Don't Expose Your Property to Loss

If you were carrying \$5,000 or more of cash in your car you'd want to have it insured.

But are you not driving your car, with about all of your prop-

erty exposed? If you injure a man, and he obtains a damage verdict against

you, you've got to pay it. If you haven't the cash, your property can be sold to get it.

Don't risk your house, your bank account, your business. Let first class automobile policy stand between your worldly goods and the result of that possible accident. DO IT NOW. A few dollars today may save you a few thousand tonight.

Sir Walter Raleigh Had A Bright Idea

OU remember the episode of the rainy day when he threw his cloak into a puddle that the good queen might cross without getting wet feet and perhaps the flu. That was advertising. Sir Walter had a message of import to her majesty. He wanted a hearing. He got it-by a courteous and ingénious method of attracting favorable attention. It was another case of advertising that paid both ways.

Business today is metophorically throwing its cloak before you. It seeks your favorable attention. It uses its most effective method of capturing it-advertising. Day after day it caters to your tastes, and your desires through advertising.

The firms who advertise in the Tidings believe that if they succeed in getting their message across to you, you will often be interested and sometimes inspired with a little of their own enthusiasm for their wares.

Advertising will help you. Whether you realize it or not. advertising is a big vital force in your life. Through it, Ameri can genius and American manufacturers are putting within your reach the many boons of modern life. Advertising keeps your information up to date on every

article of human need, whether food, clothing, articles of household utility, necessities or luxuries.

Advertisers deserve your support. The queen knighted
