Mrs. Dill Leaves—

Mrs. Margaret Dill will leave tonight for Oklahoma for a month's visit with her parents at Wagoner. She will visit at Muskogee and other points. In the meantime J. H. and the chickens on North Main will "batch" it together.

See the Treichler Motor company Medford, about taking Liberty bonds at par. 39-3

Watch Rose Bros.' window for Saturday candy specials. 37-tf

Elected to Fraternity—

Kee and Edgar Buchanan write home that life at the university so far has been very agreeable. Kee and Bernice Yeo are roommates at Hendricks hall and Edgar was elected to membership in the Phi Sigma Pi fraternity and lives at the fraternity house. They both like their courses of study, Kee in journalism and Edgar in the pre-medic.

are now in great favor. We have them in flannel, serge, jersey and tricotine, \$7.75 up.

Golden OPPORTUNITY Coming Soon WATCH THIS PAGE

You'll Have to Stock Up Before You Can Stoke Up

The chilly, blustering weather is as certain as night follows day. Putting off fuel preparedness doesn't remove the necessity; it but breeds discomfort—dissatisfaction.

And SUPERIOR coal (not just coal) is the answer to all your hopes for better heating. It's the coal you can ask for by name and be assured of proper fuel for furnace, range, fireplace and heater.

It's the clinkerless kind, leaving little soot; burns with a long flame and little ash; fires easily and has extreme heat value.

Carson-Fowler Lumber Co.

Superior Domestic Lump is the economical range of size for all purposes.

Henry Bldg., Portland, Or.

Excessive Oil Evaporation Reduces Mileage and Power

Cycol reduces evaporation loss. It has the stability to withstand terrific engine heat owing to its peculiar chemical characteristics.

Excessive loss of oil through evaporation means that the oil is not suitable to withstand engine heat. Poor oils contain a large percentage of volatile and non-lubricating constituents which are liberated when subjected to operating temperatures and pass out through the breather pipes as vapor.

Power and mileage are reduced. Some oils lose as much as 50% in evaporation during a 10 hour run.

Scientific tests in our special motor laboratory show that evaporation loss is greatly diminished with Cycol in the motor. That means better lubrication and more mileage.

Cycol is the new and different motor oil. It is free from destructive "sulpho" compounds. These are removed by the new Hexeon Process, used only by us. Oils containing "sulpho" compounds break down rapidly under engine heat.

Cycol-ize your motor. Clean the crank case—not with kerosene—and refill with the correct grade of Cycol as shown by the Cycol Recommendation Chart
