BOOST WESTERN MINING
Copper for many purposes has no equal. It is easily worked, resists corrosion, gives long service, has a great salvage value and remarkable beauty.

For articles that are exposed to the weather, such as screens, gutters, roofs and ship fittings, it is ideal.

In the manufacture of automobiles it already has an important place, but many other parts and accessories could be made of copper with advantage to the car owner. For such purposes its lightness, durability and non-corrosive qualities make it especially suitable.

Its position as electrical material and as anti-fouling bottoms for ships is acknowledged, while more general use is urged for it in the manufacture of radiators for home and office buildings and for automobiles and trucks.

ments to ascertain the actual amount of water needed for agricultural development of the 9shland granite soil, a matter which had been a point of much contention. Efforts will be made to obtain the assistance of Prof. Reimer of the experiment station at Talent to act in conjunction with a committee appointed by the facion supporting the reservoir project. Can you see any joker in this? If you can I will swallow the bait just like I did when I voted for the reservoir bonds.

I referred to this in my former article that was published in the Tidings. And here is the mayor's answer to it:

Editor Tidings—I wish to make a correction as kindly as possible. There was an article in the Tidings yesterday signed by S. Patterson, stating nothing will convince the mayor until he has an expert farm an acre of ground to find out the amount of water required for that acre. I never suggested or advocated an expert farm of an acre or any number of acres to determine the amount of water required.—C. B. Lamkin.

The way of the transgressor is hard. Wide is the road, straight is the way that leads to everlasting life, but few there are that find it. Good night.

S. PATTERSON.

LOCAL AND PERSONAL

Former Ashland Man Is Improving—
Word has been received from Mrs. Louis Schwein, at San Francisco, that her brother, A. L. Barker, who has been confined in the Southern Pacific hospital with inflammatory rheumatism, is slowly improving.

Overcoats at less than cost, at Paulserud's. 101tf

Goes to Los Angeles—
Mr. and Mrs. W. G. Sander, of Oak and Helman streets, left last Friday for Los Angeles to spend a couple of weeks.

Genuine Chicken Hot Tamales. The Fountain. R. R. Porter, Prop. 96tf

A thought for today
BY ED STAPLES THINKER

EVERY MAN CAN LOOK INTO THE FUTURE IF HE TAKES THE TIME TO DO SO

The majority of so called wise-men are simply careful men. Getting rich is often a matter of being brilliant. Usually it is a matter of buying real estate.

One acre tract, fine land, free irrigation, nicely located in the city \$1,800.00.

A little over an acre on lower Laurel St. Good improvements, extra fine soil, free irrigation. \$1,800.00.

One acre, splendid level land, lots of fruit, modern bungalow cottage on Granite St., opposite Auto camp ground at a bargain price.

Apartment house on paved street, three apartments bringing in \$51 per month, lovely location, nearly half acre of ground, a bargain price.

splendid resident lots, almost 1/2 acre near Boulevard on Mountain avenue, almost a gift, somebody will take these soon.

Splendid, convenient bungalow, fine garage, large lot, chicken yard, lots of fruit, \$3500, worth \$4000.

IF YOU WANT TO SELL OR BUY GIVE US A CALL.

FATHER OF TRIPLETS VISITS

Howard Ewer, Husband of Former City School Teacher, Stops.
Howard Ewer, father of newspaper famed triplets born within the past two months, stopped in Ashland Thursday of last week for a brief renouance of old acquaintances. Since the advent of the triplets, the Ewer family has been showered with gifts from official and private sources. The state awarded 120 acres of land to each of the triplets and eighty acres to Mrs. Ewer. Mr. Ewer is a traveling civil engineer for the Southern Pacific Company and formerly lived in Ashland.

Telephonic announcers are loud-speaking telephone receivers used for announcing trains in a railway station, paging people in a hotel, calling employes in a factory or a store, advertising goods displayed in store windows, etc. As many as 100 of these instruments are sometimes operated from one transmitter, so that simultaneous announcements can be made in all parts of a big establishment.

Burned to Junk

—Many accidents suddenly turn the fire that propels automobiles and trucks into a raging fire that destroys them. The building in which your automobile is kept is always liable to burn, and your car with it. Can you stand the loss of \$2000, \$1500, \$1000, or even \$500, without feeling the loss?

—The only safe way is to protect your car from loss by fire with a good insurance policy. You can also buy protection from loss by theft, collision, and your liability for damage to another's property or for injury to other persons.

SIMPSON'S HARDWARE

FREEZING OUTSIDE— COMFORTABLE INSIDE

Such is the situation when our steam or hot water radiator system is installed in home, office, factory or other building. The true test is in the thermometer. Replace your old hot air or open grate or coal stove method with our new, efficient heating system.

One of the Signs

of an efficient housewife is a household checking account. Such an account provides an indisputable record of expenditures, eliminates the written receipt and in general makes the husband respect his wife's business ability.
