Movie Rider on Grizzly— Charles Quinn is taking P. J. Amer's place in the Grizzly Mountain wood-cutting camp. Hans Oleson, his partner, spent last summer at Harry Carey's ranch near Universal City, near Los Angeles—helping make wild west moving pictures. Oleson says that riding a crosscut saw is harder work than bronco busting and not nearly so exciting. He worked with Douglas Fairbanks and many other screen stars and talks entertainingly of his experiences in the sunny southland.

Held for Larceny— Ernest Hill, of Weed, Calif., was arrested this morning at 9:45 o'clock by Chief of Police Hatcher on Southern Pacific train number thirteen, and is being held on a charge of grand larceny. The arrest was made in response to a telegram received yesterday from W. D. De-Long, Salem constable, who wired that Hill left there on the morning train and was wanted on the charge mentioned. The accused got off the train at Gold Hill, proceeding southward the next morning on train thirteen.

LENGTHENING THE LIFELINE

FOLKS like to talk about the good old days when grandfather was a boy. They try to make out that people lived so much longer then than now. But they didn't. The fact is six years have been added to human life since grandfather came into the world. In other words, a child born today has an average chance of living six years longer than if it had been born a century ago.

A great deal of this lengthening of the span of life is due to modern plumbing. The plumber has cleaned up the plague spots of America. He has made the home sanitary, which means safe. When every home in this country is thoroughly sanitary, six or even sixteen more years may be added to life.

In thinking of plumbing think of it as increased days upon this good old earth.

Who Carries Your Insurance?

What do you know about the company you are insured in? An association of credit men said, "Our committee will bear strongly on the necessity of dealing only with strictly responsible insurance companies."

Fair weather insurance may pass muster in times of prosperity when the markets are booming.

The testing time comes when the markets are declining and there is stress and storm. Property owners should apply the acid test to the indemnity they buy. Insurance that insures at all times is the only safe indemnity. That's the only kind that we can't afford to lose even once in the matter of insuring your property and yourself.

When a Federal Bureau reminds you that children should not drink coffee or tea— Why not think of your own health?

The Federal Bureau of Education includes in its rules to promote health among the Nation's school children, the warning that children should not drink coffee or tea.

The reason is well known. Coffee and tea contain drugs which stimulate and often over-excite the nerves, and so upset health.

The harm is by no means confined to children, as any doctor can tell you.

If health is valuable to childhood, it is valuable always. If harm to health should be avoided until bodies

grow up, is it worth taking a chance with health when bodies have grown up?

You can have that delicious and satisfying cereal beverage, Postum, with any meal, and be safe—you, and the children, too. There's charm without harm in Postum.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Sold by all grocers.

The road to health is a good road for anybody to follow.
