Lieutenant Wicks is among those lost. Lieutenant Wamm, commanding the huge craft, who was the only British officer saved, said today that most of the men were inside the envelope amidships when the explosion occurred and probably perished in the fire as the ship fell from the sky in flames and were then caught in the submerged wreckage.

"AMERICANS SHOULD BE PROUD OF WORK BY NEAR EAST RELIEF"

Says American High Commissioner. Congress Is Told of Great Accomplishment

Washington.—The annual report of the activities of the Near East Relief organization, filed with Congress by Charles V. Vickrey, General Secretary, constitutes the most impressive of one of the greatest pieces of philanthropic work ever undertaken and carried through by American men and women, according to well-informed persons in the capital. Ad-

CHARLES V. VICKREY

niral Mark L. Bristol, United States High Commissioner to Turkey, (or example, declares:

"I have been closely associated with the work of the Near East Relief committee for about 22 months. On the whole the work of this relief committee has been such that Americans should be proud of this great humane effort. The Near East Relief here in Constantinople is run more like a business organization than any relief organization with which I have ever come into contact."

Charles V. Vickrey's summary of the activities of the Near East Relief shows the disbursement of over \$60,000,000 in cash and supplies, contributed by the American people to the salvaging of the Christian populations of the Near East. 711 American and Canadian men and women relief workers have been engaged in this huge task on little more than a volunteer basis. 63 hospitals, with 6,522 beds and 123 clinics; 11 rescue homes, where young girls rescued from lives of shame in Turkish harems are taught to forget their sufferings, and to begin life anew, self-supporting and independent, are maintained.

110,000 Little Children

The most remarkable feature of the work of the Near East Relief is, however, the salvation of tens of thousands of children who have lost parents and relatives during the past six years. For these little ones American generosity has provided, through the Near East Relief, 299 homes—one in Alexandropol, Armenia, housing 18,000 children—where, last year, 54,600 children were housed, clothed, fed and taught, while an additional 56,000, outside the Near East Relief orphanages, were saved from starvation and death by food and clothing sent them from the United States.

Mr. Vickrey's report states that approximately 2,790,490 Armenians are still living in the Near East, out of a pre-war population of over 4,000,000 and estimates that had it not been for the aid given by the American people through the Near East Relief, fully half of those now living would have perished. Food was furnished to 561,970 homeless refugees during a large part of 1920, while 300,000 garments, comprising 1,500,000 pounds of clothing sent out from the United States were distributed to barefoot and rag-clad wanderers, all the way from the Mediterranean sea to the Caucasus mountains.

Work Must Continue

Commenting on these figures Mr. Vickrey stated that "this distinctively humanitarian relief work, as an expression of brotherhood, should help to mark the beginning of a new era of peace and inter-racial good will in the Near East." "The tremendous task undertaken by the American people in saving the children of the Near East is one which cannot be left unfinished. We have an investment of over \$60,000,000 in human life, that America has saved. If we falter, or pause now, that investment is imperiled, or may even be lost altogether. Most of the children we have saved from death are still too little to take care of themselves, and conditions throughout the Near East are still too uncertain to let them shift for themselves. It is morally sure that for at least five years, and until these little ones that we have snatched from a terrible fate are able to support themselves and enjoy an even chance of life as useful citizens, the American people who have rescued them must see them through.

"It is the purpose of the Near East Relief to do just this, and we appeal to the generosity of the American people to see this noble work is carried out in the spirit of mutual helpfulness and Christian charity which is so essentially characteristic of the American ideal."

Contributions to the work of the Near East Relief may be sent to Cleveland H. Dodge, Treasurer 1 Madison Ave., New York City.

POSSIBLE TO BE TOO FRANK

Honest Criticism by Friends Would Wreck Relations—Almost Every One Has "Paste Jewels."

It is impossible to tell the whole truth to an average human being and still remain on terms of friendship with him. There is little friendship without make-believe. If two men are close friends, you may take it that they have been pretending to a considerably higher estimate of each other than they would set down in a perfect honest diary.

It is not necessary that they should deliberately lie to another, but they must discreetly conceal a certain amount of criticism that is going on all the time behind the bones of their skulls.

What is said in a spirit of truth is set down to malice. Can a man be your friend if he steals the crown from your head? Can he be your friend even if he steals a single jewel from your crown—especially the paste jewel? We have all—the greatest and the meanest of us—paste jewels in our crowns. Will a true friend point them out to a world that is already over-much inclined to scoff? Or will he not rather organize a clique that will pretend to be dazzled by diamonds?

Man is not only a realist. He is also a lover of romance. He dreams of what he would be quite as often as he deplores what he is. He cannot help being attracted by people who make his dream appear true. There are some men who are such intense egotists that they can believe in the truth of their dreams without any assistance from other people. Southey agreed that his "Madoc" was "the best English poem since 'Paradise Lost.'" There was no need to tell him so; he knew it already.—New Statesman, London.

WAS EXPECTED TO PROTEST

Customary at One Time for Speaker of House of Commons to Resist Appointment.

In one respect a newly appointed speaker of the British house of commons may congratulate himself that there has been an abandonment of some of the old customs, for he is no longer expected to make an elaborate pretense of unwillingness to accept his great office. This pretense was carried to great lengths at one time, and the ceremony took on some points of likeness to the brutal customs of savage countries, for the speaker was expected to make a show even of physical resistance when led to the chair.

It was not an original custom of the house and to the crown against their election only when they really did not want to be appointed. It seems to have been under the Tudors that a ridiculous subservience was imported, and it was expected of the speaker, that he should "make repeated excuses and declare himself unworthy of election."
