No. 108

FATTY ARBUCKLE TO STAND TRIAL AGAIN

ASHLAND FRUIT-PRODUCE HOLDS ANNUAL MEET

PRESIDENT WAGNER AND SECRETARY PETERS MAKES A VERY INTERESTING REPORT.

Market Shows Bad This Year Both for Apples and Eggs—Three New Directors Elected—Many Small Apples Still on Warehouse Floor.

The Ashland Fruit and Produce association was incorporated in 1902 with a capital stock of \$2000, divided into 2000 shares of \$1 each. In the past twenty years it has grown both in usefulness and financial strength. Today it has a well-equipped plant which would be a credit to any town twice the size of Ashland, a financial report showing a net worth of \$25,075.78 and a net gain for the stockholders of \$3722 for the year ending January 1, 1922. Of the original 2000 shares about 1991 shares have been issued, of this number only 1609 shares have called for dividends leaving the remainder of the stock as dead stock. All efforts to locate the holders of this stock have been unavailing. The association has, for the past twenty years, been the chief agent for the stockholders and growers in handling their fruit and vegetables, and during the past three years it has handled a large quantity of eggs.

The annual meeting of the stockholders was held in the city hall at Ashland, Saturday afternoon. The object of the meeting was the election of three directors, report of the auditing committee and report of the manager. Pres. J. M. Wagner presided, Secretary S. A. Peters read the minutes of the preceding meeting which were approved. The report of the auditing committee, consisting of Sam A. Evans, J. M. Wagner and S. A. Peters, was read and approved. The report of the manager was in order. Mr. Briggs prefaced his report for the year ending Jan. 1, 1922, with a request that the question of reducing the commission from 8 1/3 to 7 per cent be taken up by the stockholders during the meeting. He also asked the stockholders to take some steps which would enable the putting on the market of some 360 shares of dead stock, the owners of which could not be located. He reported that during the berry season, the association had handled 4138 boxes and crates of berries. Cherries, to the extent of 2081 boxes and 165 crates were handled, while peaches, all varieties, was 12,299 boxes, against about 18,000 in 1920. Of the assorted fruits such as plums, apricots and grapes, 2033 boxes and crates had passed through the association's hands, the number of crates of Tokay grapes was far greater than any year in the history of the association. Pears, all varieties, was the largest tonnage the association had ever handled, reaching a total of 314,657 pounds. Mr. Briggs said "the apple conditions of the east are very deplorable, of the 40,256 boxes of loose apples which we received, there are 2170 boxes still on the floor of the packing house, these are principally culls and of very little value. "The apple growers have received around \$1 per box for their packed apples. Mr. Briggs further said, "up to the present time, there are about 35 cars of apples on consignment, from which we have not heard but on which the growers were advanced \$1 per box." The total number of boxes packed will figure out about three packed boxes to each four boxes of loose apples delivered to the association. Vegetables and eggs, the sale of which is governed principally by the lumber camp conditions of northern California and Klamath Falls, shows a great decrease, both in quantity and price, as compared with the figures for 1920; the price of eggs averaged 46c in 1920, in 1921 31 1/2c. The motion by John Hill, to reorganize under the new law, was debated, after a brief de-

(Continued on Page Four)

MUST HAVE YOUR 1922 LICENSE

Portland officers have set January thirteenth as the limit 1921 licenses will be recognized. Applications have piled up on the Secretary of State at Salem and it will take several days to catch up with the demand. While Jan. 13 has not been set as the official date, it will likely be the last date upon which officers of the several counties will recognize your 1921 license. See that your 1922 license is on your car by next Friday, or you may get caught if you don't look out.

SUGGEST NEW PLAN FOR FINANCING FAIR

PORTLAND, Jan. 9.—Two or more plans for financing the 1925 exposition are now being worked out and these will be submitted to the state-wide committee within a few weeks. The executive committee was convinced that there is a genuine demand for the fair in 1925 throughout the length and breadth of Oregon.

From counties whose state senators interposed an obstruction to the passage of the exposition legislation at the special session came the assurance that public sentiment is not antagonistic to the fair, but is, on the contrary, keenly eager for the undertaking.

The main problem now confronting the state-wide committee is the best and most logical method of defraying the cost of the exposition. A number of plans were proposed and abandoned at Salem during the session of the legislature. A sub-committee is to be appointed by Julius L. Meier, chairman, to devise a plan or two and submit these programs to the state-wide committee for approval or rejection. Whatever plan the state-wide committee considers best will then be laid before representative bodies in every section of the state. By this policy it is believed that co-operation can be brought about and every community will then get behind the fair, united to make it a success.

If an initiative measure is required as part of the program of finance, the petitions can be circulated for the necessary number of signatures during the spring and summer and at the same time the plan as well as the exposition itself and the benefits expected, can be explained everywhere in Oregon. In the event of an initiated measure, it will appear on the ballot in the general election next November.

William Henley, president of the State Chamber of Commerce, has advised the committee to initiate a measure and the desire for a measure to be submitted by this method is being advocated by up-state people in letters and telegrams to the general committee.

HEARINGS ON FOREST POLICY TODAY

WASHINGTON, Jan. 9.—Hearings on the Snell-McCormick national forest policy bill began Monday before the House Agricultural committee and the session are expected to extend over a week. Representatives of national and state associations and business organizations will be heard.

The Snell-McCormick bill provides for increased fire prevention work, for reforestation, improvement of the forestry situation generally and for buying lands. Among others who will be heard is George S. Long of Tacoma of the National Lumber Manufacturers Association, and representative of wood and lumber organizations of state forestry associations.

JACKSON COUNTY SUNDAY SCHOOLS HOLD CONVENTION

MEDFORD, Jan. 7.—The following members of the Jackson County Interdenominational Sunday School association met Saturday in the public library to perfect the organization. Mr. J. A. Blikerdike of Talent, president, W. W. Robison of Ashland, secretary and treasurer; Dr. J. B. Webster of Phoenix, who has charge of the Phoenix-Talent district and Rev. C. C. Hulet of Ashland, Sabbath school missionary for the Presbyterian church in southern Oregon; Mrs. Josephine Chamble, of Ashland, pastor of the Christian church, who is to have charge of the primary work in the county, with Rev. E. P. Lawrence of Medford, second vice president of the state association. Mr. Clide Hillis of Medford was unable to be present.

The organization was completed by the election of and acceptance by Prof. Aubrey Smith of Medford to have charge of the Medford district, Mrs. Clarence Pierce of Medford for the Young People's work, and Mr. G. M. Mordoff of Medford for the adult Bible class department. Mr. A. C. Faber of Central Point, who has charge of the Central Point district, was also present. Walter Frazier Brown of Phoenix was chosen to head the administrative department.

This organization is a part of the state Sunday school interdenominational movement of which Mr. O. F. Carson of Ashland is president and Miss Georgia Parker is field secretary. Since there is strong probability of the state Sunday school convention being held in southern Oregon this summer or fall, the hope is for a strong county organization. Plans were made at this meeting for the holding of a series of four one-day institutes in the four districts of the county, beginning the 26th of January at Ashland, the same program to be carried out in Phoenix, Medford and Central Point on succeeding days. We will have the assistance of the following state officers at these institutes. Miss Georgia Parker, field secretary of the state association, who is strong on the primary work; Mrs. Clara G. Esen, field worker for the Disciples of Christ in Oregon for the Sunday school work, also Rev. Walter Van Nuys, who heads the Sunday school educational work for the Presbyterian church. Strong programs are promised. Further details will be given later.

The ancient Romans practiced the artificial dwarfing of children, who were kept in a casting or frame to stunt their growth.

NEARLY ALL BONUS CLAIMS ALLOWED

SALEM, Or., Jan. 9. (Special.)—Only 67 out of a total of 7642 claims for cash bonus and loans examined by the world war veterans' state aid commission have been rejected, according to a report prepared by Captain Harry Brumbaugh, secretary of the commission.

The rejections were classified as follows: Entered service prior to June 3, 1915, 36; less than 60 days total service, 17; no military or naval status, 5; service confined to student army training corps, 4; non-resident at time of entry into service, 2; dishonorable discharge, 1.

The large number of rejections on account of entry into the service prior to June 3, 1915, Captain Brumbaugh said, was due to the fact that while this restriction appears in the constitutional amendment it does not appear in the legislative enactment, which has been more widely circulated and more frequently referred to than the amendment.

This omission has created the impression in some quarters that the rejection of an applicant on the grounds of entry into the service prior to June 3, 1915, was the result of a ruling of the commission.

The highest atmospheric pressure to which divers and workers in caissons are subjected is about four and a half atmospheres.

Haz Kik

Bankeritis has about the same effect on a Chamber of Commerce that appendicitis has on the individual. When it becomes chronic and persistent it has to be cut out or it kills the patient.

I think when the appendix is removed from the Chamber of Commerce it will pull through all right. HAZ KIK.

The Christmas Skates

ATTY GENERAL WHITE PEPPER APPOINTED TO SUCCEED PENROSE

Philadelphia, Jan. 9.—George Wharton Pepper, noted constitutional lawyer, was today appointed by Governor Sproule to succeed the late Senator Boise Penrose.

Washington, Jan. 9.—Senator McCumber was today formally named chairman of the senate finance committee to succeed Penrose. The appointment was made by the republican committee on committees.

NATIONAL PARK BODY ENDORSES FAIR

SPOKANE, Wash., Jan. 9.—(Special.)—Resolutions indorsing the Portland exposition in 1925, empowering the executive secretary to act as an arbitrator in re-routing the National Parks' highway through towns and stipulating a permanent marker for the highway, were adopted by National Parks' Highway association in session this afternoon at the Davenport.

The resolution pertaining to the Portland exposition, says: "The citizens of Portland and of the state of Oregon have announced an exposition for the year 1925, featuring highways and motor transportation.

"Recognizing the program as one which will attract thousands of tourist cars to the Pacific northwest from every state in the union and recognizing the enterprise of the people of Oregon;

"Now, therefore, be it resolved by the National Parks Highway association in convention assembled at Spokane, Wash., on January 6, 1922, that the Portland spirit is hereby commended, that our well wishes for a successful show be extended to Portland, and that we in every possible way promote the welfare of the exposition consistent with national parks highway policies."

Other resolutions adopted are: "Resolved, that no parallel or loop roads be recognized as parts of the national parks highway, except in mountainous country wherein different conditions for travel exist on two or more roads, making possible a longer tourist travel season over the highway."

"Resolved, that the association cars operating over the highway be at all times available to tourists for information and service and to make these cars be at all times kept informed of details of the condition of the highway in its entirety."

DECIDED ON NO LIMITATION FOR AIRCRAFT

WASHINGTON, Jan. 9.—The five great powers of the Washington conference today decided not to attempt any limitation on aircraft. They adopted the report of the sub-committee against the proposed limitation because commercial aviation was so closely linked with army aircraft and to attempt to limit fighting machines might have a hampering effect on the development of commercial air craft. The matter will likely go over to later conferences.

American asphalt pavements consist chiefly of sand and pulverized limestone. The asphalt itself serves merely as a binder to hold the other materials together. In Europe, asphalt pavements are generally made of asphaltic limestone, or "rock asphalt," consisting of limestone naturally mixed with asphalt.

WEDNESDAY SET AS NEXT TRIAL DATE

AT SUPERIOR COURT BAR ON GRAND JURY INDICTMENT FOR VIRGINIA RAPPE MANSLAUGHTER CHARGE.

In Superior Court This Morning He Pleaded Not Guilty and His Trial Was Set for Next Wednesday—Motion to Quash Overruled.

BULLETINS

San Francisco, Jan. 9.—Fatty Arbuckle will have to stand trial again as a result of the death of Virginia Rappe. His motion to quash a grand jury indictment for manslaughter was overruled in the Superior court this morning. Arbuckle entered his plea of not guilty and the trial was set for next Wednesday. The grand jury indictment charges that he is directly responsible for the death of Virginia Rappe.

Cannes, France, Jan. 9.—George Harvey, American Ambassador to England, was knocked unconscious in an automobile collision yesterday. In company with H. Wickham Steed, editor of the London Times, he was on his way to the golf links when the car in which they were riding was struck by another car and both Harvey and Steed were thrown to the pavement.

Harvey was picked up unconscious, but attending physicians say they hope injuries will not prove serious, although he will be confined to his bed for some time.

A car approaching swiftly from behind struck the hub of his car and threw it to one side with violence.

Dublin, Jan. 9.—When the Dail Eireann met this morning Devalera reaffirmed his resignation as president of the Irish Republic. It is said his resignation carries with it that of the Sinnfein cabinet.

London, Jan. 9.—Diplomatic relations between Finland and Soviet Russia have been broken off, according to a Helsinki dispatch. Frontier clashes have occurred between Finnish and Soviet troops. Soviet Russia and Finland have been at loggerheads for some time and both countries have been lately reported as massing troops along the Russo-Finnish border. Moscow charges the Finns with siding with the rebellious Karelians who are attempting to cross into Russia.

Dublin, Jan. 9.—Arthur Griffin, founder of the Sinnfein formed a government for southern Ireland today, himself taking the presidency. After Devalera had confirmed his resignation this morning the Dail voted down a resolution to re-elect him by a majority of sixty to fifty-eight.

Washington, Jan. 9.—The Soviet Russia have accepted the invitation of the Allies to participate in the general conference.

Washington, Jan. 9.—Senator Newberry confronted his accusers in the senate today with a carefully prepared statement in which he vigorously denied that he was in any way responsible for the expenditures, approximating 195 thousand dollars, made in the Michigan primaries in 1918, which resulted in his nomination. He admitted that the cost of the campaign waged in his behalf amounted to approximately that amount, but claimed that money contributed was utilized by his family and friends without his knowledge or consent and that he was "filled with astonishment and regret" when he learned of it after it had been expended.
