Garden tools, hose, and new and used sewing machines all on hand.

Indicted Illinois Governor Gets Another Postponment

Governor Len Small.

WAUKEGAN, Ill., April 19.—Governor Len Small was to have gone on trial before Judge Claire C. Edwards in circuit court here yesterday, charged with conspiring to embezzle state funds.
All preparations had been made to start the trial, which, for one reason and another, has been postponed from time to time for months, when Small's attorneys started the court with another plea for postponement until next Monday to prepare in circuit court here yesterday, a stipulation for documentary evidence which would shorten the trial a month. The plea was granted and the week's delay will permit the governor to be present in Springfield during the republican convention on Friday.

This is Michael Collins, the head of the Irish provisional government, whose kidnapping was narrowly frustrated on Easter morning, when he escaped the machinations of the rebels. It was their intention of holding him until they had been able to convert the Free Staters to their belief in an Irish republic. The head of the Free Staters, despite the activities in which he has been and is still engaged, has found time to go courting, and is engaged to marry Miss Kitty Kieran. Their wedding was to have taken place at Easter.

STOP!
AT
Hotel Vendome
for a real place to eat. Home cooked meals served family style. Breakfast to order. Regular dinner, 50 cents. Sunday chicken dinner, 75 cents. Just across from Library—425 East Main St.
MR. and MRS. HUDNELL, Props.

COLORING ORANGES
Certain varieties of oranges become ripe for eating several weeks before their skins turn yellow. No one will buy them while they are still green, so the arange grower hurries up the coloring process by exposing the fruit to the action of certain gases, which turn the skin an attractive yellow without harming the fruit.

WATCH OUT FOR PEAR SCAB!
IT'S TIME TO SPRAY NOW
Pear buds are now in a stage suitable for the application of the "pink" spray which is used to control scab. In sections where scab has been found in previous years, liquid lime sulphur at the rate of one gallon to 25 gallons of water, or dry lime sulphur, four pounds to 50 gallons of water, should be applied between now and the time the pear buds begin to blossom out. There are some sections of the valley which will not need this application and growers who are in doubt should confer with the county pathologist at an early date.
Dormant spraying on apples with full strength lime sulphur can be continued for another week or more and the apple scab spray will not be needed for at least two weeks. For the control of scab this "pink" spray is the most important application, and if it is neglected, it will be very difficult to control scab with the later sprays.

HARRY HUNTER
A Tale and a Moral
Harry Hunter was wise. He never traveled with a tenderfoot crowd, and generally picked a national forest for his hunting ground. As a consequence he always bagged his game and acquired a wide reputation as a "real woodsman."
"A five pointer for mine," said Harry one hot August day. So he bought ammunition, oiled up his gun, collected his simple camp outfit and slipped away one night for the mountains. There he talked with the forest rangers from whom he got maps and his campfire permit, and finally made camp beside a little spring in the midst of a fire forest.
"It's an early bird that catches the worm," mused Harry Hunter. "So tomorrow I'll leave camp before daylight and by dark I'll be back with the buck."
And he was—but his camp had disappeared. In its place was a heap of smoking embers, and all around a raging forest fire. For Harry, wise woodsman that he was, had been careless. With his mind all set

for the buck, he had "forgotten" that water and dirt, used in time, make a camp fire safe.
But he'll remember next time. For he had to fight fire for a week, the ranger ate most of his meat, the judge waxed sarcastic as he imposed a \$50 fine, and a lumber company, whose timber had been destroyed, entered suit for damages.
"The bigger they are the harder they fall," murmured sympathetic friends when news of Harry's troubles reached home.
Moral—It's a wise man who remembers in time.

unpaid for Thursday night will be
Resold Friday

Painted Floors
Saves Housework

Bare wood floors, especially kitchen floors, require much back-breaking work, scrubbing, to keep them clean. Acme Quality Floor Paint makes this unnecessary. It forms a smooth, hard, non-absorbent surface from which dirt and grime can be easily wiped off. It protects and saves the surface.

ACME QUALITY
FLOOR PAINT (Granite)

is easy to apply. It is inexpensive—a quart is enough for one coat on the average kitchen floor.
Dries quickly and withstands the severe wear to which floors are subjected. Furnished in attractive colors.
Sample color cards on request.

Swenson, McRae Furniture Co.
