# GIANTS BEAT YANKS BY SCORE OF 13 TO 5

## TRIGONIA WELL HAS VERY GOOD SHOWING OF OIL

HALF BARREL OF FIRST-GRADE OIL IS TAKEN FROM TRIGONIA WELL NEAR PHOENIX; FLOW STRENGTH NOT YET DETERMINED.

After drilling operations extending over a period of several months, a half barrel of first-grade oil was taken from the Trigonina Oil company well, two miles west of Phoenix, late yesterday afternoon, according to telephone information from the company's office at Medford this morning. The oil came up in the process of bailing the water from the well, an operation that has been going on for the past several days. The strike was made at a depth of 1,350 feet.

It was stated at the Medford office that nothing definite could be said regarding the strike until the well had been cleaned out. It was stated, however, that the indications are very good. Unless the well develops a strong flow, pumping will have to be resorted to in bringing the oil to the surface.

News of the oil indications will be received in Ashland with great interest, because of the number of local investors in the company, which has kept steadily at work, despite difficulties in drilling that have been encountered at various times. Sylvester Patterson, of this city, is the president of the Trigonina Oil company.

Considerable interest was aroused in the company's activities in purchasing several tracts of land adjoining the well property. Officials and stockholders of the company were at that time highly optimistic over the oil prospects that were developing at the well.

## Westminster Guild "Tours the World," Methodist Church

The Westminster guild went touring Tuesday evening at the Presbyterian church. The ticket office dispensed round-trip tickets for Alaska, California and points east. The conductor and porter were kept busy handling the crowd and getting all safely aboard the first train.

Mrs. Fred Wilson was in charge going to California. On board the steamer "Bear" the party, personally conducted by Minnie Poley, made the trip to Alaska and back, with huge enjoyment of the scenery, though the wind from the glaciers was a bit cool.

Josephine caves were entered, but Minabel Emery, guide, did not deem it safe to try to explore far with such a hilarious crowd.

Again boarding the train, a physician was called for and Dr. Bertha Sawyer conducted the entire party safely and pleasantly through the awful heat of a Kansas and Texas summer. They cooled off in Denver and had twenty minutes for refreshments.

The "chamber of commerce" had provided the guests with real old New England flavored doughnuts and the crowd rushed for the "lithia fountain" when it reached Ashland.

Mrs. J. R. Wick had intended to lead the party to Florida, but the lateness of the season prevented, much to the regret of the travelers. The nickel-in-the-slot machine at the fountain provided dainty drinking cups and a small fund toward the new church building.

While all were glad to arrive home safe and sound, they parted with real regret.

Conductor Hays was cool and obliging, and Koehler, the porter, though receiving but one "tip" the entire journey, made all comfortable and pointed out the special points of interest.

## Eighty-Nine Year Old Resident Dies At Son's Home

Francis M. Blevens, Sr., 89, Ashland pioneer, died last night at the home of his son, Francis M. Blevens, Jr., 240 Oberlin street. The body was taken to the Stock undertaking parlors.

The aged man passed away, presumably because of a weakened constitution because of old age, while asleep. He had not complained of illness before retiring yesterday evening.

Mr. Blevens was well known among Ashland residents. He is survived by two sons and one daughter. Funeral services have not been definitely arranged. Burial will be made in the Hargadine cemetery.

## STRIKE MENACE CURE SEEN IN GOOD HOMES

SAN FRANCISCO, Oct. 7.—Forty-three years ago a pudgy-faced lad answering to the name of Tommy entered the office of the old North Pacific Coast Railroad company as an office boy.

The other day the resignation of John J. Rossiter as vice president and general manager of the Pacific Mail Steamship company, the oldest and largest American line on the Pacific, left a gap that shipping men prophesied would be hard to fill.

But it was not vacant long. Still known as Tommy to his intimates, Thomas A. Graham was named for the position. He left the Southern Pacific railroad after forty years' service, during which he rose from office boy to assistant freight traffic manager. During the forty years he forged steadily ahead, position by position, and earned a reputation as being one of the leading traffic executives of the country.

"Application" is his formula for success.

"The opportunity is open to the man who will apply himself in the railroad field," he declared when asked how he found his way to the top. "And the opportunity is bigger today than it ever was before."

Tommy Graham, says his associates, was never content with knowing his own job. He always knew it thoroughly and then reached out and included a first-hand knowledge of the job above him. And he just naturally fitted in when changes came. Throughout his forty-three years' railway service he never lost a day's pay nor has he been seriously ill at any time.

## Parent-Teachers To Buy Piano For Hawthorne School

Plans for the raising of \$300 to purchase a new piano for the Hawthorne school were formulated yesterday at a meeting of the Parent-Teachers' association at the Hawthorne school. As an initial effort to raise the fund, an entertainment will be given the latter part of this month by the teachers of the Hawthorne school, where the piano will be placed on the first floor and will be used in addition to the one already used on the second floor.

A membership drive will be made by the association within the next few weeks. The organization has fifty members at the present time. Figuring on a basis of 1,100 school pupils, Mrs. Louis Dodge, president of the association, states that the membership of the association should be between 300 and 500 teachers and parents. The membership fee is 50 cents a year.

Plans were made at the meeting to purchase playground equipment for the Junior high school and the Hawthorne school.

## Serbia Mobilizes Military Classes, Hungary Threat

### STATE PRISON IS CROWDED; PREDICT INCREASE TO 500

SALEM, Or., Oct. 7.—There are now 396 convicts housed in the penitentiary, this being the largest number in the institution at any one time since 1916. This was the report made to the state board of control by L. H. Compton, warden of the prison. The warden predicted that the number of inmates would increase to 500 before the end of the present biennium. The appropriation for the conduct of the institution, the warden said, was made at the last session of the legislature on the basis of 325 inmates. As a result of this, he forecasted a deficiency before December 31, 1921.

The several institutions, together with the number of charges enrolled in each, follow:

Oregon state hospital, 1,812; Oregon state penitentiary, 396; state institution for the feeble minded, 619; Oregon state training school for boys, 144; Oregon state tuberculosis hospital, 93; Oregon state school for the blind, 36; Oregon state school for the deaf, 93; Oregon state industrial school for girls, 33; eastern Oregon state hospital, 510; Oregon state soldiers' home, 111, and Oregon employment institution for the blind, 28.

### RALLY DAY AT THE PRESBYTERIAN CHURCH

The Sunday school has prepared an excellent Rally day program. It will occur at the regular Sunday school hour, 9:45 to 11 a.m.

Rev. Boudinot Seeley, of Portland, will preach at 11 o'clock. The choir has prepared special music for this Rally day occasion. Every church member and all interested in our services are cordially asked to be present.

The Christian Endeavor has a Rally day service at 6:30. A number of new members have been received recently. This is a fine occasion for the young people wishing to enter our society to be present and get acquainted. Rev. C. F. Koehler.

Haz Kik

Speak a good word for your own town and country whenever an opportunity presents itself. Most towns die for want of confidence on the part of business men and public spirit than from rivalry of neighboring towns or adverse surroundings. When a man is in search of a home or business location, and goes to a town and finds everything brimful of hope and enthusiasm over the prospects of the place, and earnestly at work to build up the town, he soon becomes imbued with the same spirit, and as a result he drives down his stakes and goes to work with the same interest. When, however, he goes to a town and every one expresses doubt and apprehension in the future prospects of the town, he naturally feels that it is not the place for him, and at once shakes the dust from his feet, while he pulls with all possible speed for some other town. Consequently, try and make a live, enterprising, progressive town out of Ashland, and remember that when you are working or saying a good word for Ashland you are accomplishing all the more for yourself.

HAZ KIK.

### "PURPLE FLASHES" CHARACTERS ENTERTAINED

Mr. and Mrs. Frank Fuller, in the persons of C. J. McNaughtan and Mrs. Miriam Shepherd, and the "soubrette," Mrs. Ben Bowers, Jr., lunched at the Elks' club yesterday as guests of Nate Bates.

## ALBANIA TROOPS MOVE FOR FRONT WITH ARTILLERY

PARIS, Oct. 7.—The Serbian war council at Belgrade has decided to call several military classes to the colors, according to a Belgrade dispatch. The mobilization is evidently aimed at Hungary.

Roumania, Oct. 7.—The Czecho-Slovakia are expected to use military measures, in view of the possibility of intervention in the Austrian-Hungarian territorial dispute, the dispatch said.

The Albanian troops continue to concentrate near the Albanian-Jugo Slav frontier. The Albanian army is said to be moving up artillery and ammunition. It is reported in Belgrade that the shells bear the mark of Italian manufacturers.

### BRUMFIELD JURY PANEL EXHAUSTED; COURT ADJOURNED

ROSEBURG, Or., Oct. 6.—The jury panel for the trial of Dr. R. M. Brumfield, charged with the murder of Dennis Russell, having been exhausted, Judge Bingham adjourned court this afternoon until Friday morning. Nine jurors have been tentatively seated and a special venire of fifty has been called.

The selection of the jury started yesterday following the refusal of Judge Bingham to consider the plea of Dr. Brumfield's attorneys for a continuance of the trial until October 24.

Judge Bingham held that no assurance that Dr. C. S. Mahood, health officer of Calgary, Canada, and called by the defense as one of its main witnesses, would be present at the later date, had been given the court, and that Dr. Mahood is without the jurisdiction of the court, making it impossible to bring him unless he comes voluntarily. Dr. Mahood examined Brumfield following the dentist's arrest near Calgary.

Bend gets new \$60,000 business building.

## Former Ashland Girl Is Member Of O.A.C. Faculty

Miss Marion Hodgson, a former Ashland girl, eldest daughter of Mr. and Mrs. W. D. Hodgson, well-remembered residents who now are located at Gooding, Idaho, is the newest addition to the Oregon Agricultural college faculty, being called to replace Miss Lila Morris O'Neale, who is away for the school year on leave of absence. Miss Hodgson is delighted to be at her alma mater and has taken up her duties as instructor in household art. She reports Rev. and Mrs. Douglass and family are still at Gooding and are very popular, having been unanimously invited to remain with the good people there for another year. Recently they were given a rousing reception, which was largely attended. Rev. Douglass will be remembered as a former Methodist minister in this city.

## ONLY FIFTY MILES UNPAVED HIGHWAY ASHLAND-PORTLAND

With the exception of about fifty miles, the Pacific highway will be paved this year from Portland to Ashland and the California line. The fifty miles are scattered in small gaps here and there along the 345.6 miles of highway. At the October meeting of the state highway commission bids will be asked for the Roseburg-Wilbur and Drain-Rice Hill sections, and when these are paved there will be hard surface from Portland to Myrtle Creek, south of Roseburg.

There is now pavement from Portland to Albany excepting the little gap near Barlow. South of Albany the highway is being graded toward Junction City, but traffic can cross the river at Corvallis on the west side and strike pavement there which goes through Drain without a break. Then comes a gap, but pavement is reached again, and from a little south of Yoncalla it runs to Wilbur. Then comes a gap to Roseburg.

From Roseburg to Myrtle Creek there is a ribbon of pavement. From Myrtle Creek to Canyonville the new grade, rocked, will be available by the end of this month. From Canyonville the highway wends through the canyon, the road being rock, and in fine condition. Emerging from the canyon at Galesville the traffic finds pavement to south of Wolf Creek, approximately a ten-mile stretch. Then comes Sexton mountain, which is graded, to Grants Pass. From Grants Pass to Ashland and the California line, about seventy-five miles, the pavement is finished.

## State Convention Of W.C.T.U. Starts At Salem, Oct. 12

By MRS. C. F. KOEHLER  
The state convention of the Oregon W. C. T. U. will meet at Oregon City October 12, 13, 14.

Its declaration of principles give the high standards and ceaseless activity of this famous organization.

That the devil was not put to sleep with the signing of the eighteenth amendment is evidenced by the fact of the activity of the liquor forces to weaken the enforcement laws, the weak delay on the part of congress to enact such laws, and by the lack of interest on the part of many good people.

Eternal vigilance is the price of more things than political liberty.

Springfield—Changes in the street car line planned.

## THREE YANKEE PITCHERS ROUTED HEAVY SLUGGING

YANKEE PITCHERS SLAUGHTERED; TWO TWIRLERS ARE TAKEN FROM BOX; JESS BARNES THROWS FINE GAME FOR GIANTS.

POLO GROUNDS, New York, Oct. 7.—Scoring eight runs in the seventh inning, John McGraw, manager of the hit-hungry Giants, ran his team to a slaughter of three Yankee pitchers and sewed up the third game of the world series, making the count two games to one in favor of the Yankees. The final score of today's game was 13 to 5 in favor of the Giants.

The Giants were on a batting rampage in the seventh inning, making Quinn and Collins, out of the box. They also drove Shawkey, who started on the mound for the Yanks, to the club house in the third inning, when they chalked up three hits and four runs, at that time tying the score at 4-4. The Yanks also made four runs in the third inning. Rogers, who finished as the Yankee pitcher, likewise was rapped hard.

Old Jess Barnes, who wasn't counted as a hero, stepped in after Toney was flattened in the third inning and saved the day for McGraw by pitching a wonderful game. The Giants made a total of twenty-one hits.

Avaigo Arbuckle October 13  
SAN FRANCISCO, Oct. 7.—The arraignment of Roscoe ("Fatty") Arbuckle on a charge of manslaughter in connection with the death of Virginia Rappe, beautiful film actress of Los Angeles, who died following a party given by Arbuckle at the St. Francis hotel here, has been continued until October 13 in order that time may be allowed to secure additional counsel to defend him.

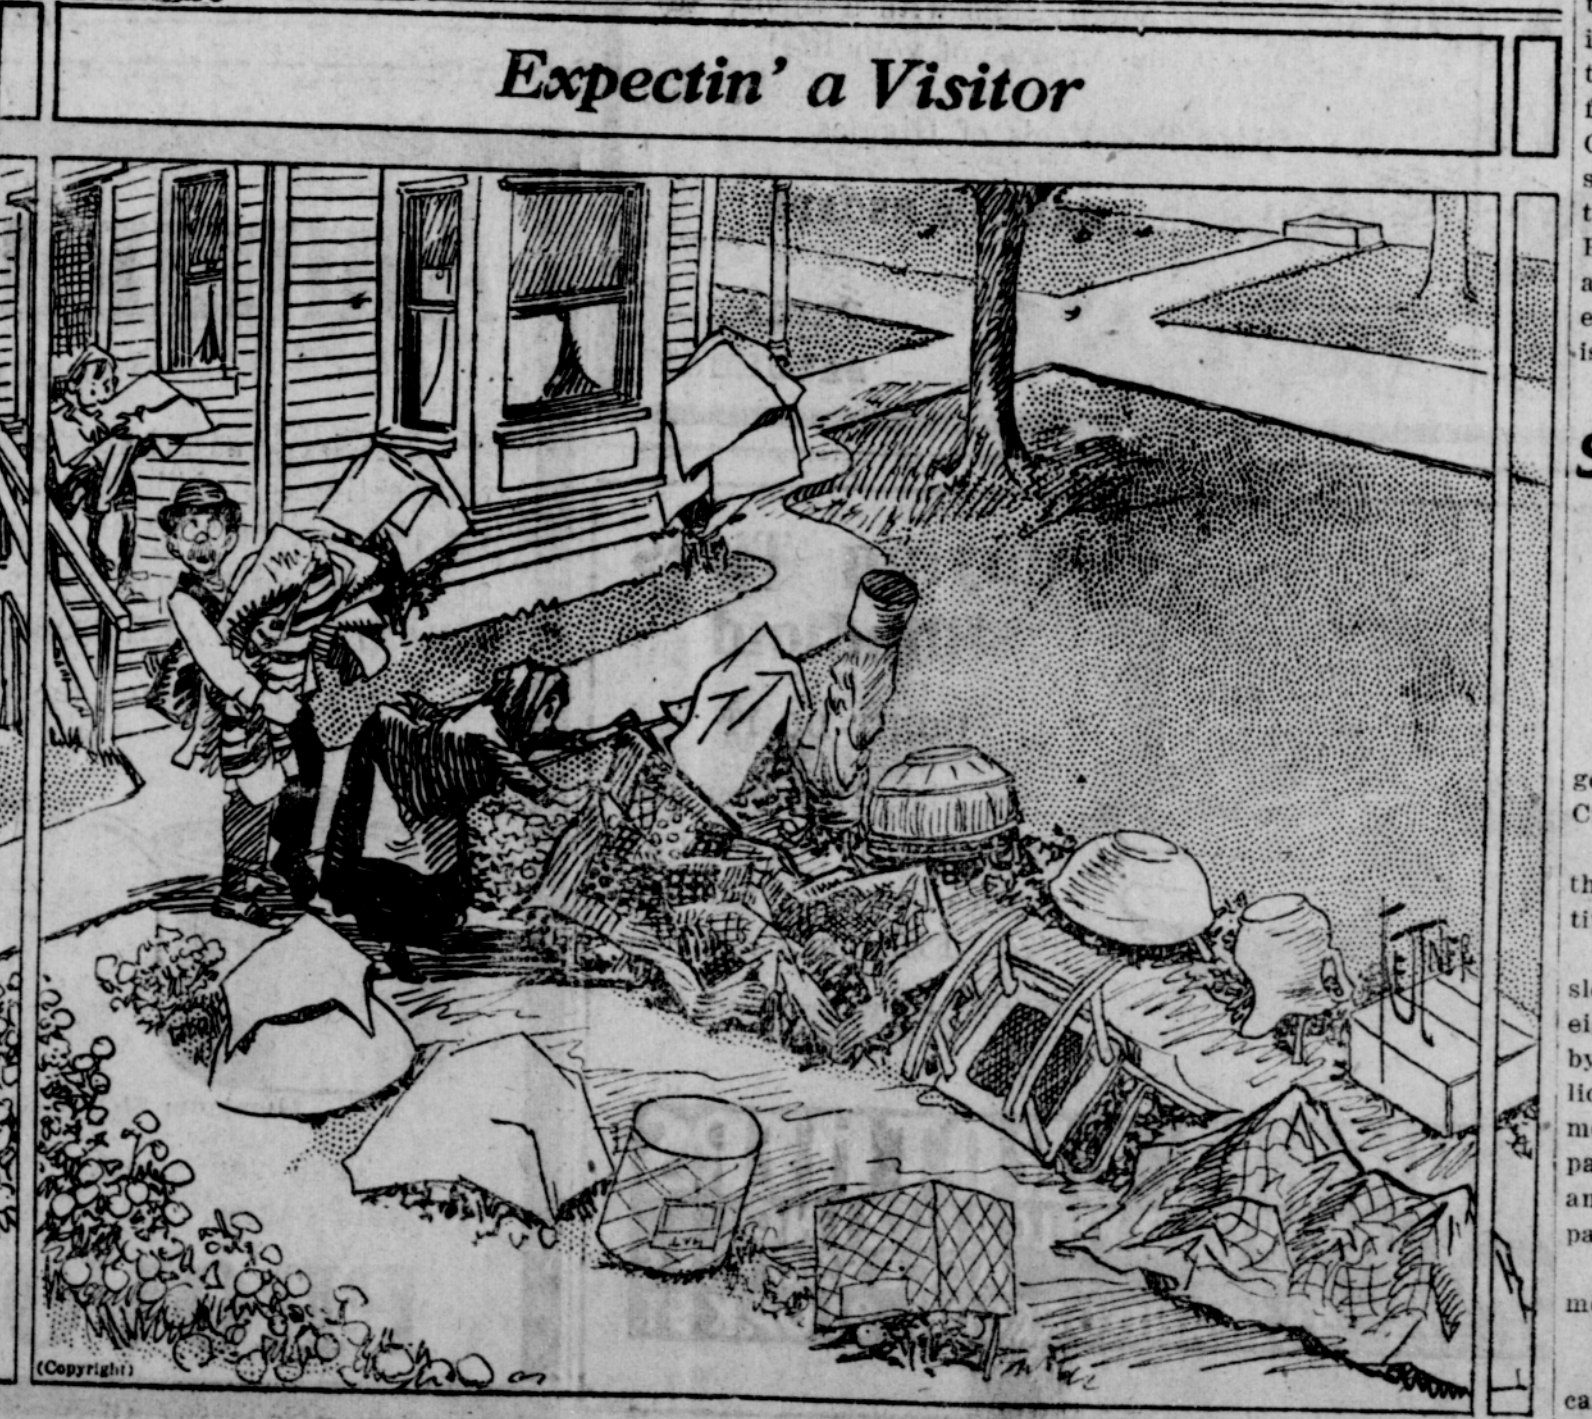

## Road Work Is Topic At C. of C. Meeting Yesterday

The semi-monthly topic at the chamber of commerce last evening was that of "Roads," and the question was confined entirely to the Dead Indian or Lake o' Woods road. E. P. Moore was principal speaker. Mr. Moore told his hearers about the construction during the last two years of the four miles of road just opened, which cuts off the worst feature of the old road, and gave an interesting discussion of the benefits which will accrue to Ashland when this road is improved throughout its length. How this may be done was also considered, and Mr. Moore believes that the city of Ashland should help as well as the road district and the Lake o' Woods colony.

Louis Dodge gave a very interesting resume of the same subject, and thought Ashland had been slow in taking hold of this proposition. A resolution was made and adopted asking the chamber of commerce to appoint a committee at once to thoroughly investigate this matter and report to a larger meeting of Ashland citizens in the near future.

Messrs. Louis Dodge, E. V. Carter, J. H. McGee, F. H. Johnson, A. C. Ninger were appointed the committee by President Enders of the chamber.

WASHINGTON, D. C., Oct. 6.—Federal grand jury investigation of the Ku Klux Klan will not be undertaken at the present time, Attorney General Daugherty announced today. Daugherty stated that the department of justice will not proceed against the klan unless evidence is adduced to show that the organization is illegal and dangerous. It is stated that the developments to date have not been such as to warrant the department of justice starting action of interference.
