Hallowe'en Social— The Junior society of the Baptist church enjoyed a Hallowe'en social in the church Friday evening. There were many spooks and ghosts present, as all came masked. One of the principal entertainments of the evening was the initiation into the Wizard and Witch order. Some of those present were fortunate enough to reach the third degree. There was also a "real" gypsy present who propounded fortunes to the delight of all. Last, but not least, were the Hallowe'en "eats." About fifty Juniors and their friends were present to enjoy the fun.

ened its position in the last year, Emery said.

"In the face of adverse industrial conditions, which have hit the service men harder than any other class, the Legion has gained in strength," declared Emery. "Its financial situation has steadily improved.

Heartfelt praise for Major Gal-

braith marked Commander Emery's address.

"The honor of having led the Legion to these achievements is not mine," he said. "They were conceived and accomplished by that great leader and patriot who has done more to advance the destinies of the Legion than any other man—our late and beloved commander, Frederic W. Galbraith, Jr. God rest his soul. Let us stand for one moment in the hope that silence may convey what words cannot.

"It has been Galbraith's year," added Emery, after the great assemblage had paid its tribute of silent prayer to the dead commander. "A year which will always shine in the history of the Legion."

very small in size. London and other export markets will absorb apples down to the 250 size, but Mr. Conner states that the sizes which sell best in this country are 112, 125 and 138. Mr. Conner is also of the

opinion that the home market is the best.

No price on Newtowns has yet been established, although offers of \$1.65 and \$1.75 have been made for large sizes of extra fancy stock. Seven cars of Rogue River Spitz recently sold in London for a price which will net growers here \$2, but a California buyer picked up a car for \$1.65.

Pickers are getting forty cents per hour, and where the gathering is good they fill 80 to 100 boxes per day. Box makers are paid a penny a box, at which price Contractor Greaser's six-year-old son has earned as much at fifty-four cents per day. The Golden Delicious is a new variety which is grown to perfection by Albert Johnson. The color is a remarkably rich yellow and the flavor similar to the red Delicious. Mr. Johnson also grows the King David, another new variety in this region.

GOVERNMENT CONFIDENCE Congress has realized the importance to the country of the agricultural and livestock industries, and appropriated a large sum for furthering them. The banks and bankers constituted the medium through which this assistance will be given, because the war finance corporation will have the benefit of their experience and knowledge of local conditions. Zip, Bang!, We're Started! A plan for pooling small ownerships has been made and a tract of 320 acres of our best mint land set aside for this initial pool. THREE BUYERS in one day totaling 100 ACRES The balance of 220 acres will be sold to first applicants in lots from 10 acres up, and an Ashland man of high standing and ability who will take 40 acres will take charge of the planting and caring for the crops for a term of years. WE WILL HAVE ALL IN PEPPERMINT IN 2 YEARS and in all probability have land paid for out of crops in 3 to 5 years. The terms of purchase are extremely easy, ONE-THIRD down; one sixth in two years; balance in third, fourth and fifth years at 5 per cent interest making a splendid chance to get in on the ground floor of big paying LAND INVESTMENT. For the reason that we will have to buy mint roots to plant the first tract and will be able to supply our own roots thereafter we will plant only 20 acres to mint the first year and 300 acres to rye, then in fall of 1922, after harvest, begin planting of all to mint. Production of these crops in the past, excluding the war period, justify the following estimate of gross returns: 1922 harvest 20 acres mint, baby crop, 400 lbs. peppermint oil \$1200 300 acres rye, 12,000 bushels, a low estimate 7200 Mint hay (after oil is extracted) equal to alfalfa 600 Total for 1922 \$9000 In 1923 we will harvest 320 acres of peppermint: 20 acres full crop, 800 lbs. of oil at \$3, average price. \$ 2400 300 acres baby crop, 6000 lbs. at \$3 18000 Hay at lowest estimate 960 Total for 1923 \$21,360 Now for 1924—Our First Full Crop of Peppermint The production in Oregon has been from 40 to 80 pounds of peppermint oil per acre. We compute at 40 pounds. 320 acres at 40 lbs., at \$3, brings gross returns of \$38,400 Hay at a very low estimate 960 Total for 1924 \$39,360 And repeat this for five to seven years on the one planting, with no more expense of cultivating and harvesting than alfalfa There is No Safer Crop Than Mint If you are interested we will be glad to give you complete details as to costs and general plans, contracts and guarantees. Cut the above figures in two if you like and we can still show you the best investment there is going. You will own your land and get your share of the profits. E. T.
