ASHLAND, OREGON, MONDAY, OCTOBER 10, 1921

NO. 33

YANKS LED TO THIRD VICTORY BY HOYT

LOCAL CHICKEN RAISERS PLAN TO ORGANIZE ASSOC.

ASHLAND POULTRY RAISERS TO FORM PERMANENT ORGANIZATION TO FURTHER MUTUAL INTERESTS; NEXT MEETING OCTOBER 22.

Preparations for a permanent organization of Ashland poultrymen were made Saturday afternoon at a meeting of local poultry raisers at the city hall. H. O. Anderson, Carl Gotche and A. McMillan were appointed as a committee to draft the by-laws and outline plans for the organization of the potential poultrymen's association. Twenty-five ranchers, representative of a \$25,000 yearly egg output in Ashland, attended the meeting.

The purpose of the poultrymen is to organize a co-operative association that will admit of definite policies and unity of action on all matters pertaining to the raising of chickens for the market or supplying eggs to wholesalers. Ashland shipments of eggs to points in northern California and near Klamath Falls have steadily increased during the past few years. The organization will not be binding in its membership and will not in any sense be a financial organization.

The suggestion that the local poultrymen consolidate with the Medford organization met with opposition, the consensus of opinion being that Ashland would have nothing to gain by such action and would lose its identity. The Medford association, Southern Oregon Producers, was represented at the meeting by Mr. Parker.

E. O. Smith presided at the meeting as temporary chairman. H. B. Carter, E. O. Smith and H. O. Anderson were appointed members of a committee to confer with the Ashland Fruit and Produce association relative to the handling of eggs at 3 cents a dozen.

H. O. Anderson states that Ashland poultrymen have never received a complaint on a bad shipment of eggs, in spite of the large volume of business conducted in northern California.

The next meeting will be held October 22 at 2 o'clock in the afternoon at the city hall.

ASHLAND'S AUTO CAMP IS LAUDED IN 'FRISCO PAPER

Stating that the germ of the municipal auto camp, which commenced to circulate some years ago, is now spreading throughout the country, Charles H. Kerr, automobile dealer of San Francisco, gives the following account of stories told by passing tourists regarding the Ashland auto camp, published in the San Francisco Chronicle:

"Very recently a party of Lexington tourists who had just returned from the Pacific northwest were high in their praises of the municipal automobile camp at Ashland, Ore. This camp, according to their descriptions, is an ideal one and its kind is being patterned throughout the northwest.

"The Ashland camp is free, being maintained at the expense of the city. Here visiting automobilists may stop and park their cars for the night. A large camp cookhouse has been erected there with twelve double-plate gas burners and sinks which may be used by campers. Gas is doled out in 25-cent lots by use of slot meters. A quarter will supply the average

Belfast Outbreak Feared As Result Of Peace Conference

LONDON, Oct. 10.—Michael Collins, commander-in-chief of the Irish republican army, and the outstanding member of the Sinn Fein delegation to the British and Irish peace conference, who arrived here from Dublin today, is hopeful that the conference will reach a solution of the 700-year-old quarrel.

On the eve of the assembly of the peace parley, disquieting reports came from Dublin that restiveness was being shown and that the truce is being threatened with riots and street fighting in Belfast. It is feared that the conference may be the signal for a fresh outbreak in Belfast.

CALIF.-OREGON POWER CO. TAKES MEDFORD OPTION

MEDFORD, Ore., Oct. 10.—Announcement was made Saturday by H. L. Walther, district manager of the California-Oregon Power company, that an option had been signed by the power company for the tract of land at the foot of Grape street, adjoining the Southern Pacific tracks, and that a warehouse 200 by 50 feet will be constructed for the storage of electrical supplies and equipment for the territory served by the company. The cost and design of the warehouse have not been determined. The land is in what is known as the Palm-Hutchinson tract. The warehouse site is opposite the Knight Canning company.

Work on the remodeling of the company building on Main street for the installation of the head offices of the concern will be started as soon as the architect can draw the plans and the contractors' bid can be let. The second and third floors will be remodeled and the home offices of the company established here, being moved from San Francisco, Calif., where they have been since the formation of the light company. Byron H. Hurd, assistant to the general manager, has arrived to attend to details.

The new home offices will be opened in this city January 1 next, and the officers and families and equipment, records, etc., will arrive a month earlier.

The California-Oregon Power company is establishing its home offices in this city to be in the center of the territory it serves and means an added payroll and new people for the city; also an increase in business.

Ashland Boy Is Prominent In O.A.C. Activities

OREGON AGRICULTURAL COLLEGE, Corvallis, Ore., Oct. 10.—Ernest V. Abbott, of Ashland, is registered as a senior in the soils department of the school of agriculture. Mr. Abbott is prominent in student activities. He is a member of the Aggie club, Soils club, Seaboard and Blade, Varsity Forensic association, captain in the R. O. T. C. cadet corps and a member of the Sigma Phi Epsilon fraternity.

The soils work which Mr. Abbott is taking includes a study of soil drainage, irrigation farming, dry farming, soil fertility, soil surveying, soil biology, soil physics and soil management and other allied agricultural and educational subjects. The purpose of the courses in soils is to give the student thorough training in this phase of agriculture, making him competent to manage a farm or preparing him for positions in state and federal service.

The demand for men in the type

Bandits Rob Messenger Of \$102,000 and Escape

FIRE PREVENTION WEEK ENDORSED BY SEC. WALLACE

National Fire Prevention week was observed October 2-9. Its object was to call attention to the vast annual loss by fires which might have been prevented, and to emphasize the necessity of safeguards against future fires. The nation's total fire loss is estimated at 15,000 lives and \$500,000,000 in property each year. According to the statistics of the national board of underwriters, there were 38,266 fires on farms in a single year—1918—and the estimated loss was \$18,166,710. That means that 38.26% rural families in 1918 suffered loss in degrees varying from slight damage to the loss of home, livestock and, in many cases, human life. Henry C. Wallace, Secretary of Agriculture.

Farm fires cost about 20,000,000 a year—\$18,166,710 in 1918. Of the fires that year, 33 per cent were from causes classed as preventable, 37 per cent from partly preventable causes, and 30 per cent unknown, but believed to have been largely preventable. With inadequate fire-fighting equipment on farms, fires are hard to control. Prevention is the best way to deal with them.

Defective chimneys and flues took toll to the extent of \$1,962,031; sparks on roofs, \$1,181,171; careless use of matches by smokers and others, \$1,071,987; petroleum and its products, \$732,067, and stoves, furnaces, boilers and their pipes, \$674,968.

The largest item listed as partly preventable is lightning, \$3,933,950.

Fire Prevention week should be made a special time for looking over the premises to see that the buildings are in the best practicable shape to prevent and resist fires; that inflammable rubbish is cleared away, and that habits of safety are instilled in the handling of matches, lamps, stoves and kerosene and gasoline.

Gasoline has come to play such an important part in farm life that special care should be taken to see that it is not stored in inflammable buildings, and is never opened in the presence of uncontrolled flame.

Fire Prevention week ended on the semi-centennial of the great Chicago fire. While occurring in a great city, the traditional cause of this fire was one which is liable to occur in the country—the upsetting of a lantern in a stable. If lanterns must be used in barns, they should be kept in good condition, set or hung in a safe place, and never filled or lighted in the barn.

Numerous disastrous fires are caused by thrashing machines, both scattered sparks and embers and by dust explosions in the separators. All smokestacks should have spark arresters, and the ground around the boiler should be kept clear and wet down if necessary. Grain dust explosions are largely preventable. The United States department of agriculture has made exhaustive studies of the subject and is prepared to recommend adequate safeguards.

Serious losses are caused by sparks from locomotives, which ignite dry wooden shingle roofs and start many fires in straw, stubble and grass during dry seasons. If a railroad runs through the farm, it will pay to plow a few furrows along

Haz Kik

If I lived in the east, and didn't know anything about Ashland, and should receive a booster edition for Ashland backed by the Ashland chamber of commerce, dated at Medford, I would likely conclude that Ashland was a little, dinky, one-horse town that did not have facilities to print such an edition, and that Medford was the real town of southern Oregon. Saying nothing about supporting home institutions, that Ashland may become prosperous, I certainly would insist on the edition carrying the Ashland date line, so that the literature sent out would not have a kick back, like a sawed-off shotgun, and bump the hunter while it missed the game. It pays a chamber of commerce to THINK. HAZ KIK.

Gold Quartz And Placer Assoc. to Start S. Ore. Work

The Gold Quartz and Placer association has been organized to conduct extensive mining operations in southern Oregon. The plans of operation of this organization promise big things in the mining industry, which is evidenced further by the personnel of the board of trustees elected at the organization meeting Friday evening. The officers and managing board of trustees are as follows: Dr. A. M. Knapp, president and general manager; F. W. Streets, prominent business man of Grants Pass, treasurer; M. P. Schmitt, public accountant, secretary; Carl Jeske, mineralogist, treasurer; J. W. Dressler, prominent business man of Medford, trustee; Charles S. Phelps, practical and well-known mining man from Nevada, with forty years' successful experience, trustee.

Dr. A. M. Knapp, the president and general manager, is a well-known and practical mining engineer, mineralogist and geologist, having had twenty-five years of successful experience in mining operations. The practice of medicine not having appealed to the doctor, he chose mining for his life work, having gained a wide experience during his career. His success in this field has been amply demonstrated in many instances, and his ability has been fully demonstrated during his quiet, unassuming investigations and operations conducted in southern Oregon in the past fourteen months.

DAIRMEN'S MEETING POSTPONED A WEEK

The meeting of county dairymen has been postponed until Saturday, October 15. The meeting was originally set for Tuesday of this week at Gitzen's stables, North Fir street, Medford.

Albany cannery running at full capacity with 150 people employed, plant is open.

OUTLAWS BOARD ST. LOUIS CAR TO ATTACK NEGRO

ST. LOUIS, Mo., Oct. 10.—Two armed bandits held up Robert Hardman, negro bank messenger, in the heart of the business district this afternoon while on board a crowded street car, and escaped in an automobile, carrying with them \$102,000 in cash and negotiable securities.

The negro messenger was relieved of the satchel containing the money by the two outlaws, who forced a passage through the passengers on the jammed street car and compelled the motorman to stop. They jumped into a waiting automobile standing in readiness at the curb and escaped. Police and plainclothes men now are combing the city for the robbers.

MEDFORD WOMEN ATTEND MISSIONARY SOCIETY MEET AT THE CHRISTIAN CHURCH

The Woman's Missionary society met at the Christian church parlor Friday afternoon with about fifty ladies present. Twenty ladies were up from Medford and were gladly welcomed by the Ashland women. Dainty refreshments were served at the close of the meeting. Mrs. F. E. Wilnot led the meeting. After a circle of prayer the following ladies took part in the program.

Mrs. Anna Parr, T. Bryant, F. Crowson, Mrs. Alta Weinburger rendered a pleasing solo. Special topics were rendered, as follows: "Inasmuch," by Mrs. Grace Putman; "Paving the Last Mile," May Benedet; "Building the House of the Lord," Mrs. J. V. Wright. "Hidden answers" were answered by a number of women. Mrs. Willard, of Medford, spoke some appreciated words in behalf of the Medford women, with responses from Mrs. Champie and Mrs. J. V. Wright, of Ashland.

PRESBYTERIANS HAVE SUCCESSFUL RALLY DAY PROGRAM SUNDAY

Great satisfaction is felt by the leaders of the Presbyterian church at the success of the Rally day services.

The Sunday school rooms were full and a good program was given by the young people. Rev. Seelye preached to a congregation numbering about 225 at the morning services. The good music by the choir added much to the enjoyableness of the occasion. The Christian Endeavor society had an interesting program, a part of which consisted of the election of officers, reception of four members from the junior society and the adoption of goals for the coming year.

It is generally conceded that the condition of the church never was more encouraging than at the present time.

The Boy Scouts of troop 1 will not meet this week, but will meet again Tuesday evening of next week.

PORTLAND HOTEL DAMAGED BY FIRE

PORTLAND, Ore., Oct. 10.—Starting in a bale of old papers in a storeroom on the thirteenth floor, fire broke out early today in the Benson hotel here, doing a total damage of \$15,000.

Marshfield-Macley cannery finishes season with pack of 21,900 cases.

Ashland Woman Talks to Brother In Colo. By Phone

William H. Ward, president of the Hatters' Association of America, after trying for over two hours to have the lines cleared, succeeded in speaking to her sister, Mrs. Frank C. Stevens, at her restaurant on A street, from the Palace hotel, Denver, Colo. As it was around 2 a. m., the lines were not so busy at this end at that hour in the morning, which rendered all that was said quite distinct to Mrs. Stevens. Mrs. Stevens was then informed that her sister, Miss Roberta Ward, of New York city, who is making a tour of the west, will stop at Ashland and pay her an extended visit.

R. VALLEY SHOW TO OPEN OCTOBER 29 IN MEDFORD

MEDFORD, Ore., Oct. 10.—Announcement has been made by the Medford chamber of commerce committee in charge of the Rogue River Valley exposition that the same will be open to the general public on Saturday, October 29.

According to the rules and regulations adopted, all entries must be made on Thursday, October 27, and the judging will take place on Friday, the 28th. The public will not be admitted until all of the judging is completed and prizes awarded. This decision was arrived at after the experience that was had with the public, which insisted on handling the pears, and in several instances placing them back on the wrong plate, thereby doing the grower an injustice.

One-layer boxes will be used instead of the commercial size. The chamber will provide these boxes and a deposit of 10 cents each will be required from the grower, which will be refunded when entries are made.

The exposition will be a Rogue River valley affair and not confined to the district surrounding Medford. An advisory committee of growers has assisted the chamber's committee in offering suggestions. This advisory committee consists of William Brayton, F. E. Upton, of Central Point, and Gilbert Johnson, of Ashland. The committee in charge of the exposition is composed of Ed White, chairman; A. O. Bennett, C. C. Cate and James Taylor.

Growers may make any number of entries in each class. No fee is required to make entries, nor will there be an admission charge for the general public. The exhibit will be maintained until the apples are unfit for that purpose, which it is believed will be for a period of at least four months.

Governor Olcott Misses Date After Arrest As Speeder

PORTLAND, Ore., Oct. 10.—So strongly did Traffic Officer H. M. Abbott, of Columbia county, uphold the edict of the law on the lower Columbia highway today that Governor Olcott, Secretary of State Sam A. Koser, R. A. Booth, chairman of the state highway commission, and party, consisting of two automobile loads of dignitaries bound for the opening of the Young's Bay bridge on the Seaside highway, were unable to keep their appointment Saturday as a result of speeding charges placed against them by the officer.

As a result, the crowds from Portland and the coast cities waited at the bridge until President Harding touched the electric button opening the bridge and then adjourned without the exercises which the governor and party were scheduled to conduct.

VICTORY SCORED BY YANKS IN 3 TO 1 GAME

"BROOKLYN SCHOOL BOY" WINS HIS SECOND GAME OF SERIES; BABE RUTH PLAYS, DESPITE BAD ARM, AND SCORES HOME RUN.

By JACK VEIOCH
POLO GROUNDS, New York, Oct. 10.—The sneaky right arm and brilliant pitching of the youthful ball-tossing marvel, Waite Hoyt, baffled the Giants again in today's world series game.

Hoyt turned back the fighting McGraw men in the fifth game of the series by a score of 3 to 1 in favor of the Yanks. The game places the New York Yankees in the lead once more by one game. Huggins' men now have three games against two for the Giants and Hoyt has stepped forward as the pitching star of the series, having won two games.

Once again Artie Nehf, Giant southpaw star, went down to defeat before the "Brooklyn schoolboy." Nehf pitched brilliantly, but not as fine in the tight places as Hoyt, whose teammates made their hits count. The Giants outthrew the Yanks ten to six, but failed to make bases.

The stick work of Sehang, Babe Ruth, Bob Meusel and Ward, coupled with a base on balls, accounted for the Yankee victory. Ruth was struck out three times out of four up, but on another occasion he pulled an unexpected coup by laying down a bunt and beating it out to first base, thereby starting a rally that put the game on ice for the Yanks.

The victory puts the Yanks very much into the world series again and they proved themselves a team of fighting players worthy of the best opponents. Babe Ruth, who got into the game despite the sore elbow, undoubtedly is an inspiration to the Yankees. He collapsed on the bench after reaching home with a run that put the Yanks in the lead, but resumed his playing after a few minutes.

PERJURY CHARGED IN INDIAN TRIAL FOR CATTLE THEFT

MEDFORD, Ore., Oct. 10.—Closing arguments were made in the federal court Saturday morning in the trial of Ferd Hood, a Klamath Indian, and his cousin, Charles Hood, charged with stealing and selling government cattle. In his opening statement to the jury, Assistant District Attorney Flegle charged "it is clear that some witnesses here, for one side or the other, are not telling the truth." The attorney for the defense, in his address and in reply to Flegle's statement, admitted that "false testimony had been given."

The defense attorney also presented the insinuation of the district attorney's assistant that "the clever Charles Hood, father of one of the defendants, was a tramer of defenses, and he has had his hands full."

The government contended that it had established all the vital facts in the case; the driving of the five cattle from the agency corral, and the delivery of them to Peter Grove, a Chiloquin butcher, and that the defense had failed to prove an alibi. Assistant District Attorney Tom McGuire will make the closing plea this afternoon, and with the instructions of the court the case, which has been on trial the last day, will be given to the jury. Most of the witnesses in the case were Indians, and the testimony conflicting. Fred Hood was acquitted earlier in the week on another cattle-stealing charge.
