Fraternal Orders and Societies
 Advertising for fraternal orders or societies charging a regular initiation fee and dues, no discount. Religious and benevolent orders will be charged the regular rate for all advertising when an admission or other charge is made.

What Constitutes Advertising
 In order to allay a misunderstanding among some as to what constitutes news and what advertising, we print this very simple rule, which is used by newspapers to differentiate between them: "ALL future events, where an admission charge is made or a collection is taken IS ADVERTISING." This applies to organizations and societies of every kind as well as to individuals.

All reports of such activities after they have occurred is news.

Entered at the Ashland, Oregon, Postoffice as Second-class Mail Matter.

SOLOMONITES

THE FARMER

No time-clock day do I have,
 my son—
 I work and I work till my work is done!
 It's only the rain, or the wind and snow,
 That fix my hours, or the pace I go.—Farm Life.

It is hard to tell when the modern girl is frightened; she cannot turn pale.

Dr. Woodrow Wilson believes in making some of the boys take their medicine.

The best may slip, and the most cautious fall; he is more than mortal that never erred at all.

Faith, work and co-operation—these three, when harnessed to industry, cannot fail to bring continued prosperity.

The first day after the landing, the immigrant learns to change money; the second day he learns American slang; the third day he mounts a soap box and urges upon others their duty to "keep out the aliens."

When a man has lost interest in his work or finds greater interest in something else than his work, it is about time for him to change his vocation or his location, or both. The change may be voluntary or it may be forced.

THE NOVEMBER ISSUE

These are the halcyon days of hunting, throwing, roping and branding the "issue" that is to be led around later by a ring in its nose for exhibition to the voters at the election in November. Naming the issue is the favorite indoor sport of the moment. Senators are joining merrily in the pastime, the only trouble being that every time somebody puts his finger on an issue, and says, "Tag, you're it," some other fellow yaps and shouts, "Nothing doing!" It seems impossible to get near an agreement as to what the issue shall be.

The Hon. James Cox, still dazed by what hit him in November 1920, and believing that the people did not know what the issue really was at that time, thinks it's got to be the league of nations over again—making sure that the voters know what they are voting on next time. He is aided and abetted in his desire and demand by some republicans,

Jugo-Slav Tamburicans Coming to Chautauqua
 Most Unique Musical Organization of Native Musicians Feature Surprising Repertoire—Will Play on Varied Sizes of Native Tamburica

The Jugo-Slav Orchestra, playing their native Tamburicas, and singing the folk songs and melodies of their homeland, will charm Chautauqua folks with the intrinsic beauty of their music on the third day. The Tamburica combines the best qualities of the mandolin, guitar, ukelele and other similar instruments, yet it is surprisingly superior to all of them in beauty of tone and in volume. The young men play a half dozen sizes of the instrument, the largest of which is rather suggestive of the bass violin and the smallest is no larger than the Hawaiian "uke." A surprising repertoire is given, for the clever artists not only play all the native songs, but offer as well standard operatic numbers, symphonic arrangements together with the light popular numbers of the day.

but they are offset by shrewd democrats, who want no more of the issue that killed their hopes. Some republicans aver the issue will be economic, and some democrats assert it will be something the republicans may or may not do between now and the month of the election. Meanwhile W. J. Bryan is understood to be standing around ready to spring the Darwinian theory as the paramount issue at the psychological moment.

Perhaps, when the time arrives, the people themselves may take a hand in saying what the issue is to be. They have been watching the course of events rather closely the past year and some months, and are pretty well able to judge of the progress of events. They have seen a very long step taken in the direction of world disarmament under the auspices of the government at Washington, and they undoubtedly have formed or will form a very good idea of the general purposes and ability of the administration in steering the ship of state through this vexatious readjustment period. Voters may have some scores to settle with certain of their representatives, in one party and the other, on a special basis; generally speaking they are not going to be influenced extensively this year by hand-picked issues.

CHAPTER OF P. E. O. IS ORGANIZED HERE

On Saturday, May 20, the first chapter of P. E. O. sisterhood in Ashland, was organized at the home of Mrs. F. D. Wagner, by Mrs. Mary K. Logan of Portland, state organizer, assisted by Mrs. E. A. Moore, president of AA chapter of Medford. The organization of the Ashland group, AC chapter, was sponsored by the Medford sisterhood, whose officers were luncheon guests of the new chapter.

Members of the new chapter are: Mesdames Badger, Wagner, Briscoe, Hammond, Blake, Turner, Denton, Kinney, McCoy, Dodge, and the Misses Poley.

Saturday's session included organization of the new chapter, election, and installation of officers, and model meetings given by both the Medford and local chapters. The following officers were installed: Mrs. Stella Case Wagner, president; Mrs. Cordelia Grant Blake, vice-president; Miss Evangeline C. Poley, recording secretary; Miss Minnie Poley, corresponding secretary; Mrs. Emily M. Hammond, treasurer; Mrs. Mary M. Badger, chaplain; and Mrs. Agnes McCoy, guard. Mrs. F. D. Wagner was chosen delegate to the state convention being held in Portland this week, at which time AC chapter will receive its charter.

The fraternity colors, white and yellow, were used in decoration, and the same color scheme was followed in the luncheon, at which three P. E. O. daughters, Maragaret McCoy, Edith Dodge and Edith Hammond, served.

Medford guests from AA chapter were: Miss McKay, Mesdames E. A. Moore, E. E. Kelly, L. Williams, O. L. Harmon, Henry Smith, Aubrey Smith, L. F. Pickett, Love, Roberts and Tummy.

Even heat is provided throughout a new electric incubator by a fabric cover into which resistance wires are woven.

FARM REMINDERS

Home Garden Profitable
 The home garden should be the most valuable and productive quarter acre on the place, in the opinion of the Missouri experiment station in bulletin 193, entitled, "The Home Vegetable Garden as a Business Proposition." The authors base their claim on the returns from a quarter acre of vegetables owned by the college at Columbia, Mo.

County Agents Will Help
 When diseases and insect problems arise, it is a good practice to get in touch at once with the county agent as he is directly connected with the experiment station and is usually in a position to be of assistance without delay.

When to Cut Various Hays
 When intended for dairy cattle, clover hay should be cut at the time of full blossom or soon after. Vetch and oats are ready when the grains are in the early dough stage, while grasses may best be cut when in blossom or as soon afterwards as possible. After cutting, protect the hay from excessive bleaching, and the quality will be high.

Another Beetle Shows Up
 The Syneta leaf-beetle, a creamy white, medium sized insect sometimes having a blackish stripe down the back, is quite common in all fruit trees, where it feeds on foliage and blossoms. Lead arsenate sprays will control it, but should be used on stone fruits only where the pest is unusually bad, as there is considerable danger of spray burn. Young grafts or similar tender growths may be protected with cheese cloth coverings.

AWARDS FOR SPEED

GIVEN ASHLAND STUDENTS
 Each year the Underwood Typewriter company gives to the students of high schools over the United States, awards for speed and accuracy in typing. To earn recognition a pupil must write on new material furnished by the New York educational office for 15 consecutive minutes. All papers are marked in accordance with international contest rules. For every error ten words are taken from the gross. The first award is a solid bronze medal for 40 net words per minute. A bronze bar is added to this medal for each additional ten words made until 60 words per minute have been written.

Forty-seven certificates have been received by the Ashland high school students. Five of these students, Clara Will, Orlando Nelson, Edith Dodge, Isabelle Silver and Lenore Angell, received certificates after working only 18 weeks.

The following students received bronze medals and bars:
 Etha Abbott, 66 words; Maude Buck, 40; Katie Buchanan, 43; Lloyd Crowson, 42; Dorothy Christian, 45; Alma Doran, 54; Cleo Emigh, 46; Dorothy Frulan, 40; Bernice Flackus, 45; Ada Hunt, 42; Pearl Hodgkinson, 42; Opal Hoxsie, 49; Alta Jarvis, 44; Marguerita Moore, 42; Marjorie McElvaney, 63; Flora Putnam, 53; Fay Parker 41; Maxine Rose, 42; Mildred Stevens, 45; Clara Will, 44.

AUTO STOLEN AT MONTAGUE

FOUND ABANDONED HERE
 Victor Chevallier, traveling salesman, who arrived in the city by auto yesterday evening, reported to Night

Officer Wertz upon his arrival here that he had noticed a Dodge car that had apparently been abandoned near Steinman, as he came down the mountain. Officer Cary was sent to investigate and found that the car was the one that had been stolen from the postmaster at Montague, Calif., Saturday night. The car was found in practically as good condition as when it had been taken, with the exception that the brakes were completely worn out and all the gas had been used.

Sheriff Calkins of Siskiyou county was notified and came over last night and took the car back to Montague with him.

WEEKLY INDUSTRIAL REVIEW OF OREGON

May has found the country nearly back to normal. Building stimulated and lumber industry booming in all western states. Fruit sections are taking up surplus unemployed labor. Trade conditions better.

Portland gets charter for Oregon Washington link bank.

Oswego—Dutch Town road contract let for \$7989.

Roosevelt highway contract for \$146,557 let in Curry county.

Astoria Times to be revived by Owen A. Merrick.

Monmouth to have new Evangelical church.

Mt. Angel has opened a new cannery.

Drain to build \$18,000 water system.

Eugene gets \$60,000 telephone improvements.

Southern Pacific ballasting tracks in Lane and Douglas counties.

Six miles Jordan Valley-Nyassa road to be built.

St. Helens April lumber shipments totaled 14,000,000 feet.

Corvallis hatchery ships 50,000 baby chicks.

St. Helens crosscutting 8,000,000 feet of ties for San Diego.

Contract let for \$30,000 school building at Mitchell.

Wedderburn hatchery has 2,000,000 salmon.

Contract awarded for grading and macadamizing Myrtle Point-Coquille road.

Bend—17 homes and \$25,000

"ACUTE INDIGESTION CORRECTED BY INTERNAL BATHS"

Mr. Otto Drum, 27 Proctor St., Tacoma, Wash., writes Tyrrell's Hygienic Institute of New York as follows:
 "For a number of years I suffered with gas on the stomach and after using most every kind of medicine, a friend of mine convinced me that the only way I could be cured would be to use the 'J. B. L. Cascade' outfit, according to directions. I used it for about three weeks, and now I have been using it once a month and have never been troubled with gas. This was five years ago."
 "The 'J. B. L. Cascade' cleanses the lower intestine its entire length and keeps it always free of poisonous waste."
 Thousands testify that Constipation, Indigestion, Stomach Troubles, Biliousness, Headaches and all the many serious troubles which they cause are absolutely relieved and prevented by this Nature Treatment.
McNAIR BROS.
 will gladly explain to you the simple operation of the "J. B. L. Cascade" why it is so certain in its results, and will give you free of cost, an interesting little book containing the results of the experiences of Dr. Chas. A. Tyrrell of New York, who was a specialist on Intestinal Complaints for 25 years in that city. Why not cut this out as a reminder to get this book as soon as possible. Remember, please, it is free.

Masonic lodge under construction.
 Warrenton to get theater and lodge hall.
 Bandon—Mouth of river to be dredged.
 Riddle bids fair to become metropolis of southern Douglas county.
 Eugene—Pacific Telephone and Telegraph company spends \$60,000 on improvements here.
 Unprecedented good roads activity is progressing in Hood River valley.
 Pendleton—Contract awarded for new warehouse.
 North Bend—North Bend Mill and Lumber company puts on double shift.
 Eugene shows \$700,000 increase

in bank deposits since March 10.
 Corvallis—Methodists start \$100,000 building.
 Eugene to get \$50,000 hospital.
 Riddle mill to re-open.
 La Grande issuing many building permits.
 Dallas—California packing corporation erecting \$6500 prune dryer.
 Electric railway to be extended from Milton to Umapine.
 Clatskanie has assurance of picking plant.
 Quarter million being spent in Eugene building activities.
 Silver Lake—Union Oil company to start work on plant.
 Dallas—Willamette Valley Lum-

ber company has payroll of \$25,000 monthly.
 Hood River—New power plant to cost \$1,255,000.

Ashland Granite Company
 (Cut out this valuable information, it may not appear again.)

Granite Testimony

The ASHLAND GRANITE COMPANY, at Ashland, Oregon, has been incorporated with an authorized capital stock of \$150,000 in shares of \$100.00 each, all common stock. The purpose of this company is to purchase 140 acres of land with the machinery and other equipment of the Blair Granite Company, enlarge the plant and conduct the business on a much larger scale and therefore to better advantage. A ten acre tract on the railroad will be provided for a manufacturing site.

In the past six years, Mr. Walter M. Blair has sold over \$60,000 worth of granite, largely in the following places, Medford, Eugene, Hillsboro, Corvallis, The Dalles, and to seven dealers in Portland, Oregon; Chehalis, Walla Walla, Bellingham, Olympia, Everett, two dealers in Spokane and two dealers in Seattle, Washington; Boise, Idaho, and in Redding and Yreka, California. This granite is therefore well and favorably known in the Northwest. It is conceded to be equal to the best gray granite quarried anywhere on this continent.

At the instigation of Ashland men, Mr. Henry M. Parks, Director of the Bureau of Mines and Geology at Portland, Oregon, visited the Blair quarry and made an official report thereon which is in part as follows:

"The stone in the vicinity of the Blair quarry is part of a very large mass of granite which makes up the main part of Ashland mountain. When first formed the granite which we now see on the surface in the vicinity of Neil creek was probably thousands of feet below the surface of the earth where it cooled very slowly. There is no question as to the quantity of stone available in the vicinity of the Blair quarry. It is practically unlimited."

(Signed) HENRY M. PARKS, Director.

Original letters containing the following extracts are on file with the Ashland Granite Company:

F. R. Hardy, Spokane, Washington.
 "I do not hesitate to say that in my opinion the Ashland granite is fully equal to the Barre, Vermont, granite. There is no doubt in the world but it will prove to be a great privilege to secure stock in this corporation within three years after it is organized"

E. C. Lake, Eugene, Oregon.
 "Mr. Blair has delivered to me some as fine granite dies as I could expect to get from any granite dealer in the east."

Ole Kure, Chehalis, Washington.
 "I think the granite is very fine and good, the only drawback to it is that I can't get it when I want it."

M. N. Lewis & Co., Hillsboro, Ore.
 "I do not think there is anything better than Ashland as to gray granite. When I am sure of getting goods from Ashland on time, then I will not order any more Barre. As to your selling all the output of the Ashland quarries this you will have no trouble to do."

F. H. Watts of Watts Marble Works, The Dalles, Oregon.
 "I think it is a better granite than Barre. I have decided to use the Ashland granite altogether."

G. B. Johnson, Portland, Oregon.
 "I do not hesitate to state that could Ashland granite be produced in quantities sufficient to supply the market, the dealers here would have no further use for Barre granite."

Frank D. Weeks of Spokane Monumental Co., Spokane, Washington.
 "We have used possibly one hundred small polished pieces last year and for all purposes we wished, it was very satisfactory. We are interested in seeing Ashland granite placed on the market in such shape as to insure prompt delivery of orders so we can depend on putting in a line of it."

John Eddy Franklin of Washelli Cemetery, Seattle, Washington.
 "We think very well of this Ashland granite and believe if properly pushed it would take the place on the Pacific coast of the Barre Vermont granite which has been very popular."

W. J. Masterson of the Redding Marble Works, Redding, California.
 "I have used quite a lot of the stone (Ashland granite) some time ago and find

it to be A-No. 1 stone."
 Frank VanHoesen, Corvallis, Oregon.
 "Will say I can recommend it (Ashland granite) fully as good as Barre, I have used this granite for some time, and I deem it first class in every respect.—I am sure a lot of finished work on hand at all times would be a big paying proposition and would mean lots of real business. I am sure I would be glad to turn all of my orders your way."

J. C. Bruchner of Otto Schuman Granite and Marble Works, Portland, Ore.
 "As one of the largest consumers in this territory of granite quarried by the Blair Granite Co., we would be glad to see the change made, and we are satisfied that the property, if developed on a large scale, would be an excellent paying proposition. We claim that it outranks the Vermont product. With an up-to-date equipped quarry and finishing plant you will, without doubt, find a ready market in the whole territory west of the Rocky mountains. Assuring you of our patronage and good will, we remain,"

T. A. Wylie, of Wylie Monument Works, Walla Walla, Washington.
 "We are very glad to learn that you are contemplating forming a new company to take over the Blair Granite Company, and work on a larger scale. "We have used this granite for some time, and find it to be a fine granite monumental granite, and compares favorably with the celebrated 'Rock of Ages' granite of Barre, Vermont."

King Granite Co., North Portland.
 "We have used quite a little of it (Ashland granite) and like it very much and have had no trouble to sell it, the only fault we experienced was in not getting it when we wanted it."

Oregon Granite Co., Medford, Oregon.
 "We are so enthused over the quality of the granite you (W. M. Blair) furnished us for the "Willits" monument, that we feel called upon to pass some of our enthusiasm on to you. You will recall that this was a large all polished die with fine hammered base.

"In all our entire twenty-five years experience in the monument business we have never seen a more perfect piece of stock."

Earl Perry, of Perry Granite Co., Portland, Ore. Sept. 11, 1920.
 (To W. M. Blair) "I could use a carload of your granite if I had any assurance that I could get it before March 1, 1921, and your money will be ready as soon as the car is unloaded."

Owing to lack of space much interesting information and many additional comments in these letters have had to be omitted.

Computations made from original price lists of Barre, Vermont, granite, with freight figured at carload rates, using a slab of granite 2 feet by 1 foot by 2 1/2 feet, polished on one side as a basis, we find that at point of production the cost of Barre granite is 30 per cent higher than Ashland granite. Delivered in Portland, Oregon, it is 53 per cent higher and delivered at San Francisco it is 46 per cent higher. California monumental granites, inferior to Ashland and Barre, and not in the same class with the latter two, cost more delivered in Portland and a little less in San Francisco, according to their quoted prices, than Ashland granite delivered to these points.

Ashland granite can be shipped as far east as Butte and Helena, Montana, and as far south as San Diego, California, at a lower freight rate per 100 pounds than the Barre granite can be shipped to these points by rail. The rail and water rates combined (including various sundry necessary incidental charges) from Barre to Portland, Oregon, average only about 20 cents per 100 pounds less than the through rail rates. This makes the water transportation to Portland cost about three times what the rail rate is from Ashland.

Freight computations are from figures supplied by the general freight agent of the Southern Pacific. Monuments of both Ashland and Barre granite can be seen in Medford at the Oregon Granite Co., works, corner N. Front and 6th.

Visit the quarry with us Tuesday afternoon.
