Buy Land on Easy Payments and Provide for the Future

Mr. L. Jacobs is placing his large tract of the very richest of Klamath County tule reclaimed land on the market and guarantees a square deal with buyers.

The Land is Unsurpassed in its Productiveness

Here are some facts: One tract produced this year 66 bushels of hard wheat; another 51 bushels; and one tract of 300 acres produced 6000 sacks of rye; and you can figure for yourself as to the value of such land. THE CROPS WILL PAY FOR THE LAND IN A FEW YEARS.

MINT IS THE BIG MONEY MAKER

Willamette Valley Beaver Dam land has been growing mint and producing peppermint oil for several years at good profit and the experienced growers are changing locations from the Willamette Valley to the reclaimed lands near Klamath Falls Climate and soil conditions in Klamath County are decidedly excellent for unusually profitable production of mint, as well as celery, onions, and in fact anything that grows.

One of the Todd Brothers, pioneer mint growers, who have made millions on tule reclaimed lands in Michigan, examined into conditions in the Willamette Valley and Klamath County last summer, and pronounced these tule reclaimed lands of Klamath County the richest and most adaptable in the world for mint production, and predicts that KLAMATH TULE LANDS WILL CONTROL THE WORLD MARKET OF MINT OILS IN A FEW YEARS.

Wheat and rye, onions, etc., must be planted each year, but A FIELD OF PEPPERMINT IS GOOD FOR SEVEN YEARS with no more cultivating than alfalfa.

Sixty pounds of mint per acre at \$3 per pound is an ordinary record. And the crop is easily harvested and marketed.

17,500 acres in mint in the U.S., and the chewing gum factories use the production from 12,000 acres. The demand for mint oils is increasing.

The Door of Opportunity is Open

Now is the time to get this land at a price that will surely double in a short time. Mint crops will yield as high as \$200 per acre.

We are Prepared to Show You Facts

The tract of land that Mr. Jacobs is putting on the market will bear inspection, and we are prepared to show you a real bargain, and will be glad to go into details with you if you are inclined to make some money easily and legitimately.

You get Real Thing for Your Money, Mother Earth

There will be several hundred acres sold to the first applicants on the following terms:

One-third cash and balance on long time at 5 per cent interest AND IT IS QUITE PROBABLE THAT CROPS FROM THE

LAND WILL TAKE CARE ALL DEFERRED PAYMENTS. WE WILL ENTER INTO CONTRACT TO CARE FOR YOUR ACREAGE and pay you a cash rental for five year, and turn the land over to you in full bearing mint.

We are certain that we have the best investment ever offered and would like to have you investigate.
