HOME BUYERS COMING

We have been advertising in numerous publications, covering a large part of the country and inquiries from people in the northwest, southwest and middle states are flooding my office. Answering these letters is keeping two stenographers busy. Our reply letters are all personal, with detailed description, answering all questions, and accompanied with attractive literature. The letter carries 4 cents postage and is a "go getter." If some of these prospects do not buy and locate here it will be because we cannot show them. But we think we can, so if you have ranches or acreages or any kind of property to sell, it might be worth your while to list it with us. Remember, we advertise and we make sales. Burned to Junk

—Many accidents suddenly turn the fire that propels automobiles and trucks into a raging force that destroys them. The building in which your automobile is kept is always liable to burn, and your car with it. Can you stand the loss of \$2000, \$1500, \$1000, or even \$500, without feeling the loss? —The only safe way is to protect your car from loss by fire with a good insurance policy. You can also buy protection from loss by theft, collision, and your liability for damage to another's property or for injury to other persons. —If your car is worth having, it is worth insuring. Do it today. It's better to play safe than be forever sorry.
