Beads, Jet Girdles, Flowing Sleeves, Among Embellishments That Adorn These Garments.

Among the newest offerings in blouses are smart tunic blouses that fall almost to the ankles. Other chic over-blouses drop just to the hips, and there are clever little blouses that hide themselves inside the skirt band. One does not see so many blouses this season as formerly, but the selection at the shops is even more elaborate.

For formal afternoon occasions, there is a long tunic blouse of Spanish lace, with wrist length flowing sleeves plotted at the bottom. The lower section of the blouse is split almost up to the hips, and all the edges are plotted. A slim jet girdle looped at the side lends becoming fullness at a low waistline. One needs only to complete this attractive blouse with a slip of black canton crepe, or she might attempt a colored slip, such as tangerine or midnight blue.

An imported blouse is fashioned of henna georgette elaborately embroidered in fine steel beads. It is a simple slip-on affair with the oval neck so fashionable this season. Short kimono sleeves are banded with a clever design of the steel beads, and across the front of the blouse great motifs are spread. A sash of plain henna georgette is tied in the back.

A blouse similar to this comes in steel gray georgette with the head trimming and is unusually smart worn with a suit of Harding blue duvetyn. Black georgette beaded in the finest gold beads will find a welcome in the wardrobe of the woman who likes something a bit different. A long, loose unbelted blouse, completed by an accordion platted skirt of crepe makes an interesting costume.

Another type of blouse distinctive for use with a tailored suit is of natural pongee silk, with contrasting pipings in either red, green, brown or blue silk. A few tucks, and a round collar, cut in square scallops with cuffs and a plenum to match are noticeable features. The scallops are piped in the contrasting silk, and a string tie finishes the neck.

THE TWEED DRESS AND CAPE

This season presents a tweed dress and cape which promises to rival the ever popular tweed suit. This model is distinguished by the binding of lacquered ribbon. The semi-sport hat is embroidered in colors.

THE UMBRELLAS FOR SPRING

Not Much Change in Style; Favorite Colors Are Brown, Navy, Red Purple, Green.

Very little new is being shown in the spring lines of umbrellas. Some new patented features, such as removable covers, folding handles, etc., are furnishing talking points, but the colored silk umbrella with a matching or harmonizing pyroxylin handle and flat carrying strap or thong is in greatest demand. The colors are the usual street shades, such as brown, navy, red, purple and green.

A novel feature in men's umbrellas is the introduction this season of colors, says Dry Goods Economist. A London smoke, dark brown and hunter's green are all being shown in men's umbrellas. As to whether these will become popular is still a question, but men wear soft hats in these colors and there is reason to believe they will carry umbrellas in these very dark tones.

Children's lines continue to grow in variety and also popularity.

Flower Design.
This spring one of the effects repeated in frocks is the conventionalized flower, a tulip border appearing in black on a pale tan ground and a design of lilies of the valley decorating the wide sleeve and sash of a black chiffon and crepe frock.

Tamales, home made, the real thing. Plaza Confectionery. 195-1

Makes Trip up Canyon—
T. L. Powell, the transfer man, took a small load of things to Sappan-Salt-in-the-Woods yesterday, for Bert Moses, who accompanied him. Mr. Powell found the trip a difficult one, but arrived at the cabin without a great deal of trouble. The ground around the cabin was very muddy and he had a hard time turning around. On the return trip the road was blocked by a slide which occurred after the upward trip, and Powell had to shovel his way through it. He reports very little snow on the road.

Dew Drop Inn—for lunches.

Better than ever. Kingsbury Springs dance, Saturday night. 195-4

THIS MAP SHOWS THE PRINCIPAL RADIO BROADCASTING STATIONS IN THE UNITED STATES.

By WM. G. H. FINCH
Associate Member Institute of Radio Engineers

NEW YORK, April 20.—After considerable effort we are able today to publish a complete list of radio telephone broadcasting stations of the United States, which have been licensed up to and including April 1, 1922. The map shows the principal stations.

Due to lack of space we are unable to publish the complete data concerning each station and we have had to omit the wave length, station owner and street addresses, as furnished us by the department of commerce, bureau of navigation, radio service.

The majority of these stations are operating from a 200 to a 365 metre wave length. While a number of them have not a regular schedule of operation, we are safe in saying the majority are broadcasting between 7 and 10:30 p. m. every day.
