MAJ. MALCOLM W. NICHOLSON

Maj. Malcolm Wheeler Nicholson from Fort Ethan Allen, N. J., in a letter to the President said that the army was being Prussianized, officers being commissioned through political motives rather than merit, and claims he can prove it. The major is now in trouble owing to the fact that he went over his superior officers in addressing the President directly.

Klamath Falls Stage EXPECTS TO START SOON—The Howard stage line to Klamath Falls expects to start operations Tuesday, if the present weather continues and no further snow flurries put in an appearance on the top of the mountains. The trip will be made by Klamath Hot Springs for the present, as the Green Springs Mountain road still has a heavy coat of snow. Without further snow, it will probably be three weeks before it will be possible to go over this road with a loaded car.

REDDING HAS PROMISE OF NEW RAILROAD DEPOT—REDDING, Calif., April 24.—The chamber of commerce committee that went to San Francisco early in the week to urge upon Southern Pacific officials the building of a new passenger station for Redding has returned with high hopes. General Manager J. H. Dyer agreed to recommend the new passenger station to the executive committee which has to pass on all such matters.

DEMPSEY MAY MEET MARTIN IN BROOKLYN ON LABOR DAY—TERRA ALTA, W. Va., April 24.—Jack Dempsey, heavyweight champion pugilist of the world, and Bob Martin of Terra Alta, heavyweight champion of the A. E. F., will meet in a bout at Ebbetts Field, Brooklyn, N. Y., on Labor day, in event Martin defeats Bob Roper and Bill Brennan before that time. This is according to Dr. S. M. Scott Jr., an intimate friend of the soldier boxer.

HEAVY TAXPAYER FINED FOR RUNNING TRACTOR ON ROAD—PENDLETON, Or., April 24.—Farmers of Umatilla county have protested the arrest of Herman Rosenberg, farmer of Pendleton, who was placed under bonds by the justice court for driving his tractor over a paved highway. An indignation meeting was held and it is planned to have the farmers call in a body on the state highway commission next week, when it is in Pendleton, to obtain a ruling allowing farmers to run tractors over the highways, for which they pay heavy taxes.

HAY PRICES ARE DOUBLED—LA GRANDE, Or., April 24.—The price of hay has increased greatly during the past few weeks because of the late spring. Where a price of \$4 a ton in the stack was offered five months ago, hay is now selling for \$8 to \$10 a ton. Baled hay is being sold by farmers at \$18 a ton f. o. b. cars.

WOMEN REFUSE JURY DUTY IN UMATILLA COUNTY—PENDLETON, Or., April 24.—Woman jury service as provided in the new jury law is proving expensive in Umatilla county, with Circuit Judge Phelps finding that he had to order a fourth jury panel drawn on account of the refusal of women to serve. Twenty-five of the 28 women served by the sheriff have taken advantage of the optional law to refuse service.

Moves in Home Here—Amos Dahuff and family, who have been living in Grants Pass for some time, have moved back to Ashland, and are occupying their home on Palm avenue. Mrs. E. O. Smith, the wife of the well-known poultryman of Ashland, is the daughter of Mr. and Mrs. Dahuff.

GOING NATURE "ONE BETTER"

Man Has Been Engaged in Work of Altering Domestic Animals for Many Centuries.

What a curious thing it is to realize that a St. Bernard, a Pekinese, and a Sky terrier all three come from a common wild stock! Man has been altering domestic animals of every kind for centuries past. He has taken the common pigeon and invented something like 60 distinct varieties, while hundreds of different sorts of fowls have come from the original jungle bird of Ceylon. Curious experiments have been made in coloring birds by feeding them on certain foods. One man obtained pigeons of a beautiful red by putting in their food a chemical with the terrible name of "methyltrabromo fluorescein," and he got others of a rich blue by similar means.

Man is changing not only animals and birds, but also fish and insects. Take bees, for instance. Of course, various species of bees are constantly crossed in order to get kinds that will produce a bee which shall be more useful for fertilizing flowers than any of the present sorts. With object, certain breeders are trying to produce a bee with a longer tongue than any possess at present. For flowers like clover such a bee would be invaluable, since the result would be a great increase of fertile flowers, and, consequently, seed. The latest branch of creation which man is tackling with a view to modifying is fish. The experiments were begun at the University of Chicago, about five years ago.

NEVER LINCOLN'S REAL LOVE

His Marriage With Mary Todd Seems to Have Been Largely Matter of Convenience.

Mary Todd, wife of Abraham Lincoln, was the sort of woman who is described as "capable and upright." Lincoln, it is testified by biographers, was not deeply in love with Mary, either before or after their marriage. As a matter of fact, his heart was buried in the grave of his first love, and he had proposed marriage to a second and unwilling young woman. By the time he married Mary Todd who was neither beautiful nor gracious, he had come to regard marriage as a necessity rather than as the ultimate result of love and romance. Their courtship was long and suffered many bumps and separations before it culminated in marriage. When Lincoln first met Miss Todd she was only sixteen years old and was being courted by Stephen Douglas, the great man's rival in many things.

Lincoln had suggested in a rather offhand way that he would marry her. Apparently regret set in rather soon, for he made several attempts to gracefully withdraw from the compact. But Mary, with prophetic vision, had an idea that he would one day reach the White House and she was determined to be his mistress.

"Kidnap" Camera—When you inquire about the big camera the station photographer uses in taking the 1 1/4-inch square photographs for the 50-trip family ticket he says, "Oh, it is a special one we invented years ago for kidnaping."

Furs—Trapping is being carried on more extensively this season than for the last ten years, and the catch is abnormal, reports the manager of the Winnipeg Fur Auction Sales company. Economic laws work as rigidly in the far north as elsewhere. A shortage of any commodity runs prices up. Then high prices lure larger production. With the supply increased, price slumps. Then production falls off.

He Found Himself—The marine had tumbled off a motorcycle, and he was dead to the world when they carried him to the hospital. The next morning he woke up just as the doctor came around to see how the patient was getting along.

The Youngest Soldier Killed—Representative Isaac Sigel, of New York, recently made claim in the house of representatives that Albert Cohen, whose parents now live in Memphis, Tenn., was the youngest soldier to be killed in action in France. He was killed in action on October 5, 1918, while serving with the 26th infantry. At the time of his enlistment he was thirteen years and six months old.

EARLY MORNING BLAZE DESTROYS RANCH BARN

Early Sunday morning fire completely destroyed a barn on the Albert Johnson fruit ranch at the corner of Maple and Chestnut streets. Two sets of double harness, four tons of hay, two gas engines, a mower, a buggy and half a ton of barley were also lost in the fire. One set of harness and the buggy belonged to Mr. Bechtel, an employe of Mr. Johnson. The barn was in the middle of a cherry orchard, and 20 or 25 trees were so badly damaged by the heat from the fire that they will not bear this year, Mr. Johnson says, and considers this a greater loss than the barn and all its contents. Two horses, which were in the barn, were rescued by Mr. Oliver, a neighbor, who was the first to see the blaze, and rushed to the barn. He saved the animals from the blazing structure only with the greatest difficulty. Insurance in the sum of \$500 was carried on the barn, but no insurance was carried on the contents. The total approximate loss is about \$1500. It is not known how the fire was started, but it is presumed some tramps had spent the night there, and let a match or the ashes from a cigarette or pipe fall on the hay.
