Oregon Apple Prices

At a recent New York auction sale of 2350 boxes of Oregon Newtowns the following prices were realized: extra fancy, \$1.90 to \$2.50, according to size. A car of Spitzenburgs brought \$1.80 to \$2.85. The way small apples are selling is shown by the fact that small medium grades brought only \$1.80, while good-sized third grades sold for \$2.15 to \$2.40.

Kills Big Bear

R. C. Gearing writes C. D. Wood, of the Eastern Supply company, of killing, near Buckhorn Lodge, the largest cinnamon bear in this part of the country since old Club Foot was dispatched years ago. The animal last named was for years the coveted prize of local nimrods. "Wish you might have been with us today," writes Mr. Gearing, "for we had a 'bear of a time' and didn't have to go out of our way to find it. A short distance from here I discovered a monster cinnamon bear and at once opened fire with my trusty 30-30 Winchester. My Air-dale dog rendered valuable assistance, but was soon put out of commission by the savage brute. The latter was too fat and full of fight to climb a tree, but Sam Kennedy and his two dogs appeared upon the scene and turned the battle in our favor. Old Bruin kept up a running fight until we stopped him with three shots a-piece. Am sending you a chunk of bear meat and hope you will enjoy eating it as much as we did killing the bear."

Taylor Players Disband

The Taylor Players, which have delighted Ashland theater-goers at the Armory the past ten days, disbanded yesterday, part of the troupe accompanying R. F. Taylor, the manager, to Phoenix, Ariz., where Mr. Taylor's wife had previously gone for her health. Miss Scott, the leading lady, returned to her home in Bellingham, Wash., accompanied by her tiny Mexican dog and two big braids of golden hair. R. D. Pell, Zoe Bates, Lee Terrell and Owen have been engaged by Mr. Memmin, of Gold Hill, who is forming a new company, which will play an engagement here next week.

THE POPULAR PLAYERS

The Popular Players is the name of the new stock company that will open an indefinite engagement at the Armory, starting Sunday night, December 4, in that wonderful human drama in four acts, The Country Girl.

This is a comedy drama of the first water, just loaded down with good, clean comedy of the best sort. The Popular Players is a reorganization of the Taylor Players, Mr. Taylor being forced to sell out on account of his wife's health, the company being taken over by Mr. Billy Memmen. A few changes have been made in the personnel of the company, a new leading lady and man having been added. The policy of the company will be to put on three new plays each week, with refined vaudeville between each act of the plays.

The prices of admission will remain the same, 15 and 50 cents, tax included. The doors will open at 7:30, overture 7:45, curtain at 8:15 o'clock sharp. Our policy will be good, clean plays, refined vaudeville and good music. 1t

2ND JURY HUNG EDWARDS CASE, 6 TO 6 RESULT

JACKSONVILLE, Or., Dec. 2.—For the second time within a month, a jury in the circuit court disagreed in the trial of James (Shine) Edwards, charged with violation of the prohibition law. The count was six for conviction and six for acquittal. The deadlock lasted for thirteen hours, and when it became apparent that no verdict could be reached, they were discharged by the court. The result occasioned no surprise, and was freely predicted.

As in the first trial, when the balloting stood eight for acquittal and four for conviction, unwillingness of the jurors to accept the testimony of A. B. Gates, a special agent, was given as one of the reasons for the long deadlock. Gates' testimony was riddled by the defense in both trials. Edwards was charged with selling Gates a bottle of liquor in Medford. An analysis showed it to be 39 per cent alcohol. Considerable interest was manifested in the case. The two disagreements cost Jacksonville over \$5000, beside the original cost of conducting the raids.

The trial of John Goodwin, taxi driver, charged with violation of the liquor laws, in which Gates is the principal witness, is scheduled to come up next week.

PARKS DIRECTOR PRAISES SERVICE AT CRATER LAKE

Praise for this year's hotel and concessions management of Crater national park, and the great increase in attendance was uttered by A. B. Cemermer, of Washington, D. C., assistant director of national parks, and Horace M. Albright, field director of the national park service and also superintendent of Yellowstone national park, who, on a swing around the national park system, arrived here from Portland Wednesday morning with Alex Sparrow. They left in the afternoon to visit the California national parks.

"It certainly was a great pleasure and very odd during the past season not to hear any kicks about Crater national park where in past years the bulk of the complaints received at headquarters were about that park," said Mr. Albright.

"Crater Lake national park recorded a great gain of visitors during the past season than any other national park. While the other national parks showed a gain of 11 per cent in number of visitors, Crater Lake showed an increase of 43 per cent. The auto tourist is just beginning to come west and the next few years will see this kind of travel increase by leaps and bounds."

Ashland Iron Works To Be Taken Over By Mora Pump Co.

At a meeting of the directors of the Ashland Iron works, which took the form of a luncheon at Hotel Ashland Tuesday noon, it was decided to lend every assistance to T. R. Kelly in promoting the sale of \$25,000 worth of stock in the Mora Pump company. Of this amount \$16,000 is to be used to buy the Ashland Iron works, and the balance utilized for working capital. There are several pumps finished, or in the course of construction at the foundry, the total value of which, together with patterns, etc., amounts to approximately \$6000.

The directors of the iron works are very anxious to prevent the dismantling of the factory, but none of them care to assume its management, operations having ceased on account of the death of the former manager, George W. Dodson, who was also president of the company. The stockholders of this organiza-

tion believe that the Mora Pump company has a very bright future, because of the superior construction of their pump, which is said to operate with much less power than other types of irrigation and drainage pumps, and also because the Ford people are extensively advertising the Mora pump, showing how the latter may easily be operated with a Fordson tractor.

"The pay roll of the Ashland Iron works amounted to \$36,000 a year for twenty-four years, amounting to \$864,000, nearly all of which was spent right here in Ashland. This shows the value and importance of such industries to our city. If our citizens would wake up to the importance of manufacturing enterprises of this kind, and lend to them whatever financial assistance was needed, the pay roll of Ashland workmen might be doubled, with a corresponding increase in the population and wealth of our city."

HAVRE, France, Dec. 2.—Charles W. Morse, of New York, financier and shipbuilder, was arrested upon his arrival here today aboard the liner Paris.

It is understood that he is wanted to testify before an American grand jury relative to the financial relations he had with the United States shipping board during the war.

ARBUCLE DEFENSE BERATES BRADY'S METHODS IN TRIAL

SAN FRANCISCO, Dec. 2.—A scathing denunciation of District Attorney Brady's method of handling the witnesses in the Arbuckle case featured the plea of Gavin McNab, chief counsel for the screen comedian, to his jury today to acquit his client of the charge of manslaughter.

The case of Arbuckle, facing a manslaughter charge as the result of the death of Miss Virginia Rappe, following a party at the St. Francis hotel, is expected to go to the jury late today.
