The U. S. ROYAL CORD TIRE

Unquestionably the outstanding merchandising success of the year—both in the eyes of the trade and of the car-owner. When the U. S. books close for 1921, they will show U. S. Royal Cord sales nearly doubled over 1920. What U. S. Tires say and do commands a greater audience than any other line of tires in the world.

Where is the tire dealer headed for in 1922

ALONG about this time of the year the tire-dealer is a much called upon man. Probably a dozen different "Agencies" for a dozen different tires are hopefully spread before him.

But when he gets off by himself and starts to think he finds out that most so-called Agency Franchises are hardly more than permission to invest his money in this brand or that brand at his own risk.

Consider now—not what is said in behalf of the U. S. Tire Sales and Service Agreement—but what it does.

Consider general conditions for the past year. And note everywhere that U. S. Tire dealers have been the least affected of all.

Observe how generally the U. S. Tire dealer is respected. Not alone by

the public but by his local competitors.

The U. S. Tire dealer always knows where he is at. Right now—or in making his plans for 1922.

He can always put his hands on the U. S. consistent merchandising policy.

Where the U. S. Sales Franchise separates from the rest and asserts its prerogatives are in these things—

It brings to the dealer's store the greatest and most loyal tire-audience anywhere.

It supports the dealer with the most constructive and courageous publicly expressed policies today.

It carries the prestige of the U. S. Royal Cord Tire and the "USCO" Tread.

It is the most sought after Franchise in the whole tire trade.

U. S. dealers will be the ranking tire-merchants of 1922. Not only in profits returned, but in local reputation as business citizens.
