SERVICE STATIONS

Not only because they represent the aeme of perfection in the Storage Battery field, not only because they have linked their names with that of a concern that has held the confidence of a nation for more than half a century—

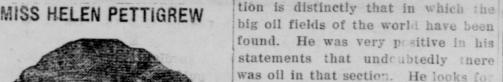

Nor, even because under the guarantee covering the product they handle (they are selling a year and a half of assured battery satisfaction to their customers)-rather than merely a storage battery. But, because the advantageous circumstances surrounding their connection gives them greater opportunities and manifold benefits than other battery service stations enjoy.

Because, Westinghouse, welding its service stations into one great service organization is able to stand squarely behind each individual member, cooperate with him in the development of his business-and carry him to the success which must come, when identified with so powerful an organization.

There is a wonderful opportunity for some aggressive dealer in this territory to enjoy the benefits of the Westinghouse franchise; write, wire or phone at our expense for information.

PROTEIN is the essential factor in determining values of feeding-stuffs. Protein makes milk. Reckon fat as energy values. Fibre is waste. Therefore, buy protein and fat. The above table shows that ALBERS DAIRY FEED gives greater feeding values. A moderate amount of fibre is necessary to give bulk or to act in keeping the meals apart.
