## SINN FEIN MAY ISSUE WORLD MANIFESTO

### ESPEE EMPLOYEE RETURNS FROM OLD MEXICO

MAKES TRIP TO INSPECT NEGLECTED PROPERTY IN MEXICO

HAD TO CUT WAY IN ROADS OF INTERIOR

GIVES AID TO AMERICAN WOMAN HELD UP BY PASSPORT TROUBLE

J. G. Lucy, 111 Third street, an employe of the Southern Pacific company, who returned yesterday from a six weeks trip to the interior of Mexico, has many an interesting tale to tell of the land made famous by chili con carne and revolutions.

Mr. Lucy made the trip for the purpose of investigating the condition of the property that he has owned for several years but has been unable to make any use of owing to constant military disturbances in that country. Mr. Lucy's property is included in a tract of land owned by an American company and improved with 40 houses. Out of the 40 houses the only one left standing in a usable condition is one belonging to the estate of Mrs. N. Cunningham, who died in this city some time ago.

Travel to his property was difficult, Mr. Lucy says. Shrubbery and tropical undergrowth constantly blocked the roads and paths, necessitating the cutting and chopping of a roadway. In speaking of the dense vegetation Mr. Lucy told of a large hollow vine that grows in great profusion in the southern country. The vine, he explained, contains pure water on the inside and is much used by the natives in the place of a water flask.

Mr. Lucy states that Mexico is a rich country, capable of producing great fruit, vegetable and wheat crops. He says that corn with stalks 22 feet in height are raised in Mexico. The corn, however, is radically different from the corn raised in this country and has only two ears to the stalk.

While in Mexico, Mr. Lucy, in company with several members of the Elks club at Mexico City, was of assistance to an American woman who was having trouble in obtaining entrance to the United States through technical defects in her passport to this country. The woman had been making a tour of Europe and in entering Mexico before returning to the United States had unwittingly failed to comply with the immigration laws. Through the efforts of Elks in Mexican cities the woman is thought to be on her way at this time. Mr. Lucy states that the Elks gave the woman financial assistance until she could reach this country.

RAILROAD LABOR BOARD GIVES FAVORABLE DECISION; BLOCKS CHANCE OF STRIKE

CHICAGO, Aug. 20.—Railroad shop men are apparently satisfied with the railroad labor board decision allowing an eight-hour day, insuring time and a half for overtime. Their action blocks the chance of a strike which the men contemplated provided the board failed to make a satisfactory decision.

SAN FRANCISCO, Aug. 20.—Following are current market prices on poultry products: Hens, 25@27c; broilers, 32@35c.

A CLASSIFIED AD is a Business Getter. It goes everywhere and pops right out at one every time you pick up The Tidings. Try it and prove what we say.

### Efforts to Find Stolen Car Fails; Taken Thursday

Effort today and all day Friday to locate the Studebaker automobile stolen from S. H. Short, proprietor of the East Side Pharmacy, from in front of his place of business at 8 o'clock Thursday evening, have been without results. Mr. Short states that telephone and telegraph messages to the police in California and Oregon cities have failed to find clues leading to the discovery of the automobile.

Mr. Short left his car, a maroon colored chummy roadster, standing in front of his store for about five minutes while he attended to some work. When he came out the car was gone.

Inquiry made of tourists in a nearby cafe, Mr. Short stated to authorities, elicited the fact that the car had been taken by two young men who jumped in the machine and drove off immediately after Mr. Short's departure. A description of the men could not be obtained.

### ADDITIONAL ASHLAND PERSONALS

#### Christian Endeavorers Meet—

The Presbyterian Christian Endeavor society held its business meeting in Helman's grounds Thursday evening. Those who could swim, swam; those who couldn't, "gabbled." Then there was a bonfire and a werner-roast, and lots of buns and pickles, and then a marshmallow toast. No doubt some of the members echoed the Whitney boys' apostrophe to his stomach later, but it was jolly and the big harvest moon peeped over the trees and seemed to smile approval. The coming Endeavor convention of Union 10 was discussed among other things. If the plans under way can be carried out this will be a splendid rally at Medford Sept. 10 and 11.

#### Farewell Picnic Dinner—

The Westminster Guild of the Presbyterian church enjoyed a picnic supper in the lower park last evening in honor of Mrs. Boslough, one of the patronesses of the guild, who will leave shortly for the east. The spread was elegant and was enjoyed to the limit. The members felt glad that the last little fellowship with Mrs. Boslough could be held in the beauty spot of beautiful Ashland and that she will carry in her memory the quiet evening, the loveliness of the green background of trees and hills as well as the circle of friends who have enjoyed christian work together in past days. The guild presented her with a silver serving knife as a little token of love and appreciation of her help and influence in the society and the church.

#### BANDITS ROB BANK

IN WASHINGTON OF MORE THAN \$5,000

METALINE FALLS, Wash., Aug. 20.—A posse of 25 armed men are beating the surrounding woods, seeking two daring bandits who robbed the Metaline Falls bank late yesterday of more than \$5,000 and locked the president and cashier in the money vault.

#### OREGON COW BREAKS WORLD'S RECORD FOR PRODUCTION OF MILK AND BUTTERFAT

PORTLAND, Aug. 20.—St. Mawes Lad's Lady, belonging to Harry Hilt, broke the world's record for a year's production of butterfat, making 827 pounds of fat and 11,729 pounds of milk.

## Germany to Submit Peace Treaty to a World Court

### Southern Ore. Coming Gold Mine Center

Southern Oregon is rapidly coming to the front as a mining center. What is claimed to be one of the biggest strikes of the year was that made Thursday at the Gold Ridge mine, when they struck a very rich chute on the 500-foot level, which depth they have reached with their tunnel that is now in 100 feet.

C. C. Clark, president of the company, and G. G. Childers, one of the large owners of stock, were showing a pan of rich ore today taken from the new strike. Mr. Clark says, "We sure have struck it rich and are in a six-foot vein of wonderful ore that will run several thousand dollars to the ton. It is the richest strike in Southern Oregon or Northern California for years and demonstrates beyond doubt that this country will soon be a thriving gold mining center. We are now working on a tunnel to cut the vein 200 feet deeper."

The discovery is made in the same district as the Millionaire, Roaring Glimet and the claims of the National Manganese company are located. All these properties are being worked and developed at the present as part of the mining activity that has been launched in this section in the last six months.

### FIRST LOCOMOTIVE IS AGAIN RUNNING UNDER OWN POWER

NEW YORK.—The DeWitt Clinton, the first locomotive to be operated in this state, made a trial trip at Harmon, N. Y., recently, after more than half a century of inactivity. The ancient engine drawing a train of cars of the type that was in vogue in 1831 will be given another test along Riverside Drive, preliminary to its departure for Chicago, where it will be shown at the Pageant of Progress exposition.

After the engineer rekindled the wood fire in the 90-year-old engine, the ancient craft puffed and shorted under 75 pounds of steam and when the engineer "let her out" the DeWitt Clinton rambled along at top speed—eight miles an hour. Several short runs were made, and although the aged locomotive groaned after years of inactivity, the officials of the New York Central who watched her speed up, said it stood the test well.

The DeWitt Clinton made its first trip on July 30, 1831.

#### WEATHER FORECAST FAIR.

### INTERNATIONAL ARBITRATION PROBABLE

BERLIN, Aug. 20.—Germany has stalled on the signing of the German-American peace treaty now awaiting official ratification by the German government. The proposals in the treaty, now points of discussion, may be submitted to a world court for international arbitration, according to statements made here today. This may be done in spite of the fact that the treaty draft contains no declaration of Germany's guilt in starting the war. It is believed that if such a declaration had been made that Germany would have flatly refused to sign the pact.

The treaty proposals of the United States call for reparation for the American lives lost during the war and for the sinking of the Lusitania, which was sunk by a German submarine prior to the entrance of the United States into the world conflict.

### John McCourt To Be Justice Ore. Supreme Court

SALEM, Aug. 20.—Judge John McCourt of the Multnomah circuit court was named justice of the Oregon supreme court today, succeeding Justice Johns, who has accepted the impending appointment to the Philippine supreme court. Judge Tucker had been offered the Oregon justiceship, but declined.

Walter Evans, president district attorney of Multnomah county, succeeds McCourt on the circuit bench, and Stanley Meyers, city attorney for Portland, is succeeding Evans. McCourt will probably take his new position Sept. 1, when Johns is expected to resign.

#### ALFALFA RANCH IS SOLD FOR \$8,700

The L. S. Case ranch of 18 acres, principally alfalfa land, one mile north of Phoenix on the Pacific highway, has been purchased by J. B. Hildebrand of Eugene for \$8,700 cash. Mr. Hildebrand and his family expect to take possession and reside on the land in the near future.

### Ore. Senators Give Federal Office Plums

WASHINGTON, D. C., Aug. 20.—Recommendations for the principal federal offices to be filled in Oregon have been made by Senators McNary and Stanfield as follows: Collector of internal revenue—Clyde G. Huntley, Oregon City. Collector of customs—George U. Piper, Portland.

United States marshal—Clarence R. Hotchkiss, Portland. Appraiser of merchandise—Edward N. Wheeler, Portland, but formerly of Stanfield. Federal prohibition director—Dr. Joseph A. Linnville, Carlton. Roseburg land office—Receiver, Fred W. Haynes, Roseburg.

Dufur Man Is Recommended The Dalles land office—Register, J. W. Donnelly, Arlington; receiver, T. C. Queen, Dufur. La Grande land office—Receiver, J. H. Pearce, La Grande; register, Carl G. Helm, Stanfield. Burns land office—Receiver, John J. Donegan, Burns.

Vale land office—Receiver, George M. Love, Vale. Lakeview land office—Register, Frank P. Light, Lakeview.

#### CURWOOD WROTE "GOLDEN SNARE" WHILE SNOWBOUND

James Oliver Curwood wrote "The Golden Snare" during a period several years ago when he was snowbound in the Canadian Rockies over 100 miles from civilization.

"The Golden Snare," the screen version of which will be shown at the Vining theater today, is an all-snow story and practically the entire action is laid in the great outdoors in the dead of winter.

While Mr. Curwood's splendid imagination was called into play for the motivation of the narrative, the story is basically founded on an actual happening in the country of perpetual snows, the unusualness of which lends it compelling interest.

#### GREAT CROWDS TAKE ADVANTAGE OF CUT IN R. R. FARE TO BEACHES

PORTLAND, Aug. 20.—The rate war between the railroads, boats and automobiles to the beaches continued today with an enormous traffic increase for the railroads, decrease in business for the river steamers and no business at all practically for the motorbus. Great crowds are availing themselves of decreased rates.

### Restrict Shipments Of Cattle Is Urge of Livestock Exchange

CHICAGO, Aug. 20.—The Chicago livestock exchange is urging farmers to keep their cattle off the market because of the glutted condition of the meat trade. Cattle raisers, dealers and shippers have been urged to restrict their shipments of cattle as additional heavy shipments would demoralize the markets and prices. The nation-wide slump in the price of dressed beef is said to be due partly to the army of 5,000,000 unemployed and high retail prices. A shipping restriction may also serve to break profiteering in retail prices, wholesale dealers believe.

### COUNTY MUST PAY BILL FOR HUNT OF BOOTLEGGERS

Jackson county is footing the bills in the series of raids and arrests in the illicit liquor traffic, according to County Judge Gardner, and the amount will not be known until all the cleanup is completed. The special agents are furnished by the state at the request of the county court. The action was taken at the request of citizens who filed complaints and requested that steps be taken to curb the bootleggers.

"The special agents are the best the state can supply, outside of the high-class detective agencies," said Judge Gardner Thursday. "Citizens protested that the bootleggers were running wild, and we moved to curb them. Sandifer, who is in charge, has had years of experience and recently operated at Salem, Tacoma and Astoria. None of the expense is shared by the state. I don't know how long they are going to be here, but they work fast."

The county judge denied that the special agents were connected with any reform organization, but that a clean-up had been under consideration for several months.

Gold Hill Man Arrested The only arrest made Thursday in the campaign was that of Bernard Dufur, a resident of the Gold Hill district. A home-made still and a quart fruit jar of mash was obtained. Dufur was arraigned before Justice Glenn O. Taylor and pled guilty.

The tip that Dufur had a still was received from his neighbors, who phoned the sheriff's office. A neighborhood row seems to be mixed up in the charges. The authorities state that there is nothing to show that Dufur was manufacturing moonshine for commercial purposes. Since the activity of the special agents became known a number of letters have been received from people giving information regarding the location of stills alleged to be in private homes. The authorities say they do not take these tips seriously, as they are prompted in many instances by spite.

Search Just Started The officers started out again this morning in search of stills and people for whom they have warrants, and announced before departing that they had just started. More arrests in the bootlegging cases are scheduled.

In Justice Taylor's court this morning Isaac Coffman, Applegate rancher, charged with having mash in his possession, pled guilty. Coffman's attorney made a plea for leniency. "This man," said the attorney, "is a farmer on the Applegate and has a wife and two little children, one aged four and the other six. He has not made any money out of farming. All he has is what he can earn with his hands and the sweat

### WOULD POINT OUT ALLEGED UNFAIR OFFERS

MANIFESTO WOULD BE PRELIMINARY TO PROBABLE HOSTILITIES

SINN FEIN FEAR DOUBLE CROSSING

ACTION DESPITE FAVORABLE RECEPTION OF GEORGE'S SPEECH IN SOME QUARTERS

DUBLIN, Aug. 20.—The Sinn Fein government of Ireland, insisting on Irish independence in negotiations for peace with the British government, are seriously considering the issuing of a manifesto to the world, it was announced here today. The proposed manifesto would point out the alleged unfairness of the British offer.

The issues of such a manifesto, as considered by Dail Eireann in private conference, will be preliminary to the resumption of hostilities, it is thought here. Despite the favorable reception of Lloyd George's speech to the house of commons in other than Sinn Fein circles, it is believed that the republican Irish cabinet feels that it has been double-crossed by the British premier.

### Local Members Ore. Rifle Team To Portland

James Q. Adams and Andrew J. McCallen, crack rifle marksman of the First Company Coast Artillery, Oregon National Guard, of Ashland, left today for Portland where they join a state militia rifle team scheduled to leave August 23 for Camp Perry, Ohio, where the team will participate in a national shooting meet to be held in that city August 27. The shooting match is an annual affair at which expert instruction is given by army officers.

The men left here in regular army style with full field equipment. Overcoats and slickers were taken although a hard winter was not mentioned as part of the shooting match. The men will report at Portland Monday.

The members of the Oregon National Guard rifle team are: Team Captain Major Fred M. West, Infantry, Portland, Oregon. Team Coach Captain Eugene C. Libby, Infantry, Portland, Oregon. Shooting Members Captain Clarence Collins, C.A.C., Albany, Oregon. 1st Lieut. Adolphus A. Schwarz, 5th Infantry, Portland, Oregon. 2nd Lt. Laurence Jensen, 5th Inf., Eugene, Ore. 1st Sergeant Leonard McGee, 5th Co., C.A.C., Albany, Ore. Staff Sergeant Victor R. Stratton, 1st Bn. Hq. Co. 5th Infantry, Eugene, Ore. Sergeant Glen E. Terrill, 1st Bn. Hq. Co. 5th Infantry, Jacksonville, Ore. Sergeant Gilbert A. Pickard, Separate Co. F., Infantry, Portland, Oregon. Corporal Orville Cart, Howitzer Co., Portland, Ore. Private 1st Class Manley W. Bevens, Co. L, 5th Infantry, Dallas, Ore. Private 1st Class James Q. Adams, 1st Co. C.A.C., Ashland, Ore. Bugler Andrew J. McCallen, 1st Co. C.A.C., Ashland, Ore. Private 1st Class Arthur G. Robinson, Service Co., Portland, Ore., 5th Inf.

### FOUNDER AND PRESENT PRESIDENT OF THE WORLD'S W. C. T. U.

Thirty-eight years ago, at a meeting held in San Francisco, where the Woman's Christian Temperance Union is holding its national convention, August 18-23, the organization of the World W. C. T. U. was effected. Frances E. Willard, who organized the work in the United States and was the compelling force throughout the years of its development into a great national institution, was the instrument through which the women of the world were brought together for temperance work. Today the world organization includes in its membership women from every civilized nation of the world. The present president, Rosiland, the Countess of Carlisle, lives in England in Castle Howard, the ancestral seat of her family. Miss Anna A. Gordon, president of the W. C. T. U.

FRANCES E. WILLARD

of the United States, is vice president of the world organization, and Mrs. Ella A. Boole of Brooklyn, N. Y., vice-president-at-large of the organization in this country, is world treasurer. The last world convention was held in London in 1920. The next will meet in Philadelphia in November, 1922. Since the enactment of the Eighteenth amendment in the United States the W. C. T. U. in this country is devoting a larger proportion of its energy to the furtherance of the world program. Particularly is effort being made to spread in the South American countries and in the wine producing countries of Europe the economic effect of prohibition in the United States and information concerning the profitable nature of grape culture for other purposes than wine making.
