1,000 DIE IN MOSLEM - BOLSHEVIK CLASH

KLAMATH FALLS WINS FOOTBALL GAME 17 TO 7

BATTLERS OF BOX CITY WIN FROM LOCAL TEAM IN HARD-FOUGHT BATTLE; ASHLAND BOYS EXPECT VICTORY OCTOBER 15.

By GRANT SELBY (Tidings High School Reporter)

By a score of 17 to 7 the initial football game of the season for southern Oregon went to the Klamath Falls "Boxers" after a hard-fought gridiron battle with the Ashland high school team Saturday.

During the first half of the game both teams battered their way to goals, piling up a tie score of 7 to 7. Raymond Bowers made his get-away for a touchdown after recovering a fumble.

There were times when the struggling Ashland huskies seemed to make headway through the Klamath Falls line, but were unable to make the rattle for a score.

The work of Klamath Falls' 210-pound fullback was comparable to that of a steam roller. The heavy man starred the Klamath boys with line plugging.

Members of the Ashland team are optimistic in their belief that they can beat the Klamath boys on the local field when the "Boxers" clash with the local team October 15.

Striking Kansas Coal Miners Are Solid In Demands

PITTSBURG, Kan., Oct. 3.—Not a coal mine in the West Cherokee fields is working. Twelve thousand miners who quit Friday when their leaders, Alexander Howat and August Dorcy, went to jail, remained idle to a man.

Today was the real test of Howat's great strength with the miners and the great strike stood solid in its support of the "fire-eating" Scotchman.

MIDDLE WEST SEES BIG BOOM BUSINESS AHEAD

KANSAS CITY, Mo., Oct. 3.—The channels of trade are broadening and the "waters" are running smoother than they have done for some time, according to the statistics compiled by the Federal Reserve bank of this district.

The clearing houses of this district now are handling more than a billion dollars a month. Most of these "clearings" are carried on by a system of exchange between the different banks which are members of the federal reserve system.

Mercantile trade in some lines is steadily improving; there is one activity in fall buying. There has been a marked reduction in bank loans and bank debt ostensibly mount higher.

Coal production is low. It averages approximately about 50 per cent of capacity in this district. Lead and zinc production continues to stagnate.

Crude oil production continues to maintain a steady average in Oklahoma, but shows a slight reduction in Kansas and Wyoming.

That the rental stringency which has prevailed for some time past will probably be relieved soon is indicated in the increase of 70 per cent in building permits throughout the district which this review records.

There has been a heavy movement of wheat from the farms into market channels. Last month's receipts from four markets show an increase of 173 per cent above the record of a year ago.

Ashland "Home Plates" Bought By Car Owners

Ashland "home plates," placed on the front and rear of local automobiles, have arrived at the chamber of commerce. A number of sales to Ashland car owners have been made, according to John H. Fuller, secretary of the chamber of commerce.

The metal plates, bearing the name of Ashland in raised letters, are being sold to boost the city and aid in financing the winter fair, to which the proceeds will be devoted. The plates may be obtained at the chamber of commerce, -Enders department store, Automotive shop, Ford garage and Simpson's hardware.

VICTIM OF DRY AGENT'S RAID IS DAMAGE CLAIMANT

MEDFORD, Or., Oct. 3.—Ten thousand dollars damage is asked of S. B. Sandefer, agent of the Oregon Anti-Saloon league, in a suit filed at Portland Thursday afternoon by George F. Jones, of Portland, through his attorney, Isham N. Smith.

Jones alleges that on August 13, near the McLeod bridge on the highway between Medford and Crater lake, Sandefer stopped him while he was driving his automobile and made an illegal search of his automobile and clothes.

Sandefer is alleged to have represented himself to be a deputy from Sheriff Murburt's office in Portland, with specific instructions to arrest Jones. Jones states that, not caring to be guilty of resisting an officer, he submitted to arrest under protest, although Sandefer had neither search warrant nor bench warrant.

News of the arrest was published in the newspaper, the complaint alleges, which caused Jones considerable embarrassment.

According to the complaint, Jones learned from Sheriff Harburt that Sandefer is not a deputy sheriff in Multnomah county and that he was not sent to southern Oregon to make the arrest. Sandefer carries a state agent's commission from the governor and works under instructions from W. J. Herwig, superintendent of the Anti-Saloon league in Oregon, according to the complaint.

LOS ANGELES, Calif., Oct. 3.—Cloudbursts in the vicinity of Blythe, Calif., are reported to have washed out railroad culverts. A stretch of the Santa Fe company's tracks in Riverside county have been inundated. Considerable damage to crops has been done in that section.

INDIANAPOLIS, Ind., Oct. 3.—Nationalization of the coal mines in the United States was urged in a resolution adopted by the United Mine Workers, now holding their convention here, today. The resolution declaring sympathy for the self-determination of Ireland was adopted.

WASHINGTON, D. C., Oct. 3.—Without ceremony, William Howard Taft, former president of the United States, today became chief justice of the United States supreme court.

NEW YORK, Oct. 3.—While union officials were decrying the unauthorized walkout, 2,000 additional longshoremen struck in Hoboken today, completely tying up that important section of the New York harbor. It is estimated that 15,000 men have struck so far.

Meeting to be held at Boise October 3, 4 and 5 for purpose of interesting people in the six western states of Idaho, Washington, Oregon, Montana, Wyoming and Utah in a general development and promotion plan. Will undertake advertising campaign, seek greater outlet for western products and establish markets.

Cotton Crop Worst In History--Market Falls

MEDFORD SITE OF POSTOFFICE CENTER OF LEGAL DISPUTE

MEDFORD, Or., Oct. 3.—Title to the property on which the postoffice is located is clouded, and negotiations are on between Earl H. Fehl and the government for adjustment.

The details of the dispute are as follows:

On March 13, 1911, Uncle Sam purchased several lots in Medford for a postoffice site. Since then a modern postoffice and federal court house building have been erected on the grounds. At that time the abstractors and then United States district attorney and the sheriff's office asserted that the property was free from all incumbrance.

In 1916 Jackson county officials decided to buy in all property on which taxes had not been paid. An agreement was made with the city of Medford to sell to the city all property within the city limits to protect the city on its street liens. County officials found that the taxes on a strip of the postoffice property, 20 by 125 feet, or a strip twenty feet wide running along the alleyway for 125 feet, had not been paid. They were \$69.23.

The county took over the property and attempted to sell it to the city. Fehl brought suit to enjoin the sale and won out on the grounds that there were no street liens against the government property. Fehl then secured title for about \$145. The assessed value of the property at that time was \$900.

Attorneys for Fehl have notified United States Attorney Lester W. Humphreys that their client owns the property and intends to take possession. Assistant United States Attorney Hall Lusk returned from Medford today, where he attempted for two days to straighten out the tangle. Lusk admits he doesn't know who holds legal title. In the event that Fehl holds the title, Lusk says the government can sue the abstractors and the former owner for giving the government a warranty deed to the property when it was not clear.

Haz Kik

I am just a little proud of The Tidings shop. Last week it turned out 2,500 copies of the Elks' Message, a seven-column, eight-page weekly, and got it out on time and without the least hurry or trouble. The plant is a little dandy—one of the best-equipped of its size on the Pacific coast. It handles not only The Daily Tidings and the Weekly Tidings easily, but could print an extra eight-page weekly, if it had the chance, without half trying, and has plenty of equipment to print both a morning and evening daily. Wish somebody would come along who WANTED TO PRINT IT IN ASHLAND and start another paper here, so we could get it to print at the same price our neighboring city print shops ask for the work. I am not so particular about the money The Tidings would make out of it, but it would help make bigger payrolls for Ashland, and that is worth a lot. On Ashland payrolls is Ashland made.

HAZ KIK.

ONE FATALITY INJURED AND FIFTY IN CHICAGO ELEVATED LINES WRECK

CHICAGO, Ill., Oct. 1.—One man was fatally hurt and fifty injured when an express train on the elevated railway line collided with the rear end of a local train.

William Dohrenz died in the hospital from injuries received in the wreck. He was the first person killed on Chicago's elevated railway in more than twenty years, according to the local company.

COTTON MARKET TUMBLES FROM \$5 TO \$10 BALE

NEW YORK, Oct. 3.—The cotton market broke today and went tumbling from \$5 to \$10 a bale after December quotations had reached 21.95 cents per pound, the highest price in a year on the cotton exchange. The break was caused by the government crop report, which stated that conditions were worse this year than at any similar period.

WASHINGTON, D. C., Oct. 3.—Cotton crop conditions are worse than at any previous similar period in the history of the cotton-growing industry, according to a report made today by the government department of agriculture.

Poor weather conditions and the boll weevil, which is a cotton-growing menace that appears to have covered the entire cotton belt, was given as the cause of the extremely poor condition.

The condition of the cotton crop today is reported as 42.7 per cent that of normal times, which is 12.2 lower than the average.

NEW ORLEANS, La., Oct. 3.—In a wild selling campaign after the government report on the condition of the cotton crop was made, cotton dropped \$10 a bale. Wild scenes were enacted around the building as bulls who had been heavy buyers sought to unload.

FIRST MONKEY GLAND OPERATION IS SUCCESSFUL

NEW YORK, Oct. 3.—The first "monkey gland" operation made for the restoration of youth was performed upon Irving Bacon, 59, here today and pronounced a success by the operating surgeons.

The transplanting of the gland took twelve minutes. Only a local anesthetic was employed, the patient remaining in a conscious condition throughout the entire time. At the conclusion of the operation, Bacon was smiling.

S. P. Section Gang Worker Killed By Train at Siskiyou

Clemente Alvarado, 33, Mexican, member of the Southern Pacific section gang employed at Siskiyou, died yesterday at a local hospital within two hours after being struck by a train shortly before noon Sunday two miles this side of the Siskiyou station. The injured man was brought to the city by an engine crew. Details of the accident could not be obtained.

The man was badly mangled, one leg having been completely severed from the body, and suffered severe internal injuries. The body was brought to the Dodge undertaking parlors. Investigation of the man's identity regarding family connections had not been completed late this afternoon. It was stated at the undertaking parlors that if friends or relatives of the dead man could not be found, the county would in all probability take charge of the body.

ASHLAND PEACHES AND GRAPES SCORE AT FAIR EXHIBITS

SALEM, Or., Oct. 3.—And still they come. Not content with winning a sweepstakes prize at the state fair, Jackson county today ran away with the blue ribbon in every individual class entered, from the peaches to pumpkins. Here are the winners:

- Best three boxes of pears, Anjous and Bartletts, Paul Scherer, Central Point.
- Best three boxes of apples, Delicious and Winter Banana, G. M. Frost, Ashland.
- Best plate display of peaches, M. J. Norris, Phoenix.
- Tuscan cling, W. R. Bagley, Talent.
- J. H. Hale peach, Albert Johnson, Ashland.
- Heaviest squash, Mrs. C. E. Gates.

"Things came in bunches," as Marketmaster Runyan once remarked. This has been Jackson county's fair from the start. Medford's mayor bossing the stunts and Jackson county farmers carrying off all the prizes. And, speaking of prizes, it should be noted that Ashland was there with both feet in the prize list, carrying everything before her in grapes and peaches.

No one is more delighted and no one deserves more credit than Miss Florence Poole, the home demonstration agent from Jackson county, who has been an invaluable assistant to Messrs. Cate and Oatman. As a matter of fact, without her assistance the work would never have been done on schedule time.

An eighteen-hour day was her regular program the first part of the week, and now that the strain is over and the battle won, she refuses to rest, but is at the booth from morning to night, showing the visitors just why Jackson county is the banner agricultural and fruit county of the state.

Old Senator LaFollette, the peach king of Marion, who has a state-wide reputation for saying what he thinks, visited the Jackson county exhibit this afternoon, and after looking over the peaches for some time, chewed his cud for several minutes, scratched his head, then remarked to no one in particular: "Yes, sir; you got us beat."

George Mansfield appeared today—no state gathering would be complete without him—and brought farmers from all parts of the state to see what southern Oregon has done. "Pop" Gates incidentally ordered a large blue ribbon bouquet made up, engrossed with the state seal, which will be presented to Messrs. Cate and Oatman, in addition to the \$100 which all the counties over 66 per cent are awarded. This seal will be properly hung and a photograph

BOMBARDMENT BY REDS FORCE BAKU SURRENDER

RED FORCES SHELL BAKU FROM CASPIAN SEA; RUSSIA ASKS POLAND TO OUST ANTI-BOLSHEVIK AGENTS FROM UKRAINA.

LONDON, Oct. 3.—One thousand casualties have resulted from reported fighting between Bolshevik troops and Moslems at Baku, on the Caspian sea, in Transcaucasia, according to a statement made by the Azerbaijan bureau today. The report has not been confirmed from any official source.

Moslems at Baku are said to have hoisted banners inscribed "Independence or death." The Bolshevik forces later opened a bombardment from the Caspian sea with heavy shelling that resulted in part of the city's destruction. The forces in Baku were finally forced to retire before the bombardment to save the city from further damage, leaving it for occupation by the Reds.

Baku is a city in Azerbaijan, one of the new states of the Russian soviet created in the extreme southern part of the old Russian empire. Azerbaijan is directly adjacent to Persia.

RIGA, Oct. 3.—The Russian commissioner of foreign affairs has replied to Poland's latest note proposing that Poland assist in removing from Ukraine the anti-Bolshevik agents who are attempting to launch a counter revolution, it is stated in a dispatch received here from Moscow.

Japan Rushes War Armament Says U. S. Report

WASHINGTON, Oct. 3.—Figures are being prepared by government experts for use during the disarmament conference to show that Japan is arming itself at a rate that is many times faster than that of other world powers.

The figures are authentic, so far as is possible to make them. They represent the work of American observers while abroad, the combining of statistics already in this country, and special information obtained through special channels.

PRICE OF DRUGS CAUSE OF CRIME, PORTLAND OFFICER

PORTLAND, Or., Oct. 3.—Half the crime in the city of Portland is committed by drug addicts, who are either crazed as the result of taking drugs or are willing to commit any crime to get drugs, in the belief of Dr. George Parrish, city health officer.

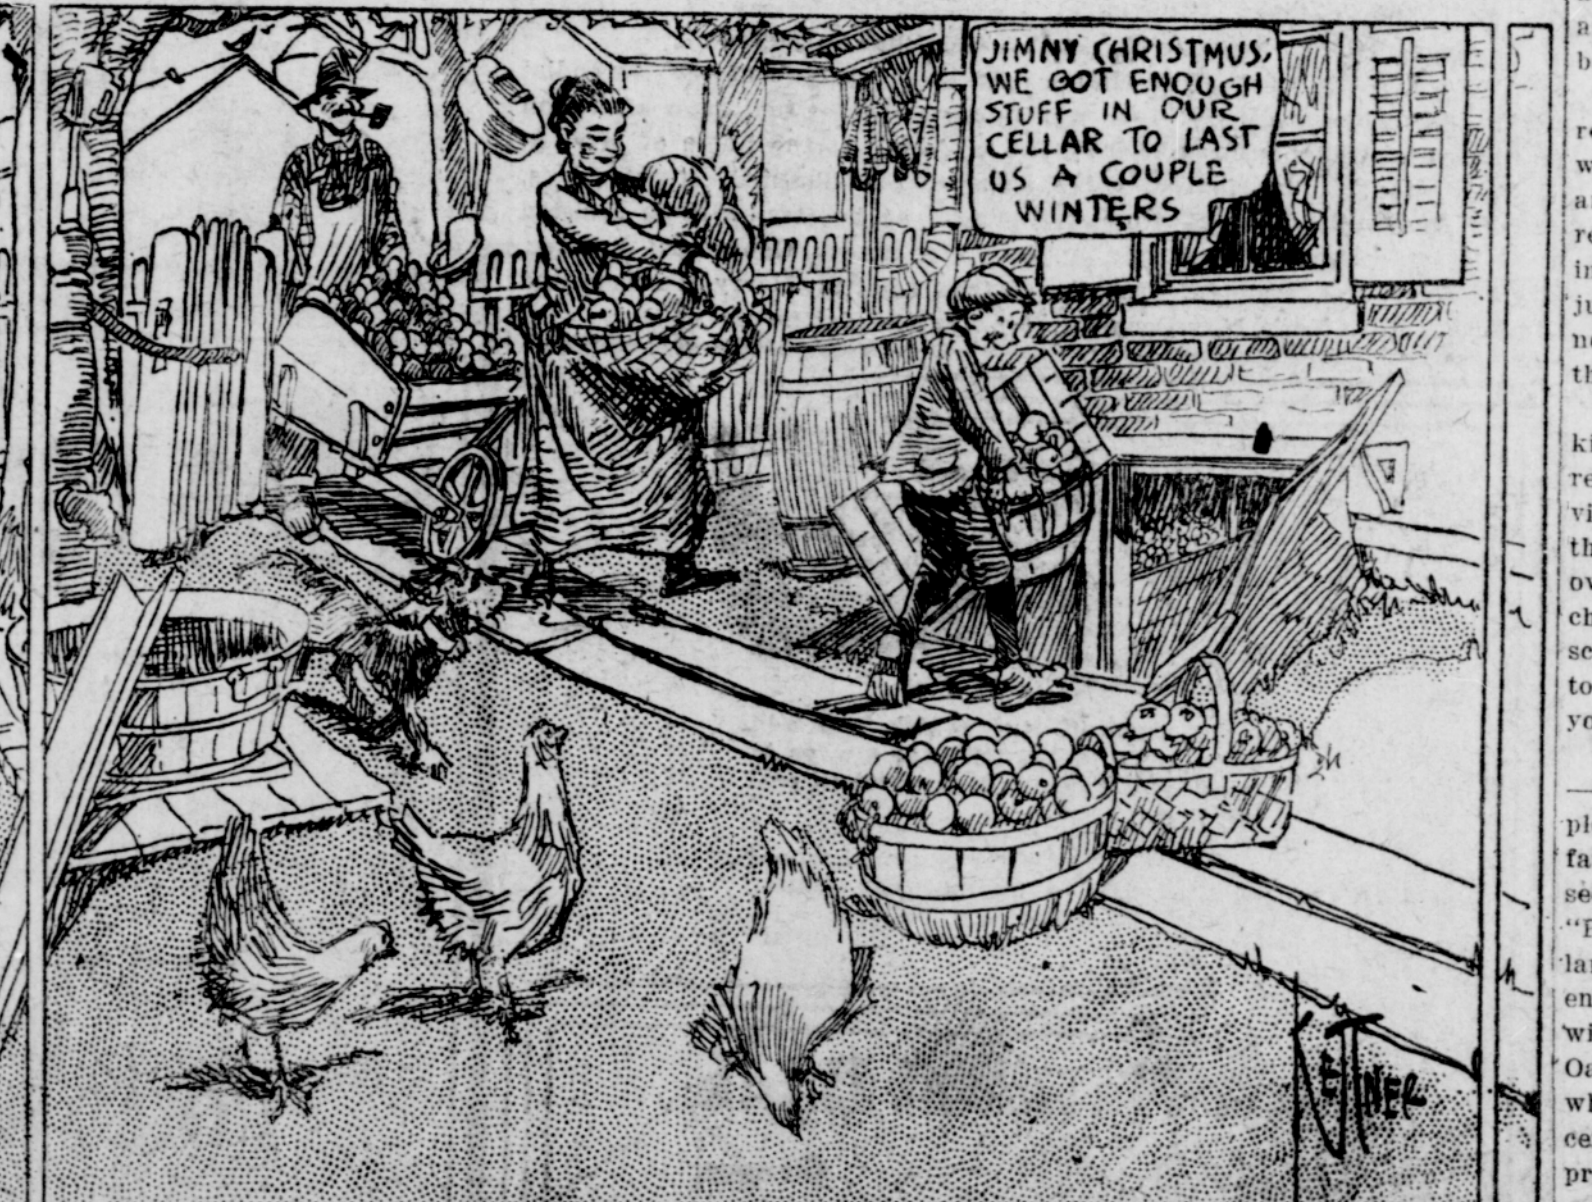

Parrish, who has made a study of the drug situation, believes \$15,000 is being daily extorted from men and women of Portland who are unfortunate victims of the drug habit and have fallen into the clutches of the drug runners.

Instead of increasing the police force to combat crime, the health officer would round up the drug addicts of the city and place them under the care and protection of a municipal narcotic bureau.

"My plan," explained Parrish, "is to establish a bureau in the city health office where we will file and card index the history and cases of the drug addicts and furnish them the necessary drugs under federal license, at cost plus a minimum fee which will be sufficient to maintain the bureau and two inspectors.

"The average drug addict, through
