Local and Personal

**Side Lights**

Have your clothes cleaned this week and avoid the Christmas rush. Paulsen's.

**Colonizing Discouraged.**  
Discouragement of proposed efforts to colonize Oregon ex-service men on tracts of farm land featured a speech by Colonel George L. White, adjutant general of Oregon, before the Portland Realty board Friday. The majority of the applicants for loans under the Oregon soldiers' loan law are men with trades or professions, White stated, and desire to use their money to purchase homes. While more than \$1,300,000 in loans had been applied for, only about \$400,000 in cash bonuses had been asked.

We will deliver sixteen inch oak for \$4.50 per tier in two-tier lots.—Carson-Fowler Lumber Co. 22-6

**Value Apples by Corn.**  
A value telegram from La Grande Ore., says: "Oregon apples are worth eight bushels of corn per box in the corn belt, according to George Marshall of Imber, who has just returned from the middle west, where he attempted to market a large crop of apples. In parts of the middle west the apples found no market because of bad business conditions, and a portion of the shipment has been placed in storage in Oklahoma until market conditions are better."

**NOTICE**

Card party, Masonic hall, Friday evening, Dec. 16. Public invited, refreshments. 25-9

**Corvallis Tidings Readers.**

During his recent trip to Corvallis, O. H. Barnhill—who returned to Ashland this morning—found that the copies of the Tidings which he sends to Corvallis to Mrs. Barnhill are given by the latter to Miss Violet Herbert, who passes them on to Miss Myra Gunter, the last named lady giving them to Mrs. Mason, a sister of Mrs. VanFossen. Just how many other members of the Ashland colony in Corvallis read this Tidings before it is worn out was not ascertained.

Orres, Tailors for men and women. Cleaning, pressing and remodeling. 25-1

**Macabee Ladies Elect Officers.**

Margaret Review No. 22, Ladies of Macabees, lected the following officers Wednesday night for the ensuing year: Past commander, Mable Ross Moor; commander, Ruth Gustinger; lieutenant commander, Georgia Stewart; collector, Josephine Wallace; record keeper, Annie Honesty, lady-at-arms, Florence Brookmiller, sergeant, Ida Jennings, chaplain, Dora Payne; picket, Goldie Jordan, sentinel, Beale Smith, captain, Izora Oscar; musician, Mabel Jacobs.

**SHOUT FOR ASHLAND!**

The first place in the state to return to pre-war prices of bread. A drop of 3 to 5 cents per loaf to take effect Monday, December 12, 1921.

Having contracted for a large amount of flour at the lowest mill prices of the season, and the cost of operating our plant at half capacity is nearly as much as full capacity, and in order to induce every family in Ashland and surrounding country to try and be convinced that Malted Milk Bread is the most wholesome, healthful and superior in the class of food, we have decided to demonstrate and prove the above statements to your satisfaction by reducing the price for an unlimited time as an inducement for a universal test.

We make only pure Malted Milk Bread, derived from 35 years of experience—most pure and wholesome. Beginning Monday, December 12, the Malted Milk Twin Bread, weight 1 1/2 pounds, can be had for 10 cents. Two full pound Twins for 14 cents. Don't be disappointed. Call for and demand Malted Milk Twin Bread. After trial, if approved by you, we thank you; if condemned by you, we will submit.

BON TON BAKERY & CAFE—J. W. Kistler. 25-2

**CHERRO CHIMES**

**Murphy's Hot Potatoes.**  
The splendid Hot Point electric range which was viewed with admiration by many Winter Fair visitors, was exhibited by the Murphy Electric company, together with many other useful and beautiful electric appliances.

As long as this ad remains in this paper it is not too late for us to finish your portrait for Christmas. Darling Studio — Portraits that Please. 26-1

**Celebrates 90th Birthday.**

L. L. Angle, well-known Ashland pioneer since 1895, is hale and hearty today while observing the passing of his ninetieth birthday anniversary at his home, 116 South Pioneer avenue. Mr. Angle is rapidly improving in health after an illness of the past few days. He is the father of Orra Angle, employe of Irwin's cigar store. Mr. Angle first came to Oregon in 1885, moving to Ashland ten years later.

**Ladies Art Club.**  
Regular meeting this evening of the Ladies' Art club. Hostesses—Mrs. Fred Wilson, Mrs. George Stevens.

Cliff Payne makes book stands.

**Announcement.**  
Roller skating rink at Nat opens Tuesday evening, 7 o'clock. Open every afternoon and evening from 2 to 5, and 7 to 10 p. m. 26-1

**Miss Evelyn Paddock Ill.**  
Miss Evelyn Paddock is reported to be seriously ill at the home of her mother, Mrs. May Paddock, on Coleridge street.

Watch for S. & W. demonstration. Holmes' Grocery, 26-1

**Country Visitors.**

Mrs. Vernon Chapman and Mrs. Fred Holmes, who live east of town, were visiting and trading in Ashland the latter part of last week.

**Wednesday Afternoon Club.**

The Wednesday Afternoon club of the Presbyterian church will meet this coming Wednesday at the home of Mrs. Fred Wilson, who will be assisted by Mrs. Curry and Mrs. Whittle. All members and women of the congregation are invited to attend. Everyone is asked to bring their shears, as the club is to make the Christmas decorations for the church.

**Art Club Ladies.**

The very artistic display of the Ashland Art club made at the Winter Fair was the work of several other members whose names were not included in the paragraph in Saturday's Tidings. The two large rocking chairs were made of native manzanita by J. M. Kirkpatrick, 99 Leonard street.

**A Christmas Present.**

Where could you find a better or more valuable Christmas present for your wife and children than a forty-acre tract of the Jacobs reclaimed and irrigated land, at present prices and terms? This is an even better investment than a life insurance policy, because it will increase in value faster and you can help your loved ones share the proceeds of your payments. That the land will increase in value \$200 per acre over and above the present cost price is the belief of the best farmers and business men who have examined it and purchased tracts.

One of the nicest features of this investment is that it can be made to pay for itself both by rental income and increase in price. For those who do not wish to go on their land and cultivate it, Mr. Jacobs will accept a first payment of only \$40 per acre and give five years' time at 5 per cent on the balance due. He will also have the ground planted to the most valuable crops for which it is suited and allow the owner one-third of the crops, which can be applied on the deferred payments. Land which cost the owner only \$40 per acre in the first place will likely be worth at least \$300 per acre at the end of the five years, during which time it will have been paying for itself. Those who are familiar with the history of similar lands elsewhere, know there is a solid substantial basis for the above prediction in regard to increase in land values.

Call on us for full information in regard to this ideal Christmas present. Staples Realty Agency, Hotel Ashland Building, Ashland, Or. 26-1

**Annual Report Of County Nurse For Year's Work**

The regular meeting of the Medford center of the public health association was held December 1, when detailed reports of the work of the county nurse, Miss Fallidine, were heard.

There has been a general demand of a follow-up meeting of the recently held baby clinic. It was decided to hold a weighing and measuring meeting on Thursday afternoon at the Red Cross rooms, December 15. All infants and children examined at the clinic should be brought in at that time and place that a record of progress may be kept.

Scales for this work were reported as purchased for the use of the county nurse. A long-felt necessity is thus filled and hereafter the same scales will be used for each weighing and measuring meeting.

Miss Fallidine's report in detail brought out many interesting and pitiable cases that are now receiving the needed personal attention. The report in general was as follows:

Total number of visits, 147; nursing visits, 6; instructive visits, 7; visits to tubercular patients, 11; visits to general cases, 10; infant welfare visits, 15; prenatal visits, 2; visits to schools, 16; home visits to school children, 18; visits to doctors, business calls, etc., 68; routine inspection of school children, 216; Three children taken to home for feeble minded. One patient taken to tubercular hospital at Salem, one patient to hospital at Ashland, one to Sacred Heart hospital.

Clinics held at Medford, Talent, and Phoenix. Group meetings at Ashland, Gold Hill and Central Point. One tuberculosis clinic held. Monthly weighing and measuring meetings held at Ashland. Supplies of various kinds distributed to five patients.

**MARKED SALMON LIBERATED BY FISH COMMISSION CAUGHT**

H. G. Lambson, superintendent of the Mount Shasta fish hatchery and the Klamath River hatcheries, states this week that they have just completed taking 19,178,000 quinnat salmon eggs at the Klamathon hatchery on the Klamath river. This is the largest take in the history of the hatchery. The eggs were shipped to the Sisson hatchery and the Fall Creek hatchery.

In the fall of 1919, 25,000 small salmon were liberated in the Klamath river. All were marked by having the right ventral fin and the little adipose fin cut off.

This fall twenty-four of these marked grise were caught in the Klamath river.

Officials of the fish and game commission had not hoped for this return this year. This is very encouraging to the officials.

At the present time they are taking trout eggs at the Mt. Shasta fish hatchery, and this year's take promises to be as great as that of last year. It will be remembered that the 1920 take was the largest in the history of the local hatchery.—Dunsmuir (Calif.) News.

With drive wheels which are large, hollow, airtight drums, a rice harvesting machine has been invented which works well in the wettest of fields.

To prevent overloading of motor trucks there has been invented an oil-filled hydraulic jack with a dial on one side to show the weight of their cargoes.

Production of syrup from sweet potatoes having reached the practical stage, a plant will be established in Georgia for its manufacture to test its commercial value.

Yes, the world still wags, even if the U. S. no longer "jags."

**\$2500 ALLOWED COUNTY AGENT; BUDGET MEETING**

(Continued from Page 1)

Guy Conner, to urge the appropriation to provide for an assistant county agent, and another delegation of American Legion and National Guard men were present in the interests of the proposed new armory.

It was announced at the meeting that the payment of the state tax out of the county general fund which had been estimated at \$303,600, would be only \$250,000, according to authentic information received, and this big cut in the state tax put the county court in such shape that that body gave assurance that as soon as a complete tabulation can be made so as to make certain the county is within the six per cent

limitation, they will pay over the entire sum asked for as the county's share in building the armory.

This armory will be built with about \$40,000 from the state, about \$20,000 from Medford and about \$20,000 from the county. This assurance of today by the county court insures the building of the armory and the start of construction work about January 1.

The levy for the budget outside of high school districts is 27.4 mills, and inside high school districts 28.8 mills.

**Junior High Notes**

By FLORENCE WILSON

The members of the Junior High glee club are: Sopranos—Helen Tinker, Alice Reider, Katherine Phipps, Rosalind Wise, Alta Pickett, Doris Montgomery, Madge Mitchell, and Marie Mitchell. Altos—Rosetta McGee, Letha Dodge, Sylvora Hatch, Arlene Johnson, Alma Hayes, Lizzie Owen, Edith Henry, and Effie Hazen. Tenors—Wayne Bloomfield, Hugh Gillmore, Stanley Waite, Vernon Decker, Lester Beck, Frank Bloomfield, Kay Neil, and Harold Kitto. Bass—Ward Jennings, Aldo Parr, Loren Culbertson, Sam Prescott, Fred Marrett, Robert Foltz, Norman Wells, Kendrick Watson, Frank Bentley, Obie Bristow, and Henry Homes.

Notice the bungalow aprons at the Winter Fair, made by the seventh A girls, and the towels made by the seventh B girls.

Thursday morning, Professor Stetson from the University of Oregon visited the classes of the Junior high school.

Red Cross seals are being sold by the pupils of the Junior high and the fourth, fifth and sixth grades. The grade that sells the most seals will receive a silver trophy cup.

**SEATTLE STREET CREW INJURED BY SLIDING EARTH**

(Continued from Page 1)

which is undated in many places, and made the use of boats necessary to rescue some of them from the flood.

A report received here today stated that George Irvin, fireman, who was believed to have perished in a train wreck, is safe. Irvin was believed to have perished when a Great Northern mail train plunged into the Miller river near Kkykomish, due to a washed out bridge Sunday. Samuel Hileman, mail clerk, was drowned at the time of the wreck.

ABERDEEN, Wash., Dec. 12.—Engineer Willis, wife and baby, were killed fifteen miles southeast of Aberdeen last night, when a land company train down a steep embankment hurled a Clemons Logging bankment.

E. Olson, laborer, member of the rescue crew that was hurried to the scene of the tragedy, was killed when the second slide occurred. L. Linn, laborer, crushed by the earth and rock, may not live.

VICTORIA, B. C., Dec. 12.—Many sections of the city are flooded today as the result of the heaviest rainfall here since 1872.

**SECRETARY OF LABOR DAVIS HAS PLAN STRIKE PREVENTION**

(Continued from Page 1)

the employees. But, above all, he must be a man to command the re-

spect and trust of both management and employees."

Secretary Davis said that he believed that down deep in his heart every American employer and every American workman wanted to get on in peace. "When we have industrial warfare," he said, "it is not from willful 'cussedness,' it is on account of some deep-seated misunderstanding. In nearly every case the warring parties are only too glad to make and keep peace. The difficulty is only in arriving at the necessary mutual understanding. Our special men will be able to supply that needed comprehension to the fullest measure, and I cannot help thinking that they will soon come to be welcome fixtures in our industrial system."

The labor secretary pointed out that the men he had in mind would also be able to keep the managers of great manufacturing enterprises reminded of the trials, the weaknesses, the struggles and ambition of the man who toils at the loom or the rolls or in the mines or in any capacity in the country's great industries.

"It is one of the calamities of the modern industrial problem that the old intimate, personal contact be-

tween manager and men has been lost," said Secretary Davis. "In these special conciliators I see a way to re-establish at least something of that lost and valuable association. In fact, I can see no bounds to the comprehensive usefulness of these conciliators we plan to have. I am confident that with their aid we shall be removing a vast deal of friction from industry and lifting a heavy burden of waste from the back of the public—which always in the long run pays the cost of every strike in the form of higher prices. "When we have established this system of special service I am convinced that we shall have found a thing long lacking and long wanted—oil at points of friction in the mechanism of American industry that have never been properly lubricated before."
