The occasion of the visit was to celebrate the birthday of the two brothers, which fall on the same date, although they are not twins. The Carters enjoyed a very pleasant day together.

THE WEARY WAY Daily Becoming Less Wearisome to Many in Ashland With a back that aches all day. With rest disturbed at night. Annoying urinary disorders. 'Tis a weary way, indeed. Doan's Kidney Pills are especially for kidney trouble. Are endorsed by Ashland citizens. Mrs. A. Sherard, 881 East Main street, Ashland, says: "I can recommend Doan's Kidney Pills from experience for I know they do all that is claimed for them. I had a lame, aching back that kept me feeling miserable all the time. My work tired me easily and I had frequent headaches. My kidneys acted too frequently, too. Doan's Kidney Pills bought at Poley & Elhart's drug store, helped me wonderfully by relieving the backaches and regulating my kidneys." Price, 60 cents, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Sherard had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 33

How to Make A Radio Set

By WM. G. H. FINCH Associate Member Institute of Radio Engineers (Written for International News Service.)

NEW YORK, April 10.—One of the greatest distinctions that can come to the radio fan is that of holding a government license, and one of the requirements for a first-grade amateur license is that of being able to transmit and receive ten words per minute of code, each word averaging five letters. Believe me, fellows, you get a real thrill when you obtain this highly prized "piece of paper." It is well worth the effort. If you are only listening to telephone broadcasts you are missing the real "thrill of radio." There are countless press dispatches and other news items sent in code.

The writer mentioned in the first article the great advances made by the American radio amateur, and how our government recognized their worth, allowing the liberal use of radio, thus encouraging experiment-

tal and development work. It is only fair that the experimenter offer something in return, and this can be done by making yourself familiar enough with the care and operation of radio apparatus in addition to being able to read code to such an extent that you can qualify for a government license.

Amateurs Advance Radio It is well to bear in mind that the class of amateurs or private experimenters who have made many advances and patient contributions to the radio art are those who hold licenses, and it is from this class that the government was able to draw a great number of radio instructors for war work. There was not a unit of our military forces that did not have among its members at least one radio amateur. Major-General Squire of the army, on numerous occasions, has given credit to the amateur. The easiest way to learn code is by use of a telegraph key, buzzer, receivers and battery, and connect as shown in yesterday's column for the detector test. Replace the push button with telegraph key, which may be purchased from any electrical store for less than a dollar. Do not make the mistake of memorizing the code and attempt to read the code that way. The proper and only way is to learn the code by sound, i. e., a dot will sound like "de," and a dash "da." It will require patience and practice, depending of course upon the individual, but it is well worth the effort.

INTERNATIONAL MORSE CODE table with letters A-Z and their corresponding Morse code symbols.
