Burned to Junk. Many accidents suddenly turn the fire that propels automobiles and trucks into a raging force that destroys them. The building in which your automobile is kept is always liable to burn, and your car with it. Can you stand the loss of \$2000, \$1500, \$1000, or even \$500, without feeling the loss?

The only safe way is to protect your car from loss by fire with a good insurance policy. You can also buy protection from loss by theft, collision, and your liability for damage to another's property or for injury to other persons. If your car is worth having, it is worth insuring. Do it today. It's better to play safe than be forever sorry.

A new way to treat croup Spasmodic croup relieved or warded off by rubbing on a vaporizing salve.

The old method of treating spasmodic croup with nauseating drugs is out of date. So is the vapor-lamp scheme that required the bedroom windows to be kept closed. Now mother rubs the little one's chest and throat with Vicks, arranges the bedding so that the arising vapors will be inhaled all night long, opens the windows to let in the blessed fresh air, and retires—confident of a good sleep.

Just rub it on and breathe in the vapors

True Independence

"I know of no greater independence than this thing of having a little lump sum of money put away, be it ever so small—a sum that is kept in reserve and only in extreme circumstances drawn upon." An account in our savings department is a first move toward attaining this "greater independence."
