

Local and Personal

See our Dahlia window. Place orders for bulbs now. Elhart's. 15-2

California Arrival—

Mr. and Mrs. Bert Rowe, of Vallejo, Calif., arrived in Ashland Saturday evening and at present are guests of Mrs. Rowe's brother, E. E. Gall. They have been touring the country for several weeks and have visited all of Mr. Rowe's relatives who live in different sections of Washington, and all of Mrs. Rowe's Oregon relatives.

Choice Dahlia bulbs. See varieties in our window. Place orders now. Elhart's. 15-2

Portland Visitors —

Mr. and Mrs. Robert Newman and daughter, Eleanor, of Portland, are visiting at the home of Mrs. Newman's mother, Mrs. Leah Caldwell Laurel street.

Elhart's Dahlia display, see our window. 15-2

Trigonia Reaming Concluded—

Reaming the Trigonia well was concluded Saturday, and work of setting the casing commenced today. As reaming and bailing approached the bottom, there was a most gratifying showing of oil. Friday there were a number of visitors at the well, including an oil man from Oklahoma. All were enthusiastic over the showing the well made.

Wanted—Old rags. The Tidings will pay 5c a pound for clean, cotton rags. 15-2

A choice Dahlia bulb with each piece of pottery costing \$1.50. Elhart's. 15-2

EUGENE BOOSTS FOR DIAMOND LAKE ADDITION TO CRATER LAKE PARK

The bill of Senator McNary to include Diamond lake in the Crater Lake national park is a good one. It should be amended, however, to take in several other lakes in the Cascade range, including Odell and Crescent. Such an area as this would require, would make the most attractive of all national parks, and easily accessible by good automobile roads which might soon be made mountain boulevards.

By including all these lakes in the Crater Lake park little timber or any other natural resource of value would be withdrawn from utilization, but a scenic wonderland would be preserved that would draw tens of thousands of visitors annually and add materially to America's recreation and play grounds.

The government park funds would insure money for road building that is neglected by the forest service which now controls most, if not all, of the proposed area. It would mean a splendid highway up the Willamette river into the park, an automobile scenic drive that would have greater attractions than the far-famed Columbia highway. That would make Eugene the northern, Medford the southern, and Klamath Falls the eastern gateway to the park. Those tourists who entered from Eugene might leave via Medford, and those who came in from the south would naturally continue northward through this city. A greater Crater Lake park, with setting of beautiful lakes, in the heights of the rugged Cascade mountain range, would be a wonderful asset to Eugene in course of time, as evidenced by the fact that 25,000 people visited Crater lake this year, double the number that registered last year. A good road up the Willamette and over the summit would link Eastern and Western Oregon in closer commercial bonds and greatly benefit both sections of the state.

There are many reasons why the enlargement of Crater Lake national park should be favored by the people of Oregon, since its benefits in time would extend to nearly every section of the state.—Eugene Guard.

DON'T HUNT IN CALIFORNIA. ADVICES KLAMATH HUNTERS

The Klamath Sportsmen's association has taken cognizance of the difficulties which Oregon sportsmen have had in their attempts to bring back kills made in the California forests after paying the \$10 license fee to hunt there, and announces publicly through Secretary McNeely the necessity of Oregon hunters refraining from securing California licenses until the present difficulty can be adjusted. An effort is being made now to secure some "middle course" to follow, and during the interim, Oregon sportsmen can save themselves much trouble by refraining from either hunting or procuring the license necessary to hunt.—Klamath Herald.

MICKIE, THE PRINTER'S DEVIL

By Charles Sughroe

A Few Queries We've All Asked

DeValera Asks Show Down On British Position

DUBLIN, Sept. 19.—Eamonn De Valera, president of the Irish "republic," sent a cablegram today to Lloyd George, virtually demanding a "show down" on the British government's position in the peace negotiations. The Sinn Fein chieftain asked that the British premier announce if his letter of September 7 was a declaration of war or an invitation to the free conference. He added that he never asked that any condition be stipulated before the conference was held.

GOVERNMENT TO HAVE EXHIBITS AT STATE FAIRS

(Continued from Page 1) verts built by the bureau in Oregon and Washington, as well as many instructive charts, panels and maps showing the progress of highway construction in the two states. A. C. Rose, of the Portland office of the bureau, will be in attendance at all three fairs to explain the models and other material if necessary. The biological survey, whose work is primarily concerned with predatory animals, destructive rodents, game animals and birds, will have a fine collection of working models of various specimens of bird and wild animal life, including pelts, scalps, and an assortment of traps used by government hunters in ridding the forests and livestock ranges of destructive animals, such as bobcats, coyotes, wolves and cougars. Stanley Jewett of the survey will be in attendance. The forest service will have a large number of photographic panels illustrative of the various activities of its field men, the rangers, such as the prevention and suppression of forest fires, the recreational of road rollers, macadam and gravel roads, samples of different road surfacing materials and mixtures, large photos of roads, bridges and cul-

TO LAY 70 MILES PAVING IN STATE DURING NEXT YEAR

(Continued from Page 1) which usually interfere with road work early in September and which handicapped the building program as early as August last season, the contractors have been making rapid strides and the unpaved gaps on the Pacific highway are becoming few and far between. With the finishing

of the various paving jobs now drawing to a close, it will release equipment and enable contractors to give attention to the projects up for consideration at the October meeting.

GOVERNMENT TO HAVE EXHIBITS AT STATE FAIRS

(Continued from Page 1) use of the national forest, handling livestock on the range. The work of the United States forest products laboratory will be shown in the testing and treating of timber and wood carried on in co-operation with the lumber associations of the country. TOO LATE TO CLASSIFY.
