# Save the cost of cleaning out carbon

Cleaning out carbon costs the average motorist from \$2 to \$8 every 1500 to 3000 miles. In addition, carbon damages the engine, reduces its power, cuts down gasoline mileage and runs up repair bills.

You can avoid carbon troubles by using SUNOCO Motor Oil—the oil that eliminates hard carbon deposit.

SUNOCO is a wholly-distilled, non-compounded oil-free of carbon-forming elements. Begin using it at once. We will tell you the right type for your car.
