CONFERENCE DECIDES ON REFERENDUM RETURNABLE JUNE 30

Decision Came As a Surprise, As Leaders Had Declared That No Strike Vote Would Be Considered During Brotherhood Conference.

CINCINNATI, June 7.—"The situation is exceedingly serious, and present indications tend to forecast a vote favorable to a strike," said President Jewell of the railway employees department of the American Federation of Labor today, commenting on the decision last night of the heads of the brotherhoods here to call a strike vote, returnable June 30.

The decision, made last night, came as a surprise, as leaders had previously declared that under no condition would a strike vote be called at this conference.

SUMMER NORMAL PRACTICE SCHOOL TO OPEN JUNE 21

The people of Ashland are asked to remember the date of the summer school which begins on Wednesday, June 21, at the Hawthorne school building. There will also be a well-arranged musical program, including concerts, and recreational features, such as swimming, hiking, fishing, etc., are to be found on every side. BLOW AT UNIONS HITS FARMERS CO-OPERATION

MARKETING SYSTEM PREVAILING IN WEST UNDER ANTI-TRUST BAN

Supreme Court Decision Wipes Out Immunity Clause of Anti-Trust Law, Which Exempted Labor Unions and Farmers' Co-operatives.

WASHINGTON, June 7.—The decision by the United States supreme court that labor unions can be sued under the anti-trust law, is admitted by labor leaders to be the greatest single blow ever experienced by organized labor, and was held to be equally menacing to the organized farmers' movement, which has been growing in the United States at an astonishing speed during the last few years. This realization came to the agricultural interests in congress with startling suddenness today. The more study that is applied to Justice Taft's opinion, the more alarming it becomes to agricultural and labor interests, according to their representatives in congress.

The Taft decision, it is said by legal authorities, virtually wipes out the immunity clause contained in that paragraph of the Sherman and Clayton anti-trust laws, which specifically sets forth that labor unions and farmers unions are not liable to penalty under the provisions contained in it. A number of senators see in the decision a body blow to the co-operative scheme of marketing which has grown with such rapidity in the western states.

MEDFORD WANTS RECIPROCITY WITH ASHLAND

Because of the natural facilities to entertain a large number of people, the citizens of Ashland have always willingly contributed their time and money toward making the Fourth of July an entertaining event, says the Medford Mail Tribune. This year they offer a feature that is different than any held in the past. Under an agreement between leading citizens of Medford and Ashland, the residents of Medford are asked to do what they can to make the Fourth of July celebration at Ashland a success. In return, the citizens of Ashland are to be asked by their chamber of commerce to help Medford make a success of the Jackson county fair which will be held September 13th to 16th.
