Don't try to save money buying cheap or big-can Baking Powders. You can't do it. You'll throw out more in spoiled bakings than you save on price of the powder. And don't think that old style high priced powders are best because they cost most. They are not.

CALUMET BAKING POWDER

has proved in millions of bake-day tests that it is the best baking powder ever made—that's why it is the biggest selling baking powder in the world today. No other baking powder makes such temptingly good—tender, wholesome bakings. No baking powder of anywhere near the same quality is sold at such a low price.

You use less of Calumet—because it is the highest grade baking powder. One teaspoonful is equal to two teaspoonfuls of many other brands.

And there is no "luck" about it when you use Calumet. No loss. It is absolutely sure. It is the most economical of all. Millions of housewives use it—and so do leading domestic science teachers and cooking experts.

You save when you buy it. You save when you use it.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

NOTE THIS

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.
