What Constitutes Advertising!
 In order to allay a misunderstanding among some as to what constitutes news and what advertising, we print this very simple rule which is used by newspapers to differentiate between them: "ALL future events, where an admission charge is made or a collection is taken IS ADVERTISING." This applies to organizations and societies of every kind as well as to individuals.
 All reports of such activities after they have occurred is news.
 All coming social or organization meetings of societies where no money contribution is solicited, initiation charged, or collection taken is NEWS.

We make all quotations on **JOB WORK** from **THE FRANKLIN PRICE LIST.** Same prices—Reasonable Price—to all.
 Entered at the Ashland, Oregon, Postoffice as Second Class Mail Matter.

 Life's but a walking shadow;
 a poor player,
 That struts and frets his hour upon the stage,
 And then is heard no more;
 it is a tale
 Told by an idiot, full of sound and fury,
 Signifying nothing.
 —Shakespeare.

Of all the sweet words of tongue or of pen, about the sweetest are these: "Paid in full; come again!"
 Russians cannot live on fine-spun theories and on crops that are never planted or grown.
 The oil of moral training and strict enforcement of law should still the waves of crime.

To the Editor:
 As to the condition of the Pacific highway between Roseburg and the California line as of September 4, beg to report as follows:
 Roseburg-Myrtle Creek, 20 miles—Paved.
 Myrtle Creek-Canyonville, 10 miles—South of Myrtle Creek, take detour via Riddle to Canyonville; rough and slow.
 Canyonville-Galesville, 11 miles—Good macadam.
 Galesville-Wolf Creek, 14 miles—Paving in progress at both ends; about seven miles south of Galesville, a detour via Glendale to Stage Road pass is used from 7:30 a. m. to 5:30 p. m.
 Wolf Creek-Graves Creek, 5 miles—Paved.
 Graves Creek-Grants Pass, 18 miles—Good macadam.
 Grants Pass through Medford and Ashland to California line, 65 miles—Paved.
 Medford-Crater Lake Highway
 Two routes are being used, one via Central Point, Bybee bridge, Trail and McLeod to Prospect; the other via Eagle Point, Reese Cfook school house, Derby road to McLeod and Prospect. Advised to use the one via Trail.
 Very truly,
 K. E. HODGMAN,
 Division Engineer.

Highway Commission Reports on Jackson Co. Road Work

EDITOR'S NOTE
 A full report of the road work done in Jackson county under the supervision of the state highway commission and the Jackson county court is now available in the 1921 annual report of the state highway commission. As the detail is interesting but quite voluminous, the Tidings will print it in sections, dealing only with specific units in each issue. It deals not only with the work already completed with cost of each unit, but with the work immediately contemplated and that contracted but not completed.

(Continued From Yesterday.)
Prospect-Crater Lake Forest Road Project
 In order to render the wonders of the Crater Lake national park more accessible to tourist traffic, the government, through its bureau of public roads, and the state and county, have co-operated in the grading of a 22.2 mile section between Prospect and the national park boundary on the Medford-Crater Lake highway.
 This work was done by the Eagle Point Construction company of Eagle Point, Ore., under contract awarded them by the bureau of public roads, on July 14, 1919. The grading was completed in October, 1920, under the supervision of C. J. Seymour, United States highway engineer, at a cost of approximately \$186,000, or about \$60,000 less than the original agreement estimate. This unexpended balance is being used in placing a nine-inch crushed rock macadam over approximately six miles of the section. The grading and surfacing is estimated to cost a total of \$246,000, which will be paid \$121,250 by the state, \$3500 by Jackson county and \$121,250 by the federal government. Expenditures to date amount to \$197,830.50 having been paid \$91,626.75 by the state, \$2,097.65 by Jackson county, and \$104,106.10 by the federal government.

Birdseye Creek and Miller's Gulch Bridges
 Two small bridges over Birdseye creek and Miller's gulch on the Pacific highway near Rogue River are being built by F. C. Carter, of Talent, under contract No. 262, which was awarded to him on April 27, 1920. Each bridge consists of two concrete spans, those over Birdseye creek being thirty feet in length, while the others are twenty-seven foot spans.
 Only a small force has been employed by the contractor and therefore progress has not been rapid, but it is expected that the work will be completed by December 15. A. A. Clausen is Resident Engineer.
 The estimated cost of the two structures is \$12,210.00, all of which will be paid by the state. Expenditures to date amount to \$10,220.07.

Rock Point Arch
 The Pacific highway crosses Rogue river about two miles north of Gold Hill on a reinforced structure made up of 115-foot arch span with six 25-foot approach spans on one end and seven on the other.
 The topography of the country at this place is such that it provides a wonderful setting for a beautiful structure and therefore an attempt was made to design such a one. Since the construction was completed, much favorable comment has been heard, so it is believed that the attempt was successful.
 Contract No. 158 was awarded for this work on June 10, 1919 to Parker & Banfield of Portland, Oregon. Construction was started at once and was completed on February 17, 1920. Owing to the great depth of water, it was impossible to build falsework under the main arch span in the regular way. The contractor solved the problem by building a wood truss span over the river which gave support to the forms ad which was an entire success. The Resident Engineer on the work during the entire period of construction was Christ Fauersoo.
 Of the cost of the work, \$23,456.06 will be paid by Jackson county and \$24,928.35 by the state, making a total of \$48,384.41. Expenditures of the total amount have been made, \$25,393.91 by the state and \$23,000.00 by the county.
 (To be continued.)

Distribution of State Bonus To Veterans of World War

(Continued from yesterday)

Choice of Cash Bonus or Loan
 15. The initial application shall show whether the applicant desires the cash bonus or to submit an application for a loan. If the cash bonus is desired no further application will be necessary, but claim shall be prepared in the office of the Commission and mailed to the applicant for completion. If the loan is desired the secretary shall furnish the applicant with the appropriate blank.
Relatives
 16. To be eligible for the benefits under the act, the dependent sister or dependent brother of a deceased veteran must have been wholly dependent upon such deceased veteran for the necessities of life at the time of death, must have been of an age or physical or mental condition precluding possibility of employment at a salary sufficient to provide the necessities of life, and with no relatives liable for and able to provide same.
Signature and Oath
 17. Application must be signed in the presence of a notary public or other officer qualified by law to administer oaths, and must bear the signature and seal (if any) of the officer administering the oath.
Time Limit
 18. The initial application which establishes the veteran's or relative's eligibility to receive either the cash bonus or the loan shall be made within one year from May 25, 1921, or within one year after the applicant's discharge, if still in the service on said date. The applicant shall state in the initial application:
 (a) Whether he desires the cash bonus or loan.
 (b) If the latter, whether loan will be desired immediately or at some future date.
 (c) Amount of loan desired.
 The secretary shall then forward to the applicant the appropriate blank form upon which to apply for the loan.
Assignment of Claims
 19. The commission will not recognize any assignment of claim

of a veteran or relative. Upon approval of claim by the commission payment of the amount due will be made to the applicant named therein and to no other person.
Appointment and Duties of Attorneys and Appraisers
 20. Applicants for appointment as attorneys and appraisers shall make application to the commission on Form SAC-4 and SAC-5 respectively.
 21. Each attorney and appraiser appointed by the commission shall receive as evidence of such appointment a certificate of appointment signed by the secretary of the commission.
 22. Each attorney and each appraiser shall submit a weekly report to the commission showing all cases received during the preceding week, all cases completed and returned to the commission during the preceding week, and all cases held in abeyance and the reason therefor.
 (To be continued.)

A case shall be considered as held in abeyance when it has been in the hands of the attorney or appraiser for ten days.
 23. Each attorney shall keep an adequate supply of necessary blanks forms published by the commission and of all instructions circularized by the commission, and shall furnish free assistance and advice to applicants in regard to the provisions of the law and making application for the benefits thereof.
 24. Each attorney shall carefully examine all abstracts or certificates of title insurance referred to him by the commission, and shall report his findings to the commission.
 25. If examination of the abstract or certificate of title insurance shows satisfactory title, the attorney will accomplish the execution of all necessary instruments, cause same to be recorded, where required and have abstract or certificate of title insurance including record of mortgage, extended to date. Applicant will be required to furnish the necessary fire insurance policies and deliver the same to the attorney. The attorney will forward to the commission, together with his final report on examination of title, all abstracts, certificates, title instruments, notes, mortgages, insurance policies or other documents pertaining to the case.
 26. If first examination of the abstract or certificate of title insurance shows defective title the attorney will inform the applicant of the defects and if applicant so requests will hold case in abeyance for a period of not to exceed ninety days, pending correction of defects by the applicant. All such cases will be reported promptly by the attorney to the commission.
 27. Examinations of title shall be deemed to include the duties prescribed in these rules and regulations governing attorneys. No fee in excess of \$10 shall be charged for examination of title upon abstract submitted, nor in excess of \$5 for examination of certificate of title insurance. No fee shall be charged by an appraiser in excess of \$5. Attorneys and appraisers will receive no other remuneration for examination of title or for appraisals than as above prescribed, nor shall they receive any reimbursement for expenses incurred by them. The commission will not be responsible for the collection of fees. Each attorney and appraiser shall certify in his report to the commission the amount of fee charged and received by him in each instance, and shall give the applicant a receipt for the amount of fee collected.
 28. If the attorney has reason to believe that anything in connection with the application might be irregular, or that the values given in the application are excessive or speculative, or that false statements have been made, he shall render a confidential report to the commission giving the necessary facts upon which further investigation may be based.
 29. Appraisers, when so directed by the commission, shall personally inspect any property offered as security for a loan.
 30. Each member of the board of appraisers will certify that he has personally inspected the property forming the subject of his report, and that his conclusions as to its loan value were reached independent of any without consultation with the other appraisers.
 31. Appraisers' reports of property valuation will be treated as confidential, and all agents or employees of the commission are strictly prohibited from disclosing such information.
 (To be continued.)

7000 MOVIE HOUSES WILL CELEBRATE PARAMOUNT WEEK, MAINE TO CALIF.

In the motion picture industry the week of September 4-10 is Paramount Week and will be celebrated in no fewer than seven thousand motion picture theatres in the United States. From Boston, Me., to San Diego, Calif.; from Seattle to Key West, there is not a town of importance that will not join in this big annual demonstration of the better motion pictures. For a solid week, these thousands of theatres will show nothing but Paramount pictures.
 That this huge number of motion picture exhibitors can be marshalled for the showing of a single brand of pictures in their theatres for seven successive days, to the exclusion of all others, is made possible through the resources and system of an organization which, less than ten years old, is one of the wonders of the business world.

The Famous Players-Lasky corporation, the company that produces and distributes Paramount pictures, is an organization of more than 8000 permanent employees. It is a union of several of the larger companies which were pioneers in the production and distribution of the modern, or multiple reel, type of picture. It is backed by millions in capital and transacts a third of what may be called the wholesale business of the film industry. Its retail clients embrace nearly three-quarters of all of the exhibitors of motion pictures in the country, and they are served by 250 salesmen operating from thirty branch offices.
 The vast studios and laboratories where this company produces its Paramount pictures for the entertainment of America's millions are located in Los Angeles, New York and London. In these centers are gathered together the pick of the literary and dramatic brains and genius of the world. Its directors are the leaders in the profession, its actors represent the cream of stage and screen talent. Its writers include many of the most widely read authors and most successful dramatists of the present day. Sir James M. Barrie, Sir Gilbert Parker, Edward Knoblock, Robert Hichens, Ellery Glyn, Henry Arthur Jones, Avery Hopwood, E. Phillips Oppenheim, Samuel Merwin, W. Somerset Maugham, Joseph Conrad and Harvey J. O'Higgins are but a few of the celebrities that this company has brought into the movies.
 Twenty separate producing units, each with its own players, director and assistant directors, cameramen and scenario writers, are constantly at work at the studios. These workers are augmented by an army of architects, interior decorators, costume designers, carpenters, electricians, property men—artists and artisans in every line. The property rooms contain hundreds of thousands of pieces, from rare antiques and precious art objects down to the simplest utilitarian article.
 When this immense organization, with its unlimited resources, and its constant flow of product, the best that the market affords, means to the country's exhibitors, has been thoroughly appreciated by them from time to time, and never more than during the past few months when general business conditions have brought to them their full share of worries. What it means to the general public may be realized, in a measure, by tens of millions of American picture-lovers during Paramount Week.

Is this your car on Sunday?
 A Sunday morning—crisp, sunshiny weather—roads hard and smooth. What a day for motoring!
 Your car is "dead" in the garage. It may be carbon-clogged cylinders and valves—burned-out bearings—any one of a multitude of troubles.
 You are pretty safe in blaming your oil. Seventy-five per cent of engine troubles are caused by oils poor in quality or wrong in type.
 Sunoco Motor Oil insures freedom from carbon—clean, compression-tight cylinders—smooth, noiseless bearings.
 We will tell you which of the six Sunoco types fits your engine.
