MACHINERY ARRIVES

FOR SHOE REPAIRING

The shoe repairing outfit for the shop that will soon be opened on East Main street arrived Wednesday and is being installed by the owners, W. L. Chapin and Charles Inman. The equipment is manufactured by the Champion Machinery company and is of the "Peerless" type. The new shop will be run under the name of the Peerless Shoe Shop.

"It gives us great pleasure to give praise where it is due, and we think your Cylcol worthy of mention. Your salesman called on us several times to interest us in trying Cylcol, but we did not pay much attention to it, until we were repeatedly asked for Cylcol by our customers and at last were forced to put it in to satisfy the demand."

BILTWELL GARAGE
Sacramento

Why his customers demanded Cylcol

There must be some unusual reason why so many discriminating engine owners are demanding Cylcol. The reason is because Cylcol is more durable in use and gives more efficient lubrication—proved by performance in the motor.

This is because Cylcol is made by the new Hexeon Process, used exclusively by us. This process is a scientific oil refining development, perfected after intensive research and experimenting. It solves the problem which lubricating oil scientists have for years tried to solve. It economically removes destructive "sulpho" compounds which cause ordinary motor oils to break down and thin out rapidly under engine heat. They are the power wasters—the money wasters in motor oils.

The advantages gained by using Cylcol are evident in the better performance of the motor, the savings in oil and

fuel, and economies in maintenance. Because Cylcol is free from destructive "sulpho" compounds.

There is a grade of Cylcol to correctly lubricate your engine. It is specified on the Cylcol Lubrication Chart. Cylcol will mix with other oils, but it is advisable to use it exclusively. Drain out the old oil. Pour in two quarts of the grade of motor oil specified on the Chart (not kerosene or so-called "flushing oils"). Run the motor for five minutes. Drain and refill with the correct grade of Cylcol Motor Oil.

The difference in your motor's performance and in upkeep costs will tell you why the demand for Cylcol is increasing. To be sure of getting Cylcol—buy from the dealer who shows the Cylcol sign.
