**What Do You Know About Neuritis?**

**DO YOU KNOW**

- that Neuritis means "nerve inflammation"?
- that Neuritis, like influenza, does not affect every one in the same way?
- that many of the severe pains commonly attributed to rheumatism are in reality caused by inflamed nerves (Neuritis?)
- that neuralgia, lumbago and sciatica are forms of Neuritis?
- that pains in the back of the head and along the spine are frequently an early indication of Neuritis?
- that hysteria, despondency and other mental disorders are often associated with Neuritis?
- that numbness, loss of muscular control and muscular atrophy are symptoms of Neuritis?
- that crawling and tingling sensations, and chronic hot or cold areas are fore-runners of Neuritis?
- that Neuritis is a fore-runner of paralysis?

**AND DO YOU KNOW**

- that it is wiser to treat Neuritis in its early stages than to wait until it has a strangle-hold on your system?
- that Neuritis responds better to spinal manipulations in connection with spinal adjustments, than to any other treatment known today?
- that Dr. Maud Ingersoll Hawley is specializing in Neuritis cases?
- that she treats patients in their own home?
- that she will not take a case unless she believes she can get the desired results?
- that one need not fear spinal treatments?
- that Dr. Hawley uses a natural muscle-relaxing method in connection with all her spinal adjustments?
- and that she guarantees her treatments to be painless?
