**Fraternal Orders and Societies**  
 Advertising for fraternal orders or societies charging a regular initiation fee and dues, no discount. Religious and benevolent orders will be charged the regular rate for all advertising when an admission or other charge is made.

**What Constitutes Advertising**  
 In order to allay a misunderstanding among some as to what constitutes news and what advertising, we print this very simple rule, which is used by newspapers to differentiate between them: "ALL future events, where an admission charge is made or a collection is taken IS ADVERTISING." This applies to organizations and societies of every kind as well as to individuals.  
 All reports of such activities after they have occurred is news.  
 All coming social or organization meetings of societies where no money contribution is solicited, initiation charged, or collection taken IS NEWS.

Entered at the Ashland, Oregon, Postoffice as Second-class Mail Matter.

**CITY WATER SUPPLY TO BE PROTECTED**

Announcement has just been made by District Forester George H. Cecil of the signing of an agreement by Henry C. Wallace, secretary of agriculture, and George O. Knowles, mayor of Cottage Grove, for the protection of the water supply of the town of Cottage Grove, Oregon.  
 This agreement provides that the watershed of Dinner creek, an area of some 6000 acres, within the Umpqua national forest, will be protected from fire, use by livestock, from camping or other human use, in order that possible contamination of the city's water supply may be guarded against. No timber will be allowed to be cut within the area prior to 1952, "except where necessary in connection with serious forest fires, insect infestation, or other catastrophes which necessitate the public welfare the immediate salvage of dead or infested timber. No permanent buildings nor camps nor habitations shall be permitted on the area above the intake of the town's water supply system, and all persons employed therein or occupying such lands for any purpose shall observe the strict sanitation regulations agreed upon by the forest service and the city of Cottage Grove."  
 The secretary agrees also, so far as practicable with the means at his disposal, to extend and improve the forests upon this watershed by seeding and planting, and by the most approved methods of silviculture and forest management. The city agrees to co-operate actively with the officers of the Umpqua national forest in the protection from fire and patrol of such lands, and to pay the salaries of such additional guards as shall be needed to insure protection.  
 In making this announcement, Mr. Cecil brought out the fact that within the states of Oregon and Washington, 84 cities and towns derive their water supplies wholly from the national forests, and that the forest service protects from fire any deleterious use of the watersheds from which these water supplies are derived. The most notable example is that of Bull Run watershed, within the Oregon national forest, which supplies the city of Portland with its

**LION CLAWS GIRL SCREEN STAR**

Gladys Walton - Universal

Gladys Walton, screen star, escaped serious injury by the thickness of a fur coat when a lion in the Universal City arena reached through the bars, ripping the coat from shoulder to hem with one vicious sweep of his barbed paw.

The star stood at the bars of a training cage. The animal is said to have been infuriated to attack by the fur coat. Trainers quieted the beast. Miss Walton, badly frightened, was unhurt. At the time of the accident Miss Walton was filming a screen version of "Second Hand Rose."

**To Film "Robinson Crusoe" "Under Two Flags" for Dean**

Harry Myers, player of the title role in "A Connecticut Yankee in King Arthur's Court," has been engaged to star in "The Adventures of Robinson Crusoe." Nobel Johnson, Josef Swickard (of "Four Horsemen" fame), Gertrude Claire and Gertrude Olmstead will appear in the cast. Robert F. Hill will direct

"Under Two Flags," Ouida's best known romantic novel, has been purchased as a forthcoming starring vehicle for Priscilla Dean. "Miss Dean will enact the role of "Cigarette," made famous by Blanche Bates on the legitimate stage more than two decades ago.

entire water supply, and which is very jealously guarded from any use by human beings or livestock. Mr. Cecil also emphasized that the two main functions of the national forests are the production of timber and the protection of water supplies, whether these be for municipal use, for irrigation or water power, and that other uses, such as by live stock and recreation, important as these have become, must always be harmonized with the two primary functions of timber production and protection of water flows.

**SHACKLING TAX GATHERERS**

A western town is prospering on rube methods not at all in accord with usual tax-boosting and bond inflation methods.  
 Its levy for city expenses is less than during the first year of the war. In 1915 it was 15 mills, and for two years it has been 13.8.  
 This city of 20,000 people has only \$474,000 bonded debt almost entirely for streets and sewers, and pays off \$40,000 annually.  
 This rubberneck town has shamelessly disregarded official privileges and abolished some offices and reduced salaries in several instances.  
 To the general surprise of the other western cities no one has resigned office and the city is not falling behind by misering on taxes.  
 Other western cities and states are shouting for increased expenses to meet their growth, but Salem, Or., is thriving on its penuriousness.  
 People are actually leaving other more progressive tax-collecting communities and flocking to Salem where tax-gathering has been shackled.

**What Is It?**

Gloria Swanson's latest Paramount picture is "Her Husband's Trademark," an original story for the screen by Clara Beranger. Now, what can a husband's trademark be?

**LIFE CONVICT'S SCENARIO MAY RESULT IN RELEASE**

Louis Victor Eytinge may gain his freedom as a result of his writing of the story, "Peterman," which was filmed as a starring vehicle for Herbert Rawlinson.

The famous prisoner in the Arizona state penitentiary, whose life has been the topic of many a speech and the inspiration of many an article, is believed to be at the threshold of a new day. He was one of the "Men Who Came Back," in a book of Peter Clark MacFarlane of several years ago, and just recently he won first award in a contest conducted by Outlook Magazine. Time and time again writers have made his life the individual illustration of their arguments that men may go down to the lower strata of life and come up again with flying colors.

"Peterman," a "Crock" story, "Peterman," a "Crock" story with a knockout plot, was Eytinge's contribution to the screen literature. It had in it all that the author had gained of knowledge about criminals and their motives, and it represented the lower life as it really is. Tod Browning, who guided the filming of "Outside the Law," directed "Peterman."

Now comes word that the life sentence of Eytinge may be cut short because of his remarkable achievements, which prove that he has in him the stuff that makes a worthy citizen. He has, during the fourteen years he has been in the Florence institution, accumulated some money and acquired high standing among the ad clubs of the world through his impressive advertising copy. If he is released, he probably will go in exclusively for literary work and prison reform—the latter his hobby for ten years.

**Red Chief in Cody Film**

Chief Lighthouse, a full blooded Cherokee Indian, is playing the part of Sitting Bull in the serial, "The Days of Buffalo Bill." Universal has been specially fortunate in obtaining persons who are exceptionally well fitted for their respective roles in the historical chapter play. Joseph Hazelton, who plays the part of Gideon Wells, Secretary of the Navy in Lincoln's cabinet, was a witness of Lincoln's assassination. Duke Lee, who plays the title role, was a trooper with Colonel Cody's famous Wild West show for seven years.

**The KITCHEN CABINET**

Love is as strong as death; jealousy is cruel as the grave; the coals thereof are coals of fire, which hath a most vehement flame.—Song of Solomon.

**SEASONABLE GOOD THINGS**

We have all enjoyed macaroni with egg, white sauce and cheese, with chopped meat and tomato; but have you tried Macaroni With Raisin Sauce.—Boil two cupfuls of macaroni—the elbow kind will make the nicer looking dish—boil in salted water, as usual. Put the macaroni in the center of the dish, pour the raisin sauce around the macaroni with a few of the raisins on top. Prepare the sauce by putting one cupful of seeded raisins through a food chopper, then put into a saucepan with one cupful of water and boil for ten minutes. Add a little salt, two tablespoonfuls of cornstarch, six of sugar and two teaspoonfuls of cinnamon; boil for five minutes. The cinnamon may be reserved and sprinkled over the macaroni if desired.

**Rice With Cocoa Sirup.**—Boil one cupful of rice as usual in salted water. Drain and dry in the oven until every grain stands up. Serve the rice in the center of a platter with cocoa sauce poured around it. The rice may be molded if desired.  
**Cocoa Sirup.**—Take two cupfuls each of water, sugar and boil five minutes; reserve one cupful of the water to mix with cocoa, add one-half teaspoonful of salt and one cupful of cocoa. Boil slowly for ten minutes. When cold put away in bottles. This is nice for a hot or cold drink, with milk.

**Stuffed Dates With Whipped Cream.**—Remove the stones from choice dates, fill with chopped pecan meats moistened with some of the chopped dates. Press the dates into their original shape, slipper in a little marshmallow cherry juice or in a light sugar sirup flavored with lemon rind, to cover. Chill when tender, drain and chill. Serve in nests of whipped cream.

**Cauliflower With Cheese.**—Cook the cauliflower as usual, break up into flowerets and arrange in a baking dish with a layer of highly seasoned white sauce with a generous layer of cheese. Repeat and when the dish is full, bake covered with buttered crumbs. Serve when the crumbs are brown.

Three hundred tons of coal a day are consumed by the power-station that supplies electricity for the London underground railways.

**DOMESTIC SCIENCE**  
 A regular feature department edited by Mrs. Belle DeGraf  
 Domestic Science Director California Prune & Apricot Growers Inc.

**Current Mint Sauce**  
 One-half glass current jelly, one tablespoon finely chopped mint leaves, grated rind of an orange, salt and cayenne.  
 Let stand for one hour. To be served with roast lamb.  
**Pineapple Cornstarch or Blanc Mange**  
 One cup grater canned pineapple and juice, one cup hot water, four tablespoons cornstarch mixed with half cup sugar, two egg whites beaten stiff, one teaspoon pistachio flavoring (optional).  
 Pour water and pineapple in the upper part of a double boiler and heat. Mix sugar and cornstarch. Add to hot mixture and cook directly over the fire until thick, then over hot water fifteen minutes, stirring occasionally. Beat the whites of the eggs very stiff and slowly pour the pineapple mixture over them, beating constantly. Pour into a mold and set aside to become firm. Serve with a custard sauce made of the yolks of two eggs, one cup of milk, two tablespoons of sugar and one-half a teaspoonful of vanilla.  
**Tomato Jelly Salad**  
 One cup strained canned tomatoes or tomato sauce, one cup hote water, one bouillon cube, piece of bayleaf, half teaspoon salt, one onion grated, two tablespoons gelatine soaked in half cup cold water.  
 Add the bouillon cube, onion, bayleaf and salt to water and simmer ten minutes. Strain. Add gelatine and stir until dissolved. Then add tomato and one cup of asparagus tips. Pour into individual molds and set aside to become firm. To serve, unmold on crisp lettuce leaves and garnish with thick mayonnaise and ripe olives.  
**Emergency Soup**  
 One can tomatoes, two cups of water (or more), two bouillon cubes, piece of bayleaf, slice of onion or onion juice, salt and pepper.  
 Add water, bayleaf and onion to the tomatoes. Cook until boiling, then simmer about ten minutes and strain over the bouillon cubes. Add seasonings and place over a low fire until required.

**FARM REMINDERS**  
 By O. A. C. Experiment Station  
 One of the immediate benefits of crop rotation is a better control of crop pests. Rotation is an important method advised for the control of nearly every insect or disease attacking field or garden crops, and without it, many of the other helpful measures are ineffective.  
**Late Planting, Less Oats**  
 Absolute necessity of planting peas and oats or peas and barley early has been shown by experience throughout the state. The earlier they are planted after the season opens up the better. At the Astoria branch station each week's delay in planting meant practically one-half ton loss. In dry districts the loss is even greater. Peas and oats make good silage, hay or grain, although they are somewhat susceptible to injury by plant lice.  
**Peach Leaf Curl—Last Call**  
 This is the last call for spraying for peach leaf curl. The latter part of February is often too late for 100 per cent results. Apply Bordeaux 6-6-50 at once, being careful to cover every twig and bud. If the spray is well applied while the buds are entirely dormant there need be no loss from this disease. Make it un-anxious.  
**Weed Grow, Don't Sow**  
 Red clover is planted in February extensively. As far as possible strong plump seed free from buckhorn should be used: A sample of clover seed was tested recently at the experiment station that carried nearly 7 per cent of that troublesome weed.
