24 1/2 Million Dollars Invested by Employees of Swift & Company

More than 21,000 employees of Swift & Company own or are paying for shares in the business. These men and women have attested their faith in the integrity and good will of the company by investing their savings in the business.

Their holdings represent a total of nearly 250,000 shares, the par value (\$100 a share) of which is more than \$24,500,000.

These 21,000 represent more than one-third of our average number of employees!

One man out of every three, in plant, office, and branch house, from the handworker on the floor to the brain worker at the desk; working with us as well as for us, devoting himself to his own business while devoting himself to ours; promoting his own interests in every motion or moment saved, in every product improved or maintained at perfection, in every service rendered through prompt, thorough, effective distribution of products.

This interested, eager group of fellow partners working with us for the good of Swift & Company and the public which we serve, constitutes one-half of the ownership of Swift & Company in point of numbers, and nearly one-sixth in point of shares outstanding.

It represents practical and successful progress toward the end at which enlightened modern industry is aiming for the solution of industrial problems—toward cooperation, mutuality, brotherhood in business, for the good of all.

Hard Luck?

An automobilist parked his car on a hill.

Some kids fooled with the brakes—and a big plate glass window at the bottom stopped the runaway.

The merchant demanded \$1,000 for the broken glass and damaged stock, and the automobile owner had to pay.

Hard luck? No—lack of foresight.

He should have realized that accidents do happen, and protected himself with a Travelers' Automobile Policy.
