**PENDLETON BEATEN IN FINAL GAME BY 45-22**

(Continued from Page 1)

The lineup was as follows:  
Ashland—Forwards, Guthrie and Heer; center, Ramsey; guards, Hobson and Young. Substitutions—Weisenburger for Hobson.  
Pendleton—Forwards, W. Kramer and Holmgren; center, Lawrence; guards, F. Kramer and Cahill. Substitute—Nelson for F. Kramer.

Scores were credited as follows:  
Ashland—Heer, 19; Guthrie, 22; Ramsey, 4; total, 45. Pendleton—W. Kramer, 8; Holmgren, 4; Lawrence, 4; Nelson, 2; Cahill, 4; total, 22.  
Referees—Coleman and Faber.

**The Semi-Finals**  
In the semi-finals Saturday afternoon, Pendleton defeated Eugene by the score of 35 to 21. The Cow

A Few of the English Beauties With the London Follics, at the Page Theater, Medford, next Thursday Evening

## GERMANY MUST PAY \$530,000,000

PARIS, March 20.—Germany will be asked to pay approximately \$500,000,000 gold this year in reparations, according to a current report as the allied reparations committee met in plenary session today to frame the final payment schedules.

## COACH BOHLER NAMES ASHLAND BOYS FOR ALL-STAR STATE TEAM

Coach Roy Bohler, of Willamette university, has the following to say about an all-star basketball team: "Out of all the teams at the tournament could be chosen one or two special stars. W. Kramer, of Pendleton, would probably be a choice of most good critics, for one forward. He was not quite as good a scorer as Herr, of Ashland, but he probably has more action in floor work. Guthrie, of Ashland, would be the unanimous choice for one forward. It is doubtful whether even the redoubtable Fox of Idaho, or "Slats" Gill of O. A. C., could have more than matched him. Westergren, Astoria, was an exceptional player. Ramsey, of Ashland, and Holloway, of Redmond, were perhaps the class of the centers. For aggressive fighting every second of the time, "Pickles" Lennon, of Salem, would earn first before almost any jury for all-round team value, though he could not quite equal other taller, sure-scoring centers named, Anderson, of Astoria, ranks well at the top of the guard list, though his team-mate, Luoto, was a wizard in diving plays coming his way. Cahill, of Pendleton, is a slashing player, who ranks with the best."

## THREE SPLENDID MEETINGS AT M. E. CHURCH YESTERDAY

Yesterday was a great day at the First Methodist Episcopal church. Instead of the regular Sunday school, there were special exercises of music and a thoughtful address to the children and parents by Dr. Peck.

There were two great sermons, morning and evening, by Evangelist Peck, and an address of 15 minutes upon the first chapter of Genesis, showing that the words of Moses were not contradicted by true science.

## "BUILD WITH THE BIRDS" MOVEMENT STIRS CITY

(Continued from Page 1)

Charles L. McKinney is constructing a new bungalow about two miles north of the city—just beyond the Jackson hot springs. The forms for the foundation have already been laid.

Ed Rudd is constructing a new residence on Liberty street just above the Boulevard.

Floyd Patnam is remodeling his property on Beach street, just above the Boulevard into a bungalow. This will be quite an improvement to that section of the city.

William Rice is rebuilding his house at the corner of Iowa and Lincoln streets, and when completed, the place will look like a new house throughout.

George Spencer, of lower Oak street, is remodeling his property and will have things considerably improved within the next few weeks.

## RADIO IS INSTALLED BY THE OREGONIAN

PORTLAND, March 20.—The Oregonian Saturday completed installation of a powerful station for radio telephone broadcasting. First tests of the station will be made today, and it is expected that within a week, concerts, weather forecasts, occasional news bulletins, and intelligence of general interest will be sent out daily. The station is located in a big room just under the big clock in the Oregonian tower, and aerials have been spread into the air for a distance of 70 feet to the top of a 60-foot steel mast erected on the roof.

## ASHLAND HIKERS FIND MUCH SNOW IN CANYON

A party consisting of Mr. and Mrs. Dr. Johnstone and daughter Lucile, and Mr. and Mrs. Krugel and two sons, started on a hike to Long's Cabin, more recently named "Sap and Salt in the Woods," Sunday, but found too much snow and turned back about three-quarters of a mile this side of the cabin.

Rudolph Jacobs and Wilson Torrance also made a trip up the canyon to about the same place during the day, and likewise turned back on account of the excessive snow.

C. H. Holmes, L. P. Croson, Geneva Moore and Molly Clary were hikers up the canyon and on the hillsides Sunday afternoon. They went as far as Liason's wood lot and found between three and four feet of snow there. The wood lot is a distance of about five miles from the city.

## ELWOOD INDICTED FOR MANSLAUGHTER

The grand jury, after indicting Lloyd Elwood of Medford on the charge of manslaughter, Saturday, and cleaning up all other important matters for the term of court which opens today, adjourned until May 15. No other indictments were returned beyond those published heretofore, and the grand jury took no action on matters relating to the failure of the Bank of Jacksonville.

The manslaughter indictment directed against Elwood arose from his car having run over and killed Fred Hartzell of Eugene, Ore., a traveling salesman late one night last December while returning home from a dance at Kingsbury Springs. His bail was placed at \$2500, the same bond that was required when he was bound over to the grand jury from the justice court in Medford. Bail was promptly furnished.

## TREATY ADHERENTS SURE OF VICTORY

WASHINGTON, D. C., March 20.—Administration leaders expressed themselves certain of ratification of the four-power Pacific treaty when the pact comes to a vote Friday. It will claim probably three votes over the margin necessary to ratify the treaty by a two-thirds vote. Opponents are still hopeful that unforeseen developments will enable them to defeat the treaty.

WASHINGTON, D. C., March 20.—A charge that the United States and Great Britain entered into a secret understanding during the armament conference for the purpose of holding the whip hand over Japan with the Anglo-American fleet in the Pacific, was made by Senator Borah, and startled the senate into tempestuous debate on the four-power and other conference treaties.

Borah credited the statement to Paul Cravath, a prominent New York lawyer. Lodge and Underwood joined in denouncing it as "unqualifiedly and infamously false."

## LUCKY ARTIST WON FORTUNE

Comfortable Sum Bequeathed Painter Who Had Reproduced Features of Beloved Daughter.

A fortune of \$46,000, (\$230,000), which was bequeathed by the late Robert B. Hawley, president of the Cuban-American Sugar company, to Mr. Learned and his family was the romantic sequel to Mr. Learned having painted a portrait of the sugar magnate's dead daughter. Mr. Hawley made a fortune in the export business, and in 1896 he was elected to congress. Just after he left congress his daughter Sue died, and he was heartbroken. The only likeness that he possessed of his loved one was a small photograph, and this lacked much of the fine animation that had characterized her face.

Taking the photo Mr. Hawley went to Arthur G. Learned, a rising young artist, and asked him to make a portrait that would recall something of the inspiration the girl had been in her father's life. The picture was made and it exceeded the hopes of the grief-stricken father. The latter was so grateful that he became on the closest terms of friendship with the painter and his family. Mr. Hawley died in November and left to Mr. Learned and his wife £20,000, (\$100,000), and to their little son £2,000, (\$10,000), and a trust fund of £24,000, (\$120,000).—Manchester Guardian Weekly.

## OPEN FIREPLACE A NUISANCE

Women of Past Generations Considered the Huge Affairs of Those Days as Unnecessary.

Nowadays one of the most convincing proofs that you can give to the fact that your city apartment is of the highest class and unlike the ordinary is to say that it has "open fireplace." Even a single "open fireplace" in an apartment is enough to raise it from the shoddy majority. And, of course, when we dream of owning a house in the country most of us, nine out of ten of us, think of an open fireplace as a sine qua non of such an abode.

But our grandmothers had no such opinions of open fireplaces.

Open fireplaces were a real humiliation to the woman who had them in her house 50 years or more ago. At least that feeling prevailed in this country. A small grate fire, that held a few shovels of coal, was another matter, but the sort of fireplace where logs burned across firelogs was—well, it was one of the crudities that most persons did not like to possess. Yes, there was a time when a Franklin burner or a drum stove was considered more of an ornament to the well-furnished drawing room than the sort of wide-hearthed fireplace that we covet nowadays.

## Section Men Watch Step.

Section men are known for their deliberate movements. They never get in a hurry unless there is some urgent work to be done. As long as they are on the go they are supposed to be working fast enough.

Track workers on the subway lines are even more deliberate in their movements than men employed on regular railroads. Where the old-time section workers had to look out for fliers and occasional freight trains, the subway track men have to be on the watch for express and local trains passing every few minutes. In addition, they've got to have a care for the third rail. In crossing the tracks every movement is taken with the death-dealing current always in mind. A hurried, reckless step might end fatally. Probably in no other line of work is efficiency so measured by slow work.

## Royal Parish Church.

Although St. Martin's-in-the-Fields (London, England) once the Royal Parish church—has just celebrated its 200th anniversary under the Royal aegis, the church stands on a site consecrated centuries before. The first organ used in the present building was purchased by George I, who had the royal arms worked in relief on the portico. Soon after its erection the church was thus referred to in a periodical of the time:

"The inhabitants are now supplied with a decent tabernacle, which can produce as handsome a show of white hands, diamond rings, pretty snuff boxes, and gilt prayer books as any cathedral, says the Daily Chronicle. If in ghostly form he could return some wet and wintry midnight and see the outcast refugees in those once jeweled pews."

## Wormwood.

The Kaiser's pet racing yacht was the Germania. He kept it at the Kiel Yacht club and dreamed of world power as it carried him on cruises.

The war changed a lot of things. It changed the name Germania to Half Moon. It also changed the yacht's ownership. Gordon Woodbury of New York owns it now. He starts on the Half Moon for a cruise in the South seas.

When Bill Hohenzollern heard about this at his famous woodpile in Holland, it's a safe bet he broke his jaw.

## United States Leads World.

There are in the United States today more than thirteen and three-quarter millions of telephones. This is an average of 12.7 telephones for every 100 persons or, put another way, better than one telephone for every eight people. From a telephone standpoint this country is by far the best developed in the world. In fact, no other country is even a close second!

## FORD'S SILENCE IS BROKEN ON SHOALS PROJECT

DETROIT, March, March 20.—Declaring that "if it's the last thing I do in this world I'll exert every resource and influence at my command to keep the hands of Wall street off Muscle Shoals," Henry Ford has broken his silence, maintained during the last two months since his offer to lease and operate the government water power project in Alabama.

Mr. Ford made the statement to the Detroit News in response to an intimation reaching him to the effect that because of his silence the people of the southern states had begun to wonder whether he had lost interest in the project.

"Tell these people of the south," Mr. Ford said, "that Wall street will have no part either in financing or operating Muscle Shoals if I can help it. If it's the last thing I do I'll exert every resource and influence at my command to keep the hands of Wall Street off the shoals project and perpetuate it as a great example to the American people—a living example of what they can do if they will safeguard the country's water-power and develop it."

**Freedom of Industry**  
"In Muscle Shoals lies the freedom of American industry," Mr. Ford continued. "During the war the country turned its every resource to help free the world from militarism—a militarism fostered by an international money power."

"If the American people once can catch the idea of what water-power means—how it can be put to service in a thousand ways, cutting the cost of industrial power to a minimum and thus, through better service, make possible a higher standard of living for all people at a greatly reduced cost—they never again will submit to the proposition that to get power they must pay tribute to Wall Street."

"America's power today is dependent on the steam power of coal," Mr. Ford continued. "The great private financiers own the bulk of the country's coal mines. These financiers, centered in Wall Street, have a strangle hold on industry and transportation of the country."

**On Unselfish Lines**  
"If Muscle Shoals is developed along unselfish lines, it will work so splendidly and so simply that in no time hundreds of other water-power developments, will spring up all over the country and the days of American industry paying tribute for its power would be gone forever. Every human being in the country would reap the benefit."

"I am consecrated to the principle of freeing American industry. All I want is a chance at Muscle Shoals, and if it is the last thing I do on this earth, I will fight for that chance."

In speaking of the fight being waged on the Shoals project, Mr. Ford said:

"Work should be going on at the Shoals this spring and summer, because if the thing isn't settled so work can be done when the river is low, a great part of the project of completing dam No. 2 and building dam No. 3 must be put over until 1923. It would be tragic to hold off employment of so many thousands of men for another year when the need of work is so general and so great."

BELFAST, March 20.—Guerilla warfare flamed along the southern Ulster frontier during the week-end. The situation is highly critical. An Ulster constable was killed in a fight with armed republicans near Maghera, county Derry, when Sinn Feiners raided the barracks there yesterday, and seized rifles, bombs and ammunition.

Lines of communication have been cut in several of the southern counties. Ulster is preparing to take retaliatory measures.

## TOO LATE TO CLASSIFY.

FOR RENT—Office room next to Dr. Gregg in Citizens Bank building. See Mrs. Henry Provost. 168-3

LOST—Gold Eversharp, engraved "Glenn Inman." Return for reward to Darling Studio. 168-3
