STRIKERS ARE RETURNING TO WORK IN MILLS

BOX FACTORIES HAVE RESUMED OPERATIONS ON A NINE-HOUR BASIS

Report That Union Men Have Practically Given Up the Fight and That Klamath Falls Factories Will Start Operations Next Week.

DORRIS, Calif., May 9.—The strike of box factory workers which has paralyzed the lumber industry here since March 1, ended with the resumption of operations today by the Associated Lumber & Box company and the Dorris Lumber & Box company plants.

The end of the strike was unanimously voted Saturday evening by the strikers, following a meeting attended by citizens, operators and strikers.

About forty men are working today, but it is believed the plants soon will be operating at capacity when the former employes who left this region when the strike was called, return.

The ending of the strike is taken to mean that the local strikers, who became members of the International Timberworkers' union at the outset of the strike, have given up the fight as a hopeless proposition, and relinquished all connection with the Klamath Falls labor organization.

TEDDIE PROVOST DROPPED DEAD AT BREAKFAST TABLE

Theodore Provost, a well-known Ashland man, dropped dead this morning at 5 o'clock while eating breakfast at Dunsuir, where he has been employed for the last two months.

He had written to a sister in Ashland about two weeks ago, stating that he had been very sick, but had recovered and was all right at that time, and it seems no direct word as to the state of his health had come to his relatives since that time.

Mr. Provost was born in Montreal, Canada, in October of 1882, and came to Ashland with his parents about 20 years ago, and has lived here since that time.

Funeral arrangements have not been completed. Henry Provost, who is living at Weed, Calif., has gone to Dunsuir and will bring the body to Ashland, where it will be laid to rest in the family lot in the Ashland cemetery.

In Ashland's Auto Camp

The past two days have demonstrated fully the absolute necessity of a large community house, centrally located, in the auto camp grounds. It is needed early in the season and also in the fall, when the weather is cool.

In addition to all the modern conveniences it should have a stage where band concerts, picture shows and amateur plays could be given. There must be the radiating cheer of a large open fireplace.

A war of extermination is planned by the ranchers as it is feared that if they get into the fields and orchards, their entire crops will be ruined.

CHINESE AMERICAN WEDDING IS HELD TO BE ILLEGAL

SAN FRANCISCO, May 9.—The marriage of Miss Ruth Ames, American girl, to Sam Lee, Chinese room owner of Auburn, Placer county, performed by the captain of a launch the couple engaged to take them beyond the three mile limit off the Golden Gate last week, is not worth the price of hiring the boat, in the eyes of the law.

Prendergast holds that as both parties to the marriage are citizens of California, where the law bars inter-racial weddings, their trip beyond the three-mile limit was manifestly to evade the law. He declares the supreme court ruled to that effect on a similar marriage performed off San Pedro in 1898.

LARGE CLASS TO GRADUATE FROM LOCAL HI SCHOOL

It is the opinion of some people that Ashland is not growing these days, but a look through the schools would convince the most obstinate doubter that the city is growing by leaps and bounds.

The high school is growing equally as fast as the grade schools, the assembly room now being almost full to capacity. The largest graduating class from the high school previous to this year was 53 in the spring of 1920. This year will see an increase of nearly one-third over that year, there being a total of 74 graduates on the roster as it is now made up, though it may be short of this number at graduation time as some of the students must make up a few points before the end of the semester in order to complete the course.

Following is a complete list of the graduates:
