Our treat—come and get some good things to eat

A good housewife won't take anybody's word about an article as important as an oil cook stove.

She wants to see for herself how it works and what sort of results it gives.

We don't blame her. She is right.

That is why we are demonstrating the Florence Oil Cook Stove in our window.

An expert cook is doing all sorts of cooking right before your eyes and serving everything she cooks so you can judge the results.

Every good housekeeper will be interested and should make it a point to see this demonstration.

All this week.

The Boy Who Started to Town With a Hundred Dollars

The advice they gave him for getting on in the world was simple and familiar enough: "Keep what you have, and build on it. Be careful what you do and it will grow into more."

It's a safe rule—with money or health, but a good many overlook the rule with health, until they have lost what they had. Then it's hard to get a new supply.

Postum is a splendid help in saving health from the very common losses through the drug elements of tea and coffee—whose effects on the nervous system any doctor can tell you.

Thousands of people who think it wise to be as careful of their health as they are of their dollars are users of Postum. They find this famous cereal beverage a delightful drink with any meal,

and it's free from any disturbing element.

You can begin with Postum today, with an order to your grocer. The road to health is a good road for anybody to follow. "Save what you have, and build on it," is sound policy for everybody.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Sold by all grocers.

The Cost of Rotting Buildings now running into millions

A ROTTING building is also a waste, because a small investment in paint will save it. A building that is not protected by paint must either be rebuilt or repaired in a few years at a costly figure.

Check the costs. Compare the prices of paint and lumber. Can you afford to bear the expense of rebuilding or repairing your home, when to save it costs so little?

When you paint, make an additional saving by using the best paint. It spreads easily—saves labor cost. It covers more surface per gallon than "cheap" paint.

But more important, the best paint serves five or more years longer than "cheap" paint.

The best paints are scientific in formula and preparation. We've been making them for 73 years.

The best materials—PIONEER WHITE LEAD, pure linseed oil, pure zinc, and pure colors—are combined in Fuller's Paints in scientifically exact proportions with long-time skill.
