It is the intention of the officials to later on make many improvements in the city's park, the principal one being the installation of an old log cabin now unused in the Humbug section. This is to be brought down and set up, a fireplace installed and the whole building made perfectly comfortable for the people who care.

It might be safe to say at this passed Yreka will have added much to her fame as the entertainer of tourists, even if the days of free parking are over.
