**THE HABIT OF SAVING**

Good habits are as easily formed as bad ones, and persist longer. That is why parents should teach their children the delight of financial independence, the ability to get big things by foregoing trifles—in general—the same use of money. The First National Bank welcomes the savings accounts of boys and girls. We know that the ones who acquire the thrift habit now will later on be the substantial citizens of this community.

**From the makers of U.S. Royal Cords to the users of Fabric Tires**

**THE U.S. USCO TREAD**

Here is the U. S. Usco Tread, with a long-established standard of service among motorists who have an eye to value, as well as to price. While selling for less than the other tires in the U. S. Fabric line, the Usco has earned a reputation for quality and dependable economy which is not exceeded by any tire in its class.

**IN all of modern merchandising the biggest conundrum is the fabric tire situation.**

Around 70% of all car owners use fabric tires.

Their instinct for *quality* is as strong and insistent as any one else's.

Why, then, are they offered such hodge-podge stocks of "discount tires," "odd lots," "seconds," "retreads" and other so-called bargains of uncertain origin?

Sooner or later the public always seeks out *quality*. As a matter of *self-protection*—if for no other reason, The out-and-out opinion in favor of U. S. Fabric Tires has spread more this year than it ever did.

People have gotten very close to the U. S. policy. Felt it. Benefited by it. And passed the word along. It's a policy settled to one standard for *all* U. S. Tires. Whether fabrics or cords. Small sizes or large.

Giving to the *fabric* tire user *fresh, live tires*. Being made now. Being shipped now.

All the original U. S. *vitality* and *service* comes through when you buy a U. S. Fabric Tire.

"Usco," "Chain," "Nobby." Three different treads. Built by the same brains, the same policy, the same quality ideals that have made U. S. Royal Cords the *standard* measure of tire worth.
