Olympic Feed Man Here—

J. H. Worden, special representative and feed expert for the Portland Flouring Mills, is here for a few days. Mr. Worden comes here to assist the Square Deal Grocery in a publicity campaign to introduce the Olympic dairy, hog and chicken feeds, as well as Olympic cereals and flour. The Olympic feed mill is one of the largest of its kind in the world and contains the only grain dryer on the Pacific coast. The policy of the Portland Mills is, and always has been, foremost in the field, or not at all, this policy is made possible by the use of the most up to the minute machinery and inspectors of national repute. Mr. Worden not only represents the Portland Flouring Mill as an expert on feed, but is the owner of cattle, hogs and a large flock of hens.

Tax Not Off Theater Tickets—
There seems to be an erroneous notion that the government has repealed all taxes on theater tickets. This is not the case. Where the admission is free, or but 10 cents or under, there is no tax. On all tickets selling above ten cents the tax is the same as it has been for some time.

Goes to West Point—
Word has been received here by to the effect that the state of Oregon has been granted two additional appointments to the United States Military academy at West Point. The men wishing to enter West Point took a competitive examina-

tion at Salem on November 8 last, and as a result of this examination Ray Clary of Ashland and Harold Savage of Marshfield were selected as Oregon's two appointees. Fay Bragg of Medford and Van Winkle of Albany were selected as first and second alternates.

It has since been decided that Oregon will be granted places for four men in West Point and that the two alternates will be given the two additional places. Bragg and Van Winkle will go to Vancouver barracks in March to take the entrance examinations.

Burned to Junk
—Many accidents suddenly turn the fire that propels automobiles and trucks into a raging force that destroys them. The building in which your automobile is kept is always liable to burn, and your car with it. Can you stand the loss of \$2000, \$1500, \$1000, or even \$500, without feeling the loss?
—The only safe way is to protect your car from loss by fire with a good insurance policy. You can also buy protection from loss by theft, collision, and your liability for damage to another's property or for injury to other persons. —If your car is worth having, it is worth insuring. Do it today. It's better to play safe than be forever sorry.

SPECIAL ANNOUNCEMENT

We wish to announce to the public that we have taken on exclusively

OLYMPIC PRODUCTS

Consisting of a full line of Chicken, Dairy and Hog Feeds

The wonderful results secured by all Olympic Feeds is the proof positive of highest quality ingredients and unvarying uniformity in mixing. The aforementioned statement is the first demand made by all scientific and commercial feeders.

Olympic Dried Buttermilk Mash

for high egg production has an unequalled record through all of the PACIFIC STATES, INCLUDING OREGON, WASHINGTON AND CALIFORNIA, and is made possible by three factors not obtainable in any other feeds, and are as follows:

- 1st--Olympic Dried Buttermilk Mash prolongs the life of the high producing hen.
- 2nd--Increases the egg output of the hen.
- 3rd--Increases the weight of the egg.

The above mentioned factors being obtained by high digestibility and assimilation due to the animal protein derived from MILK and which is a recognized fact the world over. In past years it was thought that high egg production could not be obtained other than with the use of meat and fish meals, but all seekers after undisputed truth pertaining to the hen have conceded that milk proteins are the undisputed base of high egg production.

There are many commercial feeders that have a local supply of milk necessary for the consumption of the hen, as well as many that are still holding to the egg mashes with a base of meat, fish and vegetable proteins and to meet the demand the Portland Flouring Mills have before the public Olympic Egg Builder. This feed has for a protein base the highest grade of fish and meat meal, together with linseed oil meal, all of which must come up to the highest possible test and is supervised and inspected by Olympic representatives of national reputation.

Both of the above mentioned Egg Mashes carry the maximum amount of protein for highest safe egg production, and all feeders when feeding have no fears of many troubles arising from improper, unbalanced rations, for all Olympic ingredients are of the highest value obtained in the markets of the world.
