To Add Six Miles to Manhattan Island

R TEW YORK .- New Yorkers who often pretend to be indifferent to the city's wonders have had their imagination stirred by the daring plan, just announced, to extend Manhattan island six miles down the bay by building mammoth sea walls from both sides of the Battery and filling in the intervening space with earth.

A company has been incorporated to carry out the project, and T. Kennard Thompson, a prominent engineer of the city, has prepared the detailed plans. The Broadway association, composed of merchants along the fa- in Mr. Thompson's belief. mous thoroughfare, has indorsed the

Aunty Claus writes:

Santa has always talked a lot about Ashland every time he comes home from there. He says it's about the prettiest place he has found on his rounds, and that the stores there are good enough for anybody. He can't see why people should not be able to satisfy their wants at the home stores-especially the womenfolks if they go to McGee's.

Some time I want to go around with Santa, and then I'll get to see Ashland, too. Yours truly.
