Why the \$10.90 USCO is better than just a \$10.00 tire. In November 10, 1921, the 30 x 3 1/2 "USCO" was marked to sell for \$10.90. This odd and closely figured price was the lowest quotation ever made on any tire of known standards. A genuine pioneering step by the makers of U. S. Tires. Now comes a lot of different \$10.90 tires being rushed into the market. "Special" tires. "New" treads. Unfamiliar to look at—with perhaps an atmosphere of having been made to meet the price. But the "USCO" still occupies a place by itself. A good old standby on millions of cars for years. Better than it ever was. Still putting the emphasis on honest quality, even if it does sell for only ten dollars and ninety cents. The \$10.90 tire with the record of a proven product. The tire that people still buy for the dignity of its quality regardless of the low amount they pay. \$10.90 Read the message above United States Tires are Good Tires United States Tires United States Rubber Company
