

ASHLAND climate, without the aid of medicine, cures nine cases out of ten of asthma. This is a proven fact.

ASHLAND DAILY TIDINGS

(International News Wire Service)

MALARIA germs cannot survive three months in the fish scene at Ashland. The pure domestic water helps.

VOLUME 3 (Successor to the Semi-Weekly Tidings, Vol. 43)

ASHLAND, OREGON, MONDAY, FEBRUARY 13, 1922

No. 138

SENATE IS STRUGGLING WITH BONUS BILL

IRRIGATION CO. WILL BUILD DAM AND EAST DITCH

HYATT PRAIRIE RESERVOIR TO HAVE 16,000 ACRE-FOOT CAPACITY; WILL FURNISH 7000 ACRES WITH 1.5 FEET WATER.

Reservoir Site Has Been Examined By Engineers for State, Bond Companies and District—Pronounced Satisfactory in Every Respect.

The construction work to be done by the Talent Irrigation District during the season of 1922 consist of the Hyatt Prairie dam, the east lateral diverting from Emigrant creek and the Keene creek diversion canal.

The Hyatt Prairie dam to be constructed across Keene creek will have a maximum height of 43 feet and will form a reservoir having a storage capacity of 16,000 acre feet and will flood 900 acres of land.

The east lateral will have the capacity of 58 second feet at the intake, gradually reducing as land is watered, to 10 second feet at the end.

The Keene Creek diversion canal will have a capacity of 120 second feet, and will be 6000 feet in length.

The records of the water supply of all irrigation projects are kept by the United States geological survey. These records have been kept over a period of six years on our water and show the sufficiency of the supply for 7000 acres, with Hyatt Prairie as the first storage unit, and for 11,000 acres with a low dam at the Emigrant creek site.

MARCONI PERFECTING NEW WIRELESS ALARM

(International News Service) LONDON, Feb. 13.—A new wireless operated bell alarm is being tested to take the place on certain ships of the usual "S. O. S." signal.

"Our experiments," said an official of the Marconi Wireless company, "have proved most satisfactory."

"We have produced an instrument of the 'you touch the button and we do the rest' kind, with the use of which small ships need only carry one wireless operator instead of three."

DEPOSITORS TO AID IN BANK LIQUIDATION

KLAMATH FALLS, Feb. 13.—Depositors of the defunct First State & Savings bank of this city have organized to co-operate with the stockholders and officers of the institution during the period of liquidation.

Y. M. C. A. Leader To Speak Here

Albert E. Roberts, of New York City, member of the international committee of the Young Men's Christian association, will speak at the local Presbyterian church at 7:30 o'clock Friday night.

Mr. Roberts has been for 18 years senior secretary of the county work department of the Y. M. C. A. and is regarded as one of the most eloquent speakers in the organization.

The occasion of his being in the west at this time is to attend the various state conventions being held on the coast during the winter.

Mr. Roberts will also address the high school in the afternoon under the auspices of the Hi-Yi club. He has a message of special interest to young people.

TEX RICKARD HELD TO GRAND JURY

NEW YORK, Feb. 13.—The charge against Tex Rickard, sports promoter, are to be weighed by the grand jury for the purpose of determining whether he shall be indicted and tried.

Magistrate Simpson Saturday ruled that the stories told by two little girls—one 15 and the other 11—of relations into which Rickard led them, were veracious enough and serious enough to justify him in referring the accusations to the indicting body.

It had been hoped by friends of the promoter, who is a polished, likeable man, against whose reputation nothing had previously been presented, that Magistrate Simpson might throw the case out on the grounds that the accusers were of low mental caliber.

Apparently this action was a surprise to Rickard and his attorney, Max Steuer, for they had made no provision for bail. But Magistrate Simpson permitted the promoter to remain in the custody of his counsel a few hours and later the bond was furnished by the National Surety company.

ANOTHER ASHLAND BOY RECEIVES COMPENSATION

SEATTLE, Wash., Feb. 13.—Disabled because of service in the world war, James F. Butler, 108 Nursery street, Ashland, was awarded \$9.50 a month government compensation for an indefinite period, beginning immediately, by the United States Veterans' bureau here.

Announcement was made by veterans' bureau officials that at the present time, the government is paying directly into the hands of former service men and their dependents, a total of more than \$1,000,000 a day.

SECRETARY DENBY SUGGESTS CUT TO NINETY THOUSAND

WASHINGTON, D. C., Feb. 13.—Reductions in the personnel and equipment in the navy to effect a saving of \$70,000,000 in the budget for 1922-23 was recommended to the house naval affairs committee by Secretary of the Navy Denby.

Denby urged appropriation to be made to maintain enlisted personnel of 90,000 men and 6,000 apprentices—a decrease of 10,000 under present strength.

"That will not do," said Chairman Butler when Denby presented his figures to the committee. "Before the war, in 1916, the cost of maintaining the navy, exclusive of construction, was \$107,000,000. As we have taken out most of the construction by limitation of armaments agreements, the people will not support a vote by us for three times this pre-war cost of the navy."

FRESH DISORDERS BREAK IN IRELAND

LONDON, Feb. 13.—Two persons were shot to death and several others wounded in fresh disorders in Belfast during the morning, according to a Central News dispatch.

It was stated that the dead in Belfast and environs in the last 24 hours are four men and one woman.

Orders for British troop withdrawals from Cork have been cancelled, according to a Cork dispatch.

LONDON, Feb. 13.—British troop reinforcements are being moved into Ulster province, Colonial Secretary Churchill announced in the house of commons today.

Evacuation of the British troops from Ireland has been indefinitely suspended.

Seven were killed and 14 wounded in the fighting at Belfast during the last 24 hours.

Miners Starve As Work Is Halted

ATHENS, O., Feb. 13.—Nurses and other relief workers who have penetrated in to the coal mining camps of the hills in the Hocking Valley, report literally hundreds of cases of destitution among the families of the coal diggers.

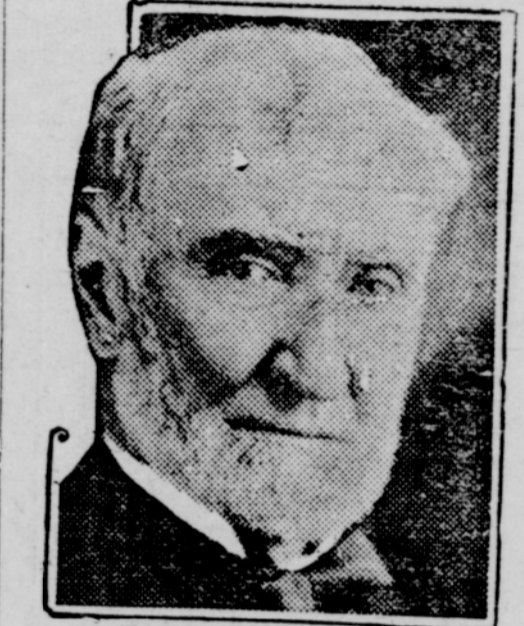

Reports from Columbus indicate that several thousand dollars for relief have been sent into the Hocking district by the union miners' organizations, but this has not gone far. Merchants in mining towns have carried the men "on their books" until the danger point was reached and passed long ago.

No mines about Athens are working save those which have received orders for railroad coal, and every mine of this sort is crowded with men as the turns are shared. These mines are working perhaps two or three days a week.

A railroad tapping the West Virginia coal field to the south extends the full length of the Hocking field and its tracks are daily filled with loaded coal trains.

JOE CANNON TO QUIT CONGRESS AFTER 23 TERMS

WASHINGTON, D. C., Feb. 13.—"Uncle Joe" Cannon, veteran Illinois congressman and former speaker of

JOE CANNON

the house, announced today that he would not be a candidate for reelection.

This question has been troubling a number of men who openly aspire to fill the veteran's chair in the house of representatives, but who have just as openly announced that they would not run if "Uncle Joe" intended to.

Only one man broke these ranks. He is State Representative William P. Holaday, who announced recently that he would be a candidate before the April primaries, regardless of "Uncle Joe's" decision.

"DOPE" GANG MAY HAVE PLOTTED TAYLOR'S DEATH

LOS ANGELES, Feb. 13.—Pressing hard upon the theory that a "dope" ring may have had direct connection with the slaying of William Taylor, movie director, Deputy Sheriff Dewar, who has been active in the investigation, revealed that a search is on for a certain Hollywood scenario writer and his wife.

Dewar said that the search for the couple was actuated by the belief that they could give information concerning a gang of "dope" peddlars, who, it was suspected, may have plotted against the murdered director.

Dewar is trying to learn whether Taylor had at any period in his Hollywood activities incurred the enmity of this narcotic gang.

Shacks are being moved away to make room for a new two story concrete building at Canby, Or.

Illinois May Vote To Let Beer Back

(International News Service) CHICAGO, Feb. 13.—Those who like their beer—it can be stated, unofficially, that the number is not insignificant—are waiting with impatient eagerness for the month of November to roll around.

For, if plans of the "semi-wets" go through, a state wide vote to determine whether or not the people of Illinois wish prohibition laws amended to permit the manufacture and sale of light beer and wines will be taken at the next congressional election.

Petitions are to be circulated throughout Illinois asking that the question be placed on the congressional ballot. A large organization, it is stated, will be formed to circulate the petition.

Two questions will go on the ballot should the petition obtain the required number of signatures. The questions are:

1. Shall the state legislature amend the state laws to permit the manufacture and sale of light beer and wines?
2. Shall congress amend the Volstead act to permit the sale of light beer and wines?

JAZZ GOES BACK TO ASIAN JUNGLE

(International News Service) NEW YORK, Feb. 13.—"Perhaps jazz is our national anthem, and if that is true, then the devil's crying argument, 'Go to hell,' is our national slogan," declared Rev. Percy Stickney Grant, rector of the Episcopal Church of the Ascension, in a sermon on the text, "Is jazz our national anthem?"

"Jazz goes back to the African jungle," the pastor said, "and its effect is to make you chatter, want to go on all fours, and whisk your tail around a tree. It is a savage crash and bang. It rings the bell for full steam astern."

"There is no pathos or idealism about jazz music," Dr. Grant continued. "It is sensation. In the dance, instead of symbolism it becomes sensuality."

"Dancing is Substitute" "Dancing is itself a substitute for sexual contact. But when it becomes an instrument for a gratification, then the whole psychological process is turned about, and instead you have an injury. Then it becomes the gesture of the jungle."

"Plato said that whenever modes of music change, morals change. Music changed greatly a few years ago. We have had storms of all kinds—international and inter-racial. Jazz cannot help closing our ideals, even our humanness."

The heroine in "Jazz" was described by the pastor as "the poor little rich wife trying to reform a sensual husband with good books, good music and other entertainment."

"The world of today is too much concerned with the dancing floor and not with the men under the floor who hold it up," said Dr. Grant; "the church is the only remedy for this condition."

WOMAN DANGEROUS AS TNT SAYS BILLY SUNDAY

SPARTANBURG, S. C., Feb. 13.—"The movie industry will blow up if they don't clean house. The sad feature is that it is the stars and not the dubs who are getting in bad," said Billy Sunday yesterday.

"The woman game is as dangerous as TNT. No one ever played it and got away with it. Women's eyes have slain more men than poison gas. The devil himself could not get Adam to bite until he baited his hook with a woman. And they've been nibbling ever since."

Woman's smiles and her sighs have caused multitudes to 'strike out,' and they will as long as the human race endures."

FARM BLOC DOES NOT FAVOR SALES TAX AS PROPOSED

AGRICULTURAL BLOC PROPOSES RE-ENACTMENT OF EXCESS PROFITS TAX TO FINANCE SOLDIERS' BONUS BILL.

Leaders of the "Bloc" Estimate that Six Hundred Million, Enough to Care for Initial Bonus Installments Can Be Raised in that Manner.

WASHINGTON, D. C., Feb. 13.—Congress is struggling to determine upon a bonus tax scheme which will be agreeable at the same time to the administration and to the people who will have to put up the money.

One of the most important developments was the plan of the agricultural "bloc" to propose the re-enactment of the excess profits tax to help straighten out the tax muddle which is holding up the bonus bill.

Senators identified with the "bloc" estimated that \$600,000,000 would be available if the excess profits tax, repealed by the new revenue law, were re-established. This amount is more than enough to take care of the initial installments of the soldier bonus.

On the other hand, the "bloc" is set against the sales tax, as well as against what its members describe as "poor man's taxes," incorporated in the bonus program of the republican members of the ways and means committee, to which the republicans of the senate finance committee have failed to agree.

WAVE OF CRITICISM OF ARMS CONFERENCE IS SWEEPING JAPAN

TOKIO, Feb. 13.—A wave of criticism of the delegates to the Washington arms conference and of disapproval of their tactics and the conference results is sweeping Japan. Opposition leaders have spurred popular feeling in an attempt to create a "fever of indignation" which might effect the overthrow of the Takahashi administration.

The advance guard of "political observers" told doleful tales of Japan's humiliation at Washington.

FRATERNITY HOUSE AT O. A. C. IS COMPLETED AT COST OF \$35,000

CORVALLIS, Or., Feb. 13.—The new fraternity house of the Sigma Alpha Epsilon society, just completed at a cost of approximately \$35,000 is one of the most important of the recent building projects at the Oregon Agricultural college. The building is a three-story frame structure of Southern colonial architecture, 65 by 80 feet in ground dimensions, occupying a site 160 by 300 feet in area. A 50 foot concrete porch extends across the front of the house, and partially enclosed sleeping porches at the rear of the building provide quarters for about 40 people.

There are 14 large study rooms, two guest rooms and four bath rooms on the second floor. A large living room, dining room, pantry and den occupy the first floor and the basement houses the fraternity meeting room, kitchen, store rooms, laundry and heating plant. Officers of the society are: M. H. Allen, president; H. J. Abraham, vice president; B. F. Schumacher, secretary, treasurer. Plans for the building were prepared by Folger Johnson of Portland.

WEATHER FORECAST

The weather outlook for the period February 13 to February 18, inclusive, according to weather bureau reports, is very encouraging.

The Pacific coast states will enjoy normal temperatures with some cloudiness and occasional rains, while the Rocky Mountain section will have normal temperatures with occasional snows.

Do you know that there are 46,000 Methodist students in the state universities and schools in the United States?

Haz Kik

I do the very best I know how; the very best I can; and I mean to keep doing so until the end. If the end brings me out all right, what is said against me won't amount to anything. If the end brings me out wrong, ten angels swearing I was right would make no difference.—Abraham Lincoln.
