NO. 297

## GERMAN CHANCELLOR RESENTS TREATY

### STATE TO WORK K. FALLS AND ASHLAND ROAD

STATE CALLS FOR BIDS ON FOURTEEN MILES OF GRADING

### START MACADAM ROAD WORK NEXT MONDAY

KLAMATH FALLS-ASHLAND HIGHWAY MACADAMIZED BY NEXT FALL

SALEM, Ore., Aug. 19.—Bids for the improvement of approximately 55 miles of highway and construction of several bridges at an aggregate cost of more than \$1,000,000 will be considered at a special meeting of the state highway commission in Portland, August 30.

Thirteen counties in the state will be affected by the proposed road improvements, while bridges will be constructed in six counties.

It was announced at the highway commission offices today that an effort will be made to get many of the contracts under way this fall.

The proposed work in southern Oregon is as follows:

Jackson and Klamath counties—Ashland-Klamath Falls highway Jenny creek-Hayden section, two units, 143 miles grading.

Jackson county—Pacific highway, Ashland-Talent section, widening present roadbed.

Pacific highway, Central Point-Gold Hill section, widening present roadbed.

Josephine county—Pacific highway, Wolf Creek-Gravies Creek section, widening roadbed.

### Engineer Explains Work

According to a statement made this morning by G. E. MacVicar, resident engineer for the state highway, the proposed road contract between this city and Klamath Falls will call for 4 1/2 miles of road work in Jackson county and 10 miles in Klamath county. The work will begin where the county road work ends at Jenney creek bridge on the Green Springs road and will end at Hayden. With the letting of the proposed contract only one more unit of 12 miles to Keno in Klamath county will be left for future grading. Mr. MacVicar states that a contract for the 12 miles is expected to be let within the next year which will complete the highway between Ashland Klamath Falls. A macadamized road from Klamath Falls to Keno is already existing and would connect up with such improvement.

### Macadamizing Highway

Macadamizing of the highway from Ashland to Keno creek from the Tyler Bluffs on the Pacific highway will be started Monday, according to Engineer MacVicar. The distance between the two points is 12 miles. A rock crushing plant has been installed at Tyler Bluffs by A. D. Kern, to whom the rock crushing contract has been given. Mr. MacVicar states that the entire road between Klamath Falls and Ashland will be macadamized by fall of next year.

### Favored by Business Men

Improvement of the Klamath Falls-Ashland highway has been an issue among business men of this city and Klamath Falls. News of the Jenney creek-Hayden section construction will be received with great favor by members of the Chamber of Commerce of both cities as both organizations have been making efforts for better roads to stimulate traffic and business interests between the two places. A better road from Ashland to Klamath Falls was one of the main topics at a recent Chamber of Commerce luncheon given at the Hotel Ash-

### Large Hay Crop North End Co; Cattle Needed

GOLD HILL, Or., Aug. 19.—On the eve of a large acreage of wheat seeded under the Gold Hill irrigation district, which will come into production next season, the north end of Jackson county has just harvested the largest hay crop in the history of the region. With a large export trade in hay gone, formerly enjoyed by this valley in supplying the lumber camps and mines, where horses and oxen have been supplanted by auto trucks and donkey engines, the pressing need of the farmer is more cattle, especially dairy cows, to feed these crops on the farm.

### REPORT REJECTION BRITISH TERMS AT IRISH CONFERENCE

LONDON, Aug. 19.—With Ireland and England both rushing preparations for a renewed war, Premier Lloyd George told the house of commons today in a speech before that body that he had said "all he was going to say" in letters to Eamon De Valera, president of the "Irish republic," now presiding at a closed session of Dail Eireann.

Lloyd George stated that the British government had gone the limit in making offers of peace to Ireland. He said that his only objection to the terms is that they are too generous. From his viewpoint, he stated that it was inconceivable that Ireland should consent to renew the struggle as a resume of fighting would bring economic ruin to their country.

Reports received here from Dublin indicate that the Irish republican army is preparing for war. Dail Eireann, after having been in closed session since yesterday, is reported today as having rejected the British proposals and are drafting counter demands. The Irish parliament is expected to meet Monday to pass upon the counter proposals and make a public announcement of their decision Tuesday. The situation is regarded as extremely grave.

Armed troops of the Irish republican army are guarding the old mansion house at Dublin where the Dail Eireann is holding its meeting. The building is surrounded by huge crowds awaiting the decision determining the fate of Ireland.

### Local Miners Urged to Meet; Portland Aug. 22

Henry M. Parks, director of the Oregon Bureau of Mines, has requested that all local mining men be advised that he is very anxious to have them come to Portland on Monday, Aug. 22, to confer with James F. Galbreath, secretary of the American Mining congress, on the subject "Concerning important developments relative to tariff and tax legislation."

A tour of the country is being made by the secretary of the mining congress in order that he may meet many of the representative men in this line of business before the opening of the mining congress in Chicago, in order that the views of the leaders may be advocated for the adoption by the national government.

Mining men who plan to be in Portland before long should endeavor to be there next Monday and if possible advise Director Parks in advance of their coming.

## Nine Year Old Girl Is Hit By Auto Near Talent, Dies

### Eliminate Wilson, Confere Delegate; France Is Serious

WASHINGTON, D. C., Aug. 19.—France is regarding the coming disarmament conference in a serious frame of mind, according to Marcel Hutin, famous French journalist, who declared that, "After the conference at Washington we will breathe again."

President Harding is still working upon the personnel of the American delegation to attend the coming conference, especially democratic members. Ex-president Wilson and his close followers on the League of Nations plan have been eliminated. Senator Pomerene, Ohio, and Senator Underwood, Alabama, are the two chiefly considered. Both are thought to be pleasing to the democrats.

### OUTSIDE STUDENTS MUST PAY TUITION FEE AT O. A. C.

OREGON AGRICULTURAL COLLEGE, Corvallis, Aug. 19.—(Special.)—Students from other states than Oregon entering the Oregon Agricultural college or state university hereafter will be charged a tuition fee of \$60 a year, payable in \$20 installments at the beginning of each term, in addition to the regular registration fee. Ex-service men and women from outside states will be charged one-half of this sum—\$30 a year, or \$10 a term.

The policy of charging tuition to non-resident students was adopted by a joint committee of the boards of regents of the two state institutions. The advisability of making this charge had been under consideration for some time, and a bill providing for it was up before the state legislature last winter.

Tuition Basis Established The bill was not passed, as it was

### EDITH WATKINS RUN DOWN AT RANCH HOME

Edith Watkins, 9, daughter of Mr. and Mrs. J. W. Watkins, ranchers living two miles north of Talent on the Pacific highway, died yesterday evening within 20 minutes after being run over in front of her home at 6 o'clock by an automobile driven by Ford Roper, a tourist of Lodi, Calif. Information received here this morning by telephone from neighbors near the Watkins ranch, is to the effect that the child ran in front of the oncoming Roper car while making an attempt to cross the road after running around the Watkins auto, parked on one side of the road.

It is said that a hay rack obstructed the view of the highway at the place of the accident. Mr. Roper and party were southbound from Medford and were on the way to Wagner Gap where they intended to camp preparatory to the opening of the deer season tomorrow. From what information that can be obtained it is understood that Mr. Roper is not blamed for the accident. The body of the accident victim was taken to undertaking parlors at Medford.

Mr. Roper, who is a former well-known Ashland man, arrived with his party from Lodi, Calif., about a week ago. Since his arrival here he has been making auto tours to Crater Lake and points of interest in Southern Oregon. He has been visiting friends and relatives in this city and Medford during the past few days. Mr. Roper is one of the "Knob Hill Roper" family, well known here in past years. Mr. Roper is now at Wagner Gap, it was stated this morning, and could not be reached for a statement regarding the accident.

The Watkins family had just returned from a picnic held near Talent earlier in the afternoon when

### Police Rout 60 Hoboes From Stolen Freight

LOS ANGELES, Aug. 19.—Heavily armed posses engaged in a pitched battle today with 60 hoboes, who stole a freight train and sped toward Los Angeles. The posse stopped the train outside the city and fought with the hoboes, capturing 34 of them. Twenty-six of the gang escaped. Numerous injuries were sustained by the combatants as the authorities rounded up the "kidnapers" of the train.

The freight train steal is similar to a hobo train raid near Denver, Colo., several months ago. At that time hoboes commandeered a train bound for Denver but were afterwards jailed in that city despite their pleas that they were "tourists."

### BRUMFIELD IS SMUGGLED IN ROSEBURG JAIL

ROSEBURG, Aug. 19.—Dr. R. M. Brumfield is in jail here today after having been quietly smuggled in last night by Sheriff Starmer and two deputies. The officers and prisoner left the Shasta limited at Edenbower, one mile north of Roseburg, last night, jumped into an automobile kept in waiting and made a fast run to this city, placing Brumfield in jail at midnight.

There were only a few people gathered at the jail and no demonstration was made. Brumfield was happy when the doors of the jail closed on him, allaying his fear of a mob. He told the officials that he was glad to get home again and he was asleep on his cell cot within 15 minutes after his arrival. He wants to see no one but his wife, children and lawyers today.

WEATHER FORECAST FAIR.

### Senator McNary To Return From Congress Sept. 1

SALEM, Ore., Aug. 19.—Senator McNary will return to Salem from Washington September 1, according to a letter received here today by his brother, John McNary. Senator McNary will remain here less than two weeks and will return to Washington in time to answer roll call when congress reconvenes September 21, after the summer recess.

While in Oregon Senator McNary expects to visit several coast counties where requests have been made for port improvements.

### DEPUTY SHERIFF HOT ON TRAIL OF BOOTLEGGERS

In raids by deputy sheriffs and special agents in the hills back of Jacksonville Wednesday three stills were located and seized, and two men, J. M. Rock, a farmer, and Ike Coffman, a homesteader, were arrested. Rock pleaded guilty to the charge of having a half-gallon demijohn of whiskey in his possession. Upon the plea that he was the father of five children and a new arrival expected any day he was allowed to go on his own recognizance until Saturday morning at 10 o'clock. The owner of the third still said he would appear today. A special agent, asked what Rock's name was, divulged the information that it was "Jim Stone."

Coffman, through his attorney, was given until Friday morning at 10 o'clock to plead, and is at liberty on \$250 bonds furnished by Jesse M. Taylor, a well-known Applegate rancher. Coffman is charged with having in his possession "a mixture of figs, prunes and water in the process of fermentation."

### "Squirrel Whiskey"

According to the arresting officers, the still alleged to have been operated by Coffman was an emergency source of supply for Medford moonshiners. They claim it was a highly unsanitary proposition. His mash was kept in a tin boiler in a deserted shack and dead gray squirrels and bats were found around the still, the animals having dropped from the rafters into the brew and cooked alive. The tin boiler, the officers said, was enough to insure

### LEADERS IN SOCIAL REFORM IN NATIONAL W. C. T. U.

MRS. L. MILLER Made by Norma E. Ewing

MRS. DEBORAH KNOX LIVINGSTON Made by Gay Goodrich

DR. VALERIA H. PARKER

Dr. Valeria H. Parker of Washington, D. C., is identified with a number of organizations for which she directs the program of social hygiene. She is National Director of the Department of Social Morality of the W. C. T. U. and will be present at the approaching convention to present the plans which she has developed for the activities of that organization in her field of work. Dr. Parker has recently been appointed executive secretary of the United States Interdepartmental Social Hygiene Board, the first woman to be put in charge of such an office.

Mrs. Deborah Knox Livingston is an orator of international reputation. She has spoken in every state in the Union. She has helped in campaigns in Canada, Scotland, England and on the continent of Europe, in the interest of prohibition and the better citizenship of women. She is the National Superintendent of the Department of Christian Citizenship of the W. C. T. U. and is heading all the energies of her department to the arousing of a greater sense of civic responsibility in the women of America.

Mrs. Laura Parks Miller, Director of the Department of Women in Industry of the National Woman's Christian Temperance Union, has already secured the attention of the public for her work in this branch of social reform. Her ambition is to bring into the membership of the Woman's Christian Temperance Union at least 25 per cent of the women of the community engaged in gainful occupations. Thus she hopes to bring about a better understanding between women who work outside the home and those whose activities and interests center about the hearth. Mrs. Miller is doing valuable research work and compiling figures which are of considerable importance and significance to workers in every branch of welfare work.

### Klamath Indians To Get \$150 Each; Timber Land Sale

KLAMATH FALLS, Ore., Aug. 19.—Klamath Indians on the reservation are \$150 richer apiece today as the result of the division of \$200,000 from the government for proceeds from sale of timber on unallotted lands. A fund of \$375,000 was available for distribution last fall, but new receipts from sales of timber have taken place, bringing the fund above the \$400,000 mark. This sum distributed today was about 50 per cent of the money in the Indian communal treasury.

Four years ago about \$400,000 was distributed among the Indians with the provision that it be invested in cattle. The present distribution is unconditional.

### REGARDS U. S. PROPOSALS AS TOO DRASTIC

CHANCELLOR FEARS THAT GOVERNMENT MAY BE OVERTHROWN

### REPARATION FOR LUSITANIA ASKED

UNITED STATES DEMANDS REPARATIONS FOR WAR LOST LIVES

BERLIN, Aug. 19.—Chancellor Wirth intimated to the United Press today that the present German government would be overthrown if he should sign the American draft of the peace treaty between his country and the United States. Chancellor Wirth regarded the American proposals as too drastic.

Reparation for American lives lost in the great war is one of the demands of the United States in drafting a treaty of peace with Germany. It was reported here today. The demand and others stirred resentment of German leaders, but they were prepared eventually to accede to all of them and sign the treaty as early as possible.

Germany, however, takes the position, according to authoritative statements, that she cannot assume any more obligations than are contained in the Versailles treaty.

Neither group of negotiators would state whether the United States is asking reparation for lives lost in the sinking of the Lusitania. The Germans, however, let it be known that if such payments are demanded the United States must ask it of the allied nations, who will be expected to pay it from the German indemnity to them.

Deep disappointment has resulted in Berlin because of the negotiations, but the Germans admitted that the understanding will be reached soon—and according to the American terms.

### Ashland Hunters Are Ready For Deer Season

Rifles of all sorts, from 30-30s to carbines, are being hauled down from old resting places and are getting the cleaning of their lives. The sport of sports—deer hunting—opens tomorrow.

Automobiles are also being gone over carefully and loaded with all the necessities for such a trip. All of the hunters seem to have developed a new disease this year—the getaway fever.

Predictions from hunting enthusiasts are that game is more plentiful this season than it has been for some time and that if the predicted showers fall, they declare the sport will be the best in recent years.

Notwithstanding the fact that hunting licenses cost \$3 this year against \$1.50 during former years, more than 80 licenses have been sold this month.

It is rumored that several members of the fair sex intend to don riding breeches and puttees and compete with their husbands in the hunt this year.

Along with the usual preparation for the big hunt comes the usual and timely warnings from the old-timers, which, if properly heeded, may save the life of some stray cow, horse or human—don't shoot unless you know what you are shooting—don't fire at any little stir in the bushes—be sure you can see the horns of the deer. In this instance it will prevent the yearly slaughter of does. Now for the sport.
