GOLD-BEARING QUARTZ FOUND IN NEVADA CITY AUTO CAMP

NEVADA CITY, Calif., March 25.—Workmen excavating in the public auto park in this city Wednesday, uncovered a quartz ledge about three feet in width.

A mill test made of a quantity of rock broken from the ledge assayed \$10.25 per ton in gold. The ledge was plainly traced for some distance and disappears into the hillside in the residence section of that city.

A living spring of clear, pure water was also developed. This water undoubtedly comes from the walls of the quartz ledge. It will be utilized in furnishing cold water for campers at the auto park during the coming season.

DEMPSEY AND KEARNS MADE DEFENDANTS IN BIG SUIT

LOS ANGELES, March 25.—Jack Dempsey, heavyweight champion of the world, and Jack Kearns, his manager, were made defendants in a suit for \$100,000 damages, based on alleged breach of contract, that was filed Thursday by Alexander Pantages, proprietor of a chain of vaudeville theaters.

Pantages charged that Dempsey, after filling an engagement in Los Angeles, refused to continue his tour, which was to have been for 20 weeks, but left for the east and in Boston appeared at a rival theater. He asked \$60,000 as the profits he said he would have received had Dempsey filled his alleged contract, and \$40,000 for the publicity which he declared the champion's appearances at his theaters would have produced.

HERE IS WHAT SOLDIERS' BONUS MEASURE PROVIDES

WASHINGTON, March 25.—As passed by the house Wednesday, the soldiers' bonus bill would provide for immediate cash payments to veterans whose adjusted service pay would not exceed \$50, and would give to other veterans the option of these four plans:

Adjusted service certificates, with provisions authorizing loans by banks in the first three years after next October first, and by the government thereafter; the certificates to run for 20 years and to have a face value at maturity of the amount of the adjusted service credit at the rate of \$1 a day for domestic service and \$1.25 a day for foreign service, increased by 25 per cent, plus interest at the rate of 4 1/2 per cent compounded annually.

Vocational training aid after January 1, 1923, at the rate of \$1.75 a day, the total payments not to exceed, however, 140 per cent of the adjusted service credit.

Farm and home aid under which veterans purchase or improve farms or homes would be paid after July 1, 1923, a sum equal to their adjusted service credit.

HELP WAS URGENTLY NEEDED

Darkly Evidently Had Troubles of His Own With That "Possum" His Partner Shook Down.

Two negroes, Salvation Jones and King Agrippa Johnson, living near the dismal swamp went possum hunting one dark night. A warm trail was struck, and the dogs soon "treed" Salvation, being the better climber, volunteered to go up and shake down the possum, whereupon King Agrippa made ready to catch it in the sack they took along for that purpose.

Instead of an opossum, the dogs had treed a wildcat. As Salvation made his way to the topmost branches the animal retreated still farther out on the overhanging limbs, and emitted an angry snarl.

"Huh? How's dat?" exclaimed Salvation. "Never heard no 'Possum talk lak dat befo'!"

"Go on, Salvation. Yo' ain't hearn nothin' but de dogs. Shake him loose! I'se waitin'," urged King Agrippa.

Climbing a little farther out, Salvation gave the limb a mighty shake and dislodged the wildcat. Suddenly a chorus of yells, howls, screeches and cuss words broke loose from below.

STRANGE MONSTER IN AFRICA

English Scientist Tells of Creature Which He Thinks May Have Been Giant Python.

F. C. Cornell, Fellow of the Royal Geographical society, who recently returned to England after spending twenty years in practically unknown parts of South Africa, is author of a story about an unknown monster that had been seen near the Great falls of the Orange river. It has a huge head and a neck ten feet long like a bending tree. It seizes the native cattle and drags them under water. The natives call it "Kymman" or the Great Thing. Last May Mr. Cornell, accompanied by two white companions, W. H. Brown and N. B. Way of Capetown, and three Hottentots, went to the junction of the Oub and Orange rivers to see the monster if possible. He writes: "At the cries of the natives I saw something black, huge, and sinuous swimming rapidly against the current in the swirling rapids. The monster kept its enormous body under water, but the neck was plainly visible. The monster may have been a very gigantic python, but if it was it was of an incredible size. This reptile may have lived for hundreds of years. Pythons approaching it in size have been said to have lived that long."

Last Feeling of Satisfaction.

Postmaster Chance told the Kiwanis club last week how he took an examination to get his first promotion in government service.

He entered as a messenger. One day he happened to look into a room and saw about thirty people bending over tables.

"What are they doing?" he asked. "They are taking an examination for promotion," he was told. "Don't you want to try?"

If they were trying to play a joke on M. O. Chance of Illinois he called their bluff.

He went in, took the examination and later was told that he was the only one promoted.

"I tell you, I felt pretty proud," declared Postmaster Chance, recalling the time, "until they told me that the others had taken the examination for promotion to \$1,000 and that I had been the only one to take the examination for promotion to \$1,000."—Washington Star.

Eddie Knew!

Eddie is a high school freshe. He is enthusiastic over sports, and, with his father, has witnessed practically all of the wrestling matches held recently in Indianapolis. His teacher had urged the pupils to attend at least one of the Shakespearean plays scheduled at a local theater, and finally asked whether any of the pupils had ever seen Robert Mantell.

"Yes," put in Eddie without a moment's hesitation, as he recalled the name of Al Mantell, a noted wrestler. "I saw him wrestle Jack Reynolds."

The sally was good for a big laugh at his expense.—Indianapolis News.

Stung But Rewarded.

Patrons of a Long Island telephone line complained of a buzzing on the wires and a trouble hunter was sent out to locate the difficulty. He located it and he did something else, for he found that a swarm of bees had made a hive in the connection box on a telephone pole. The trouble hunter worked for hours and finally routed the bees with a fire extinguisher. He was badly stung, but he was rewarded by ten pounds of honey stored in the connection box.

Takes City Directory's Place.

How the telephone book is displacing the directory is illustrated by complaints in Brooklyn, which has no city directory now, that it is hard to find the address of persons living there unless they have a telephone. Of course everybody of consequence ought to have telephone service now, but all of those who can't are of consequence to themselves, and many of them are of consequence to others. Moral: Live out in the country, where everybody knows you.—Boston Daily Globe.

warehouse built on a street near the foot of First street. The building is about 60 by 100 feet and about 20 feet high at the eaves and 40 feet at the comb. The entire floor is laid with two-inch lumber and will be suitable to store any kind of material found in a feed store. The entire height of the building can be utilized for storage space as only the necessary beams and supports are in the building. The rear of the building extends to the railroad siding, and an opening to the rear affords opportunity to unload cars directly into the warehouse. The front of the building stands flush with the street, so that a truck may load or unload into the building with the least possible inconvenience. The building is well under way, the studding for the sides and the beams for the roof are now in place, and some six or eight men are employed on the job.

A Recipe for Making Washday a Two Hour Pleasure

Probably, through long experience, you have learned to look ahead to washday as a ten or fifteen hour ordeal.

We can teach you how to make it a two hour pleasure. Our Family Laundry Service list he recipe. We wash all your things, and iron many—leaving to you only the ironing of a few of the lighter pieces.

This, you will see, is a sort of co-operative laundry service. And the cost is very moderate.

Our driver takes up your family bundle in the usual way at a set hour each week. We sort everything, and wash each article specially in a particular class—table linens only with table linens, colored goods only with colored goods, and so forth.

Next the whole wash is dried in way that makes it as sweet as if it had been bathed in spring sunshine. The flat pieces, like towels, bed clothes and table linens, we iron. Many of the undergarments we dry so nicely that they need no ironing. Other garments, like your own skirts and the children's clothes, we starch and leave for you to iron at home when you have an hour or so to spare.

In a word we transform the work of washday into a two-hour pleasure for you. You will be surprised, too, at the extreme reasonableness of the cost.

Large numbers of housewives already use our service. It will please you as much. Telephone and we will have our driver call for your family washing.
