDLY CO-OPERATION," SAYS PREMIER LLOYD GEORGE IN SPEECH

## AMERICAN MONUMENTS POPULAR IN ENGLAND

MANY STATUES OF AMERICAN NATIONAL FIGURES ARE IN BRITISH PARKS

By CLYDE A. BEALS (United Press Staff Correspondent) LONDON, July 30.—Everything on this side of the water points to the rapid increase of good feeling towards the United States. The unthinkability of quarreling with America is only rivaled as a popular newspaper topic by the impossibility of war.

"Friendly co-operation with the United States is for us," said Mr. Lloyd George in his opening address to the dominion premiers now meeting in London. "A cardinal principle \* \* \* We are ready to discuss with American statesmen any proposal for the limitation of armaments which they may wish to set out, and we can undertake that no such overtures will find a lack of willingness on our part to meet them."

Washington Busts Are Common That, however, only came as a climax to what has gone before, and serves as a keynote for what has gone on since. The last few months have seen a sudden growth of Washington busts and statues in England. The Sulgrave institution presented three busts, one to Liverpool, one to Sulgrave manor, the home of Washington's ancestors, and the third went to one of the most sacred spots in the British empire, the crypt of St. Paul's cathedral. The "Heart of England," Trafalgar Square, now treasures a replica of the Houdon statue of Washington, presented by the state of Virginia.

## Medford Woman Killed, Automobile Wreck, Identified

MEDFORD, Or., July 30.—Mrs. William Matthews, killed Thursday in an auto wreck at Pasco, Wash., has been identified here by a special dispatch from Pasco stating that Mr. Williams was a former employe of the Bullis and Sweis cannery of this city, and came here from Butte Falls. The reason the Matthews name did not appear in the Medford directory, was due to the fact that while here they lived in their Ford car, going away in the winter, and never had a permanent home here. Mr. Matthews worked for some time at a lumber mill on Butte creek, before coming to Medford, and he and Mrs. Matthews are well known in that vicinity. The Matthews lived in this vicinity about four years.

Mrs. Matthews is believed to have been about 55 years old, and her husband considerably older. It is assumed here that they were traveling in their Ford car when the accident occurred. Although Mrs. Matthews was not well acquainted in Medford, she had many friends in the vicinity of Butte Falls, and Mr. Matthews is well remembered by Messrs. Bullis and Skeewis and many business men in the city. After the cannery work stopped, Mr. Matthews worked for a time on the highway and it is believed left last winter for the north.

## American Girls Are Puzzle to Prof. Einstein

NEW YORK, July 30.—As George M. Cohan once remarked musically before the footlights, "We're all but poor weak mortals after all." Professor Einstein, who explained his theory of relativity so that it was clear, or relatively so, to some people, proves that he's not so much of a human fourth dimension after all. He said in an interview here: "All classes of American girls dress like European aristocrats. For instance, a girl passed me on the street who looked like a queen. She was dressed not only in the best style, but in perfect taste. I thought she was a millionaire, but she turned out to be a typist in a hotel." All of which, perhaps, goes to prove that everything is relative, as Mr. Einstein once said before, and that you can't be sure anything is what you think it is.

It is estimated that between 300 and 400 members of the I. O. O. F. and their families, from Medford and other Rogue River valley points, attended the Odd Fellows picnic held at the Bungalow in Lithia Park yesterday evening, beginning at 7 o'clock. With bulky baskets much in evidence, lunch was spread at the picnic grounds in the park, where many a tale of "old times" was recalled by the sight of familiar faces, and recited over the steaming coffee cups.

After lunch the party took possession of the Bungalow, where an evening of entertainment, speaking and dancing was enjoyed by the crowd. After the opening ode, a program was given, the Kaegi sisters rendered a duet. Hershel Tinker followed with a song, "The Little Gray Home in the West." After a reading by John Meland, of Medford, a violin solo with piano accompaniment was given by the Buchanan sisters. The main address was given by E. E. Wilson, after which the evening was spent in dancing.

Owing to the number of riders asking for camping accommodations a separate camping ground for them is being arranged at the edge of the city.

## CONSIDERED PART OF GREAT LABOR STRUGGLE; STRIKE

800 POLICEMEN QUELL 13,000 SHIPYARD WORKERS; MEN TRY TO RUN YARDS

TOKIO, July 30.—One hundred persons were injured here today when 13,000 shipyard workers at Kobe participated in a furious riot. Terrific fights among the workers were reported in progress before 800 policemen with drawn sabres charged the mob and restored order. Twenty policemen were included among the hundred injured.

Martial law was declared in effect following the riot which took place as part of what authorities believe to be a portion of Japan's greatest labor struggle. The Kobe shipyard workers struck two weeks ago and after establishing a workmen's council, proceeded to operate the shipyards by themselves.

The Norling mine was discovered and developed in 1895, and during the development the next two years was reported to have produced 120 tons of ore valued at \$6400. It was last operated in 1913 and up to that date had produced a large body of rich ore mined netting from \$50 to \$100 per ton. The present equipment on the mine consists of a five-stamp mill.

## NORTHLIFFE BELIEVES BOYCOTT WILL NOT BE EXTENDED IN CANADA

NEW YORK, July 30.—Lord Northcliffe reached here today enroute for Canada, where he expects to begin a tour of the British dominions. Washington reports received here indicate that officials and diplomats are watching to ascertain if the British boycott on the famous London Times publisher continues on his arrival in Canada.

Lord Northcliffe stated that he believed the boycott would not be carried out in Canada, as he thought the people would not tolerate it. Those who are watching the "word war" between Lloyd George and Lord Northcliffe are not so certain of such an attitude, however.

## Cows Are Fed Woodmeal Keep Up Production

SAN FRANCISCO, July 30.—The thrifty horse owner who put green goggles on his beast and fed it excelsior and successfully had fooled the animal when it "up and died," is about to be vindicated. The forest service of the department of agriculture successfully has been feeding sawdust to milch cows.

A ration of one-fourth wood meal was increased to one-third and the cows experimentally kept up their weight and milk production and showed no ill effects. White pine sawdust was used from Wisconsin and Michigan forests. Now the bureau of animal industry has offered to cooperate with the forest service and try out some cows on western woods hydrolyzed into meal. The wood will be treated at the animal industry laboratory and fed as a ration for an entire year to make a thorough test.

## HAWLEY DIVORCE SUITE DENIED BY SUPREME COURT

SALEM, Or., July 30.—Denying applications for divorce by both Marjorie Hawley and Willard Hawley, son of a millionaire Oregon City paper manufacturer, the state supreme court today reversed the Clackamas county court decision, which granted Willard Hawley his divorce and the custody of their child.

The court declared that neither side proved their charges of cruel, inhuman treatment, as filed when Marjorie Hawley applied for divorce November 21, 1919, and Willard Hawley December 30 of the same year.

The opinion reads: "The plaintiff and defendant, married four years, had misunderstandings which they were finally unable to condone. The plaintiff filed a divorce complaint which the defendant denied and countercharged. There was criminal and recrimination, each forgetting their vow to love and cherish, and the value of their good name. Their duty to their infant daughter was disregarded, and the mutual defamation followed."

## HUNGRY HORDES FIGHT ENTRY TO FOOD DISTRICTS

RECEIVE OFFICIAL NOTICE OF MRS. MARGUERITE HARRISON'S RELEASE

REPLY TO HUGHES EXPECTED SOON

SOVIET NEWSPAPERS DIFFER ON CONDITION OF THE FAMINE SITUATION

WASHINGTON, D. C., July 30.—The state department has been officially advised by the Russian soviet government that it has released Mrs. Marguerite Harrison, of Baltimore, who has been imprisoned in Russia for over a year, together with other Americans.

The official release is regarded as beginning the release of all Americans held in Russia, as it is concurring with the request of Secretary of State Hughes, that Americans be freed before any aid will be given to the millions of Russians now facing starvation in a country swept by drought and pestilence. The official reply to Hughes' demand is expected within a short time.

RIGA, Russia, July 30.—Soviet newspapers here admit that the conditions of famine and pestilence in Russia are terrible, and that thousands are dying daily. The inhabitants of districts and towns as yet untouched by famine are fighting to prevent the moving hordes of starving people dispossessing them. Several massacres have been reported where the locust-like caravans have been turned back from the plentiful areas. Apparently heartless ones, in doing so, claim that they are defending their homes.

Sixty-three Russians of all classes have been placed on the famine committee and empowered to commandeer food and trains. They have been given wide powers of authority to relieve the situation and face the gigantic task.

Some soviet newspapers are denying that a critical situation exists, admitting that the crops of the Volga region are ruined, but stating the Ukraine crops are far above the average.

## The Grand Jury Adjourns; Meet Again August 24

The grand jury, contrary to general expectation that they would be in session several days, adjourned Thursday, after indicting Anthony Reardon and Philip Forester. The latter was indicted on three counts. Forester and Reardon were arraigned in circuit court yesterday afternoon.

Forester entered a plea of guilty to the indictment for assaulting Bert Moses, county jailer, with a dangerous weapon, at the time of his escape from jail months ago, and his bail was fixed at \$2500. However, he did not enter pleas to the indictments charging uttering a forged check, the cause of his original arrest here, and striking and wounding a jailer. He asked for an attorney before entering pleas to these indictments. Bail was fixed at \$1000 in each case, which makes his total bail on the three indictments \$3000.

Reardon entered a plea of not guilty to the indictment charging taking an auto from the railroad yards here without intent to steal it, and his bail was fixed at \$500. The cases against both Forester and Reardon will be tried at the next term of circuit court, which begins October 24.
