Banquet Postponed—E. V. Carter, of the First National Bank, received a wire this morning from Grants Pass to the effect that the dinner meeting scheduled to be held at the Josephine hotel there tonight, had been indefinitely postponed. The reason for the postponement is not known.

Why pay more for insurance? Ask Yeo first. 1344f

Word Received from Travelers—Friends have received word from Vaupel family who is touring the Orient with the Nile temple of Shriners. A menu was used to write on and it showed that in spite of the fact that they were about a day's trip out of Yokahoma, Japan, on an ocean liner, they were enjoying all of the luxuries that may be had at any place on the face of the globe.

Confined to Home—Mrs. T. H. Simpson and son Glenn, are confined to their home on North Main street by illness.

Down with Pneumonia—Albert Sheraid, of 1023 East Main street, has been down the past week with pneumonia as the result of an attack of the "flu." Mr. Sheraid is improving nicely, but is still confined to his bed.

### Strychnine Causes Death of Children

CHEHALIS, Wash., Feb. 17.—Chemical analysis of the package of Epsom salts from which Mrs. Edward Rhodes of Boistfort, Wash., said she took the medicine which killed her five children last week, has shown that 10 per cent of strychnine was mixed with the salts, according to the report of County Prosecutor Allen.

Eight or ten other packages were taken from the Carlson store, where Mrs. Rhodes bought the salts, and also were tested, but no poison was found in them. The store had purchased 12 packages of the medicine. Some of them had been sold, but were obtained by the authorities and sent to Seattle for analysis.

Mrs. Rhodes told the county attorney that the package was a new one and that she broke the seal on it when she obtained the medicine for the children.

Search of the Rhodes premises for a package similar to the one containing the salts proved fruitless. The authorities were said to have wondered if Mrs. Rhodes might not have made a mistake in the packages and have taken the supposed salts from another container holding strychnine. It was felt that the Rhodes family being farmers, might have procured strychnine to kill squirrels or other rodents. It was understood that this theory was dismissed when the searchers were satisfied there had been no strychnine package in the cupboard from which the salts were taken.

### REMARKABLE RECORD OF LIGHT SIX STUDEBAKER

(From the Tillamook, Or., Headlight, January 26, 1922.)  
January 24, 1922.  
Williams and Williams, Tillamook, Oregon. Dear Sirs—  
Regarding the conversation we had this morning about the Light Six Studebaker I am driving. I bought the car September 24, 1921, from Wenatchee Produce company, of Wenatchee, Wash., and drove the car from there to Seattle and down the coast to Los Angeles, then over to Phoenix, Ariz., and back to Los Angeles. The trip to Phoenix was over the desert and through sand pulls which required a lot of low and intermediate gear work. I then drove all over the state of California, including a drive to Eureka, Calif., from San Francisco the first week in January. Thursday, January 19, 1922, I figured the amount of gasoline consumed from the time I bought the car and I averaged better than 19 miles a gallon. During that time I have driven 9343 miles. The treads on all of my tires have barely started to wear and I will get at least 15,000 miles on this set. There has been a lot of bad and mountain roads on my trips, to say nothing of the sand in the desert. I also drove up last week from California, having no trouble to get through.

The only repairs on the car has been grinding of valves at 4500 miles.  
Yours very truly,  
H. W. Kidder, representing the Blatchford's Calf Meal Company of Wankegan, Wash.—Adv.

### Small Child Hit By Automobile

Mildred Doran, little daughter of J. H. Doran, was hit and knocked down by an automobile driven by Edwin Dunn yesterday afternoon, while on her way home from school. Fortunately the child was not seriously hurt, but her face was badly bruised as she fell on her face when machine struck her.

Mr. Dunn picked the child up and asked Mrs. J. C. Kaegi, in front of whose home the accident occurred, to go with him to the office of Dr. F. G. Swendenburg, where the child was examined and after having her bruises treated, she was taken home by Mr. Dunn.

The children had just been dismissed from the Hawthorne school, where the child attends, and, together with other children, was going along the Boulevard on her way home. According to parties who saw the accident, the child was pushed off the sidewalk by one of the other children just after they had passed a machine that was parked along the curb, and it seems that she then started to go across the street and stepped out from behind the car at the curb in time to be struck by the moving machine. Mr. Dunn stated that another child was on the further side of the street, and had he turned his car to miss the girl, he would have run directly over the other child.

It is not known what speed the machine was making at the time, but from the appearance of the tracks where the machine slid after the brakes were applied, it was somewhat faster than should be driven when passing near a school building.

### JUDGE WARNS COPS TO BE POLITE TO AUTOISTS

By International News Service  
CHICAGO, Feb. 17.—"Ab, madame, it grieves me so to ask you to report at headquarters! But the law, it must be enforced; and you, madame, have released too much fuel with that explosive foot of yours, your motor is traveling at a speed greater than that permitted by the laws of our fair city."

This may be the way Chicago traffic policemen will address violators of city traffic regulations hereafter. An order has been issued from the court wherein speeders and other violators of traffic laws are reprimanded and fined, instructing the policemen to "lay off the rough stuff" and treat violators "recently."

"Cursing by officers is a common complaint," declared JUDGE JOHN R. NEWCOMER, who released Sylvester Brennan who resisted arrest because the police used profane language. "Arrests should be made decently and those arrested brought into the court in a gentlemanly manner."

### Makes Trip North

T. J. Coffman has left on a three weeks trip which will take him to several of the cities of the northern part of the state.

Returns from California—W. E. Woods, who left here about a month ago to look at various localities in southern California with the idea of locating there, returned yesterday and says that southern Oregon climate is much better than any of the various points that he was at while in California and will continue to make Ashland his home.

### CHICAGO CUBS TO HAVE YOUNG TEAM THIS SEASON

(Continued from Page 1)  
remain the team's shortstop. Hollocher is still a young man and a mighty capable player, but his efforts at times last season seemed rather lackadaisical. If he falls in with the new spirit he may hold his job.

In the event that Deal is kept on third base and Hollocher at short it is likely that Johnny Kelleher will be the regular second baseman. Kelleher is a scrappy "Turk," who played utility roles last season and won a home with Cub fans. It is difficult to see how he can be kept out of the regular line-up.

The youngster who is likely to

### TOO LATE TO CLASSIFY

FOR SALE—A 490 Chevrolet; first class condition. Phone 149 142-3

FOR SALE—Barred Plymouth Rock and White Leghorn eggs for hatching, 75 cents for 15. Also poultry tonic and washing tablets, cheap. E. Yockey, 177 E. Main. Phone 146. 142-1mo

FOR SALE—Dandy two oven fireless cooker, almost new. Write Mrs. G. W. Wolverton, Lock Box 184, Glen View Drive. 142-6\*

crowd a veteran out of an infield job is Carter Elliott, who came to the Cubs as a shortstop. Elliott showed a world of speed in the closing games of 1921, and if he can hit in big league style he will win a job. Barney Friberg, erstwhile outfielder, who was converted by Otto Knabe at Kansas City into a second baseman, may also land a regular infield job.

### Killifer to Catch

Manager Bill Killifer and Bob O'Farrell will attend to the bulk of the catching.

Grover Cleveland Alexander, the "big smoke" of the pitching department, did not do so well last year, and there are suspicions that Alex has about reached the end of his rope. If Alex falters the burden will

be all on the youngsters, "Speed" Martin, who always has been and probably always will be erratic, being the only remaining veteran.

Of the youngsters great things are expected of Virgil Cheeves, right-hander, and Percy Jones, left-hander. Jones is expected to be the successor of Big Jim Vaughn as the star port sider of the staff.

### FOR SALE--WOOD

I now have on the track a car of 4-foot body red fir which I will deliver direct from car at \$9.50 per cord or \$5.00 for half cord. Order now and save extra drayage from yard.

### A. G. ADAMS

THE WOOD MAN. Phone 460. Will have in a car of 16 inch Manzanita soon. Watch for ad.
