One Day More

Just one day more, and 1922 will be occupying the center of the stage. It's a fine time to look back over 1921, particularly in the direction of finances.

Perhaps it was hard to save this But the purchasing power of money is gradually increasing, and every drop in living expenses means that much more for savings.

We hope 1922 will see a big growth in many First National bank balances, and many new accounts opened.
