words like "donated," "gave," "purchased," "furnished," "beautified." Every Item Meant Work Think of the work indicated in these few lines: The pageant in 1916 netted \$29.62. A carload of rags for paper netted \$58.36. The country store netted \$95.95. Every cent of this money was spent to benefit Ashland. Were you one of the tennis boys who got "transportation" with the \$10 given by the Civic club? Did your bird house win part of the \$25 prize the Civic club paid for the best bird house to be put in the park? Did you benefit because of the two scholarships of \$125 each, given to the Polytechnic school in 1915? Have you rested on the seats in the park toward which the Civic club contributed \$100, and again in 1914 they purchased for Ashland parks eight seats costing \$6 each. In 1912 they put four extra lights in the park costing \$46 plus \$5 a month for maintenance.

It was the Civic club that took charge of the railroad parks and made an attractive setting for our useful railroad station, paying \$5 yearly lease to insure this privilege. This was done before the days when railroads shared civic pride.

Helped Normal School Campaign In 1913 the Civic club donated \$25 to the commercial club to assist the normal school campaign. In 1914 they gave \$50, and in 1918 they gave \$100.

Do you recall the Rose and Strawberry festival with two days of fun, parades and games. How many Fourth of July celebrations have been arranged by the Civic club. Every year the records show their important part in the festivities of the day.

How many of you remember the District fair, voted the best ever held in Southern Oregon, and the Civic club took entire charge of the women's and children's department.

In 1916 there was a rest tent during the Fourth of July celebration, the forerunner of the rest room idea in our new building.

Chaunauqua Building Assisted We helped on the Chaunauqua building. We gave \$5 to the W. C. T. U. Up to 1919 every picture in the public library had been presented by the Civic club, whose latest gift was the beautiful painting of Crater Lake by Miss Russell.

You recall the Civic club dinner in the park given to the National Editorial association—and the long list of dinners and picnics arranged by the Civic women.

And then the war. The first mention is: "Gave \$50 to the Red Cross for supplies." Five dollars to the Soldiers' and Sailors' library fund, 10 boxes of apples for the soldiers, 115 Christmas boxes sent to soldiers.

Many War Activities Later on, the records say: Fed 3173 soldiers. At the end of 1918 "total amount given by the club the past year, \$500." The salvage depot plan is so recent, yet so soon forgotten—but we like to mention that from July 31, 1918, to May 17, 1919, the Civic women gave \$1446.20 to Uncle Sam.

To return home again, the Civic club paid \$36.50 toward work done in Mountain View cemetery. They work for the living and for the dead. The women who gave up their money, time, strength, are the salt of the earth and their loyalty and unselfishness have savored Ashland.

Those of us who are newcomers in Ashland profit daily because of the benefits we inherit from the women who have stood by the old-fashioned standards of striving to make homes and towns clean and lovely places in which to live. God bless 'em all.

Your Help Wanted Of course you want your help in building our new club house. It is the first time we have worked to benefit ourselves, and even while we plan for the fulfillment of a "home for said corporation," we are planning how to make it of value to the community. The building will start sometime in September and we are going to have a big drive for money during that month.

You will save yourself time and hearing by sending your checks now to Mrs. Mary Wilschre, 87 Granite street. We are not going to ask you to advertise in a program, or to attend an entertainment, or contribute to a rummage sale, or buy a cake. We want you to give outright of your

For twenty hours this food is baked—one reason you like it—another reason why it digests so easily. Grape-Nuts is the longest baked of all cereal foods. It is scientifically baked at carefully regulated temperatures for 20 hours. This is one of the reasons why Grape-Nuts digests so easily; why it agrees with many people who cannot take any other form of cereal without producing fermentation.
